Cargo Access Equipment for Merchant Ships Ian Lyon Buxton, 2012-12-06 As President of International MacGregor I am deeply indebted to the authors of this excellent book for the very considerable amount of work and scholarship it contains It is the first authoritative work on cargo access equipment to be published and I am sure that it will be greatly welcomed by the Marine Industries You will see from the authors preface that the book was commissioned by the Henri Kummerman Foundation which was established in 1976 to assist and promote internationally research and development in the field of marine transportation and cargo handling The Foundation has already made a number of grants to universities and to students but this book is its first major contribution to the furthering of education in the Marine Industries For me it is a rewarding fruition of a long involvement in maritime affairs However much requires to be done in the future and the Foundation can only succeed if it is encouraged and assisted by people who are forward thinking I should be pleased therefore to hear from any readers of this book if they feel that they can help or be helped within the aims and objectives of the Foundation 28 Chemin du Pommier HENRI KUMMERMAN 1218 Geneva Switzerland

Shipping and Development in Dubai Keith Nuttall, 2021-10-21 A small town on a sandy creek half a century ago Dubai is now the largest trading commercial leisure and transport entrepot in the Gulf and wider region This book explains the reasons for the emergence of Dubai and its distinctive development trajectory arguing that the decision in

the 