negotiations for the definitive peace treaty Franklin deftly negotiated America's first commercial treaty with a neutral nation Sweden which was signed in secret He distributed his richly symbolic Libertas Americana medal worked toward the publication of his French edition of the American state constitutions and fielded scores of letters from people all over Europe who sought to emigrate to establish trade connections with the United States to become consuls and to offer congratulations and advice

"Life Stories of Women Artists, 1550-1800" Julia K. Dabbs, 2017-07-05 The struggles and achievements of forty six notable women artists of the early modern period as documented by their contemporaries are uniquely brought together in this anthology The life stories presented here are foundational texts for the history of art but since most are found only in rare volumes and few have been translated into English until now they have been generally inaccessible to many scholars Originally published in biographical compendia such as Vasari's *Lives of the Artists* the writings included here document not only the lives of relatively well known women artists such as Artemisia Gentileschi and Sofonisba Anguissola but also those who have languished in obscurity like Anna Waser and Li Yin Each life story is preceded by a brief introduction to the artist as well as to her biographer and the texts themselves are annotated to provide necessary clarification Beyond their documentary value these stories provide fascinating insight as to how men commonly characterized women artists as exceptions to their sex and attempted to explain their presence in the male dominated realm of art The introductory chapter to the book explores this intriguing gender dynamic and elucidates some of the strategies and historical context that factored

into the composition of these lives The volume includes an appended index to women artists life stories in biographical compendia of the period **Women and Freedom in Early America** Larry Eldridge, 1997 It is virtually impossible to generalize about the degree to which women in early America were free What if anything did enslaved black women in the South have in common with powerful female leaders in Iroquois society Were female tavern keepers in the backcountry of North Carolina any more free than nuns and sisters in New France religious orders Were the restrictions placed on widows and abandoned wives at all comparable to those experienced by autonomous women or spinsters Bringing to light the enormous diversity of women s experience Women and Freedom in Early America centers variously on European American African American and Native American women from 1400 to 1800 Spanning almost half a millenium the book ranges the colonial terrain from New France and the Iroquois Nations down through the mainland British American colonies By drawing on a wide array of sources including church and court records correspondence journals poetry and newspapers these essays examine Puritan political writings white perceptions of Indian women Quaker spinsterhood and African and Iroquois mythology among many other topics
