Patient Not The Cure The Challenge Of Homeopathy:

The Role of Homeopathy in the Patient's Disease Dr. Saran Zeb, 2022-01-25 This book contains 18 chapters The first chapter contains the life of Dr Hahnemann The second chapter contains different methods of homeopathic treatment In chapter third I discuss case taking Chapter four contains a case analysis Chapter five consists of homeopathic repertorisation and in chapter six I discuss the minimum doses Chapter seven onward consists of various health issues and mentioned the cases which I treated last 25 years I mentioned a few hundred cases in this book and contains different types of methods Each chapter is divided into three parts therapeutic method classical method and revolutionised method Chapter 18 contains Materia Medica I include 15 remedies which can be used daily bases in homeopathic practice **The Patient, Not the Cure** Margery G. Blackie, 1978 Explores the history and basic concepts of medicine and describes the effectiveness of various remedies against a wide range of ailments **Hahnemann & Homoeopathy** Peter Morrell, 2003 This volume brings together most of the author s essays about Hahnemann that have been published in various journals in the last ten years or so **The Patient as Agent of Health and Health Care** Mark Sullivan, MD, PhD, 2016-12-15 Patient centered care for chronic illness is founded upon the informed and activated patient but we are not clear what this means We must understand patients as subjects who know things and as agents who do things Bioethics has urged us to respect patient autonomy but it has understood this autonomy narrowly in terms of informed consent for treatment choice In chronic illness care the ethical and clinical challenge is to not just respect but to promote patient autonomy understood broadly as the patients overall agency or capacity for action The primary barrier to patient action in chronic illness is not clinicians dictating treatment choice but clinicians dictating the nature of the clinical problem The patient s perspective on clinical problems is now often added to the objective disease perspective of clinicians as health related quality of life HRQL But HRQL is merely a hybrid transitional concept between disease focused and health focused goals for clinical care Truly patient centered care requires a sense of patient centered health that is perceived by the patient and defined in terms of the patient s vital goals Patient action is an essential means to this patient centered health as well as an essential component of this health This action is not extrinsically motivated adherence but intrinsically motivated striving for vital goals Modern pathophysiological medicine has trouble understanding both patient action and health The self moving and self healing capacities of patients can be understood only if we understand their roots in the biological autonomy of organisms Taking the patient as the primary perceiver and producer of health has the following policy implications 1 Care will become patient centered only when the patient is the primary customer of care 2 Professional health services are not the principal source of population health and may lead to clinical social and cultural iatrogenic injury 3 Social justice demands equity in health capability more than equal access to health services **The Healing Enigma** Vinton McCabe, 2007-01-01 In his twenty five years as a homoeopathic lecturer Vinton McCabe has taught thousands of medical professionals and laypersons alike both the philosophy and practice

of homoeopathic medicine Through his books on the subject he has reached many more giving his readers both the tenets of homoeopathy as put forth originally by Samuel Hahnermann more than two hundred years ago and his own unique viewpoint on the subject of homoeopathic healing With *The Healing Enigma* McCabe makes use of his full experience of homoeopathy to give a fully rounded assessment of the principles of homoeopathy and the manner in which it is practised today All Women Are Healers Diane Stein,2011-03-02 By the study experimentation and practice of natural healing women are changing and charting the future of health care Despite heavy resistance or lack of recognition from patriarchal medicine they are nevertheless making positive changes that will continue and increase Women s emphasis on one to one work practiced in mutual agreement and participation is very different from mechanized and big money medicine and has results and successes far beyond expectations The emphasis on self healing returns health care to the consumer to women s lives and bodies for the first time in centuries The medical system cannot control a movement held in the hands of women though it may try Women are taking control again of healing our daughter right for the first time since the matriarchies and the Inquisition from the Introduction **The German Genius** Peter Watson,2010-09-16 From the end of the Baroque age and the death of Bach in 1750 to the rise of Hitler in 1933 Germany was transformed from a poor relation among western nations into a dominant intellectual and cultural force more influential than France Britain Italy Holland and the United States In the early decades of the 20th century German artists writers philosophers scientists and engineers were leading their freshly unified country to new and undreamed of heights and by 1933 they had won more Nobel prizes than anyone else and more than the British and Americans combined But this genius was cut down in its prime with the rise and subsequent fall of Adolf Hitler and his fascist Third Reich a legacy of evil that has overshadowed the nation s contributions ever since Yet how did the Germans achieve their pre eminence beginning in the mid 18th century In this fascinating cultural history Peter Watson goes back through time to explore the origins of the German genius how it flourished and shaped our lives and most importantly to reveal how it continues to shape our world As he convincingly demonstrates while we may hold other European cultures in higher esteem it was German thinking from Bach to Nietzsche to Freud that actually shaped modern America and Britain in ways that resonate today The Healing Enigma (Volume 2 of 2) (Easyread Super Large 20pt Edition) , **Nature Cures** James C. Whorton,2004 Writing with wit and with fairness to all sides Whorton offers a fascinating look at alternative health systems highlighting their history theories successes and failures His book is an engaging and authoritative history that highlights the course of alternative medicine in the U S providing valuable background to the wide range of therapies available today *The Natural Health Guide to Headache Relief* Paula Maas,Deborah Mitchell,1997 Unsurpassed in scope and effectiveness this is a unique and comprehensive collection of natural headache remedies that will help sufferers discover how to identify the headache type and explore a wealth of soothing therapies that can be used alone or in combination with conventional medical care *Prevention & Treatment of MENTAL DISORDERS (5th - 7th Body, Mind &*

Life Conference Presentations) [Men-Tsee-Khang-ཏེང་སེང་མཆོག་] Dr. (Ms.) Tenzin Choying, HoD, BML Dept, TASP (Ms.) Sonam Tsamchoe, BML Dept, BML Dept, Mr. Tenzin Kalden, Translator, BML Dept, 2020-03-23 Message of His Holiness the 14th Dalai Lama In general when we talk about health and fitness we cannot put the mind aside The wellness of physical health is very much dependent on the clarity and intelligence of the mind However the mind and body has the relationship of support and supported These are unconditionally associated with each other So there is a growing interest and curiosity for the relationship between the mind and body Thus it is need of time for convening such a conference on the body mind and Life Not only sharing your knowledge and intellect but also you are practically working on exploring remedies for solving the physical and mental health It s wonderful I would like to thank all the organizers The above is an excerpt from exclusive message which was bestowed by H H the 14th Dalai Lama to the participants of the 2nd BMLConference on 1st October 2014
