Patterns Of Moral Complexity:

Patterns of Moral Complexity Charles E. Larmore, 1987-01-30 Discusses three forms of moral complexity that have often been neglected by moral and political philosophers Virtue is dependent upon judgment liberalism does not necessarily inform private life and morality must needs be heterogeneous

Patterns of Moral Complexity Charles Everett Larmore, 1922 *Perfectionism and Neutrality* George Klosko, Steven Wall, 2004-09-01 Over the past twenty years the debate between neutrality and perfectionism has been at the center of political philosophy Now *Perfectionism and Neutrality Essays in Liberal Theory* brings together classic papers and new ideas on both sides of the discussion Editors George Klosko and Steven Wall provide a substantive introduction to the history and theories of perfectionism and neutrality expertly contextualizing the essays and making the collection accessible to everyone interested in the interaction between morals and the state

Virtue John W. Chapman, William Arthur Galston, 1993-08 In the United States there exists increasing uneasiness about the predominance of self interest in both public and private life growing fear about the fragmentation and privatization of American society mounting concerns about the effects of institutions ranging from families to schools to the media on the character of young people and a renewed tendency to believe that without certain traditional virtues neither public leaders nor public policies are likely to succeed In this thirty fourth volume in *The American Society of Legal and Political Philosophy* a distinguished group of international scholars from a range of disciplines examines what is meant by virtue analyzing various historical and analytical meanings of virtue notions of liberal virtue civic virtue and judicial virtue and the nature of secular and theological virtue The contributors include Jean Baechler University of Paris Sorbonne Annette C Baier University of Pittsburgh Ronald Beiner University of Toronto Christopher J Berry University of Glasgow J Budziszewski University of Texas Charles Larmore Columbia University David Luban University of Maryland Stephen Macedo Harvard University Michael J Perry Northwestern University Terry Pinkard Georgetown University Jonathan Riley Tulane University George Sher University of Vermont Judith N Shklar Harvard University Rogers M Smith Yale University David A Strauss University of Chicago and Joan C Williams American University

Liberalism and Its Discontents Patrick Neal, 2016-07-27 In these essays the reigning models of liberal political theory of John Rawls and Joseph Raz are immanently criticized Neal argues that neither political nor perfectionist liberalism adequately gives expression to the liberal spirit Surprisingly Neal finds resources for the expression of such a spirit in the much maligned tradition of Hobbesian or vulgar liberalism He argues that a turn in this direction is necessary for the articulation of a liberalism more genuinely responsive to the diversity of modes of life in the twenty first century

Conscience and Community Andrew R. Murphy, 2009-03-02 Religious toleration appears near the top of any short list of core liberal democratic values Theorists from John Locke to John Rawls emphasize important interconnections between the principles of toleration constitutional government and the rule of law *Conscience and Community* revisits the historical emergence of religious liberty in the Anglo American tradition looking

deeper than the traditional emergence of toleration to find not a series of self evident or logically connected expansions but instead a far more complex evolution Murphy argues that contemporary liberal theorists have misunderstood and misconstrued the actual historical development of toleration in theory and practice Murphy approaches the concept through three myths about religious toleration that it was opposed only by ignorant narrow minded persecutors that it was achieved by skeptical Enlightenment rationalists and that tolerationist arguments generalize easily from religion to issues such as gender race ethnicity and sexuality providing a basis for identity politics

Foundations of Liberalism Margaret Moore,1993-02-18 This book is an original critique of contemporary liberal theories of justice focusing on the problem of how to relate the personal point of view of the individual to the impartial perspective of justice Margaret Moore s examination of prominent contemporary arguments for liberal justice reveals that individualist theories are subject to two serious difficulties the motivation problem and the integrity problem Individualists cannot explain why the individual should be motivated to act in accordance with the dictates of liberal justice and related to this offer radically incoherent accounts of the person Revisionist liberal attempts to ground liberalism in contextual and perfectionist terms offer more defensible foundations but Dr Moore argues that such theories do not support liberal political principles She concludes by sketching a historical and concrete approach to political and ethical theorizing which reformulates the relation between self interest and morality and is not subject to the problems that beset liberal individualist theories of justice Her book advances the debate between communitarians and liberals about the kind of moral foundation which a liberal society requires

International Law and the Possibility of a Just World Order Steven V. Hicks,2021-11-15

The Morals of Modernity Charles Larmore,1996-03-29 Arguing against recent attempts to return to the virtue centered perspective of ancient Greek ethics these essays explore the problem of the relation between moral philosophy and modernity by studying the differences between ancient and modern ethics

Simone Weil's Philosophy of Culture Richard H. Bell,1993-03-04 This is an excellent treatment by fourteen distinguished scholars of some of the central strands in the philosophy of Simone Weil

Handbook of Bioethics and Religion David E. Guinn,2006-08-10 What role should religion play in a religiously pluralistic liberal society This work address specific issues such as assisted suicide stem cell research cloning reproductive health and alternative medicine It focuses on the interface of religion and bioethics

Morality and Moral Theory Robert B. Louden,1992 Contemporary philosophers are increasingly sceptical toward both morality and moral theory Some argue that moral theory is a radically misguided enterprise which does not illuminate moral practice while others simply deny the value of morality in human life The author responds to the arguments of both anti morality and anti theory sceptics

Pluralism and Liberal Neutrality Richard Bellamy,Martin Hollis,2020-04-27 The crisis of liberalism is in its claim to endorse neutral procedures that allow individuals and groups to pursue their own good when the very possibility of such neutrality is affected by the growth of plural societies and resulting divisions of loyalty This collection explores this crisis

The Return of the

Political Chantal Mouffe, 2020-03-31 In this work Mouffe argues that liberal democracy misunderstands the problems of ethnic religious and nationalist conflicts because of its inadequate conception of politics He suggests that the democratic revolution may be jeopardized by a lack of understanding of citizenship community and pluralism Mouffe examines the work of Schmidt and Rawls and explores feminist theory in an attempt to place the project of radical and plural democracy on a more adequate foundation than is provided by liberal theory

Groups and Group Rights Christine T. Sistare, Larry May, Leslie Francis, 2001 In matters such as affirmative action or home schooling rights of ethnic and other minority groups often come into conflict with those of society in a culturally diverse population such as ours But before considering the dilemmas posed by these issues we must first ask such basic but important questions as what group rights are and how they intersect with the principles of democracy This new collection brings together some of today's leading thinkers from the cutting edge of these debates taking in a broad range of issues confronting philosophers sociologists and political scientists Contributors such as Carl Wellman Carol Gould and Rex Martin examine the nature of groups and the conflict between group rights and democracy and also consider case studies depicting current issues in cultural ethnic and religious rights The first section on the nature of groups examines some of the perplexing alternatives in the formulation of a theory of group rights These articles investigate the kinds of rights minorities might claim and ask when groups can be held responsible for the acts of some of their members The second section addresses the treatment of groups in a democracy and the precarious balance between indifference toward minorities and capitulation to their demands Here the contributors examine five principles for the sensitive treatment of minority and disadvantaged groups in a democratic society A final section explores specific conflicts between subgroup and societal claims through case studies dealing with affirmative action religious practice and the education of children and the land rights of indigenous peoples By drawing on the legal and political dilemmas related to these cases the authors confront issues of core versus peripheral interests of individual member versus subgroup rights and of the possibilities for social openness raised in the preceding sections Written from varied perspectives Groups and Group Rights offers stimulating reading for both students and professionals as it takes on some of the most pressing dilemmas confronting our society

Cultural Pluralism and Dilemmas of Justice Monique Deveaux, 2018-10-18 How should democratic societies define justice for cultural minority groups and how might such justice be secured This book is a nuanced and judicious response to a critical issue in political theory the challenge of according equal respect and recognition to minority groups and accommodating their claims for special cultural rights and arrangements Monique Deveaux contends that liberal theorists fail to grant enough importance to identity and the content of cultural life in their attempts to conceive of political institutions for plural societies She takes to task the spectrum of theories on pluralism from weak and strong theories of tolerance through neutralist liberalism to comprehensive liberalism and finally to arguments for deliberative politics that build on Jürgen Habermas's discourse ethics The solution proposed here is deliberative liberalism which

incorporates both critically reconceived principles of deliberative democracy and central liberal norms of consent and respect Cultural conflicts in democratic societies include clashes involving Aboriginal peoples ethnic and linguistic minorities and recent immigrant groups in Europe North America and Australia Drawing on examples from several countries Deveau concludes that genuine respect and recognition for cultural minorities requires full inclusion in existing institutions and the right to help shape the political culture of their own societies through democratic dialogue and deliberation *What's the Matter with Liberalism?* Ronald Beiner, 2023-04-28 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1992 Democratic Community John W. Chapman, Ian Shapiro, 1993-05 A state of the art meditation on relations theoretical and practical among a familiar triad of themes communitarianism liberalism and democracy American Political Science Review A collection of distinguished contributors from a wide range of disciplines examine the implications of the resurgence of interest in community The chapters in *Democratic Community* consider the fundamental issues that divide liberals and communitarians as well as the structure of communities the roles of freedom and democratic institutions in sustaining one another the place of a democratic civil society in a democratic polity and the contributions of feminist thinking This thirty fifth volume in the American Society of Political and Legal Philosophy series is devoted as is each volume in the series to a single topic in this case the implications for human nature and democratic theory of the resurgence of interest in community *Democratic Community* deals not only with fundamental issues that divide liberals and communitarians but is also concerned with the structure of communities the roles of freedom and democratic institutions in sustaining one another the place of a democratic civil society in a democratic polity and the contributions of feminist thinking to the great debate The collection of distinguished contributors from a wide range of disciplines includes Richard J. Arneson University of California San Diego Jean Baechler University of Paris Sorbonne Christopher J. Berry University of Glasgow Robert A. Dahl Yale University Martin P. Golding Duke University Carol C. Gould Stevens Institute of Technology Amy Gutmann Princeton University Jane Mansbridge Northwestern University Kenneth Minogue London School of Economics Robert C. Post University of California Berkeley David A. J. Richards New York University Gerald N. Rosenberg University of Chicago Bruce K. Rutherford Yale University Alan Ryan Princeton University and Carmen Sirianni Brandeis University Interpreting Visual Culture Ian Heywood, Barry Sandywell, 2005-07-28 Ranging from an analysis of the role of vision in current critical discourse to discussion of examples taken from the visual arts ethics and sociology this collection presents material on the interpretation of the visual in modern culture **The Case for Humanism** Lewis Vaughn, Austin Dacey, 2003 *The Case for Humanism* is the premier textbook to introduce and help students think critically about the big ideas of Western humanism secularism rationalism materialism
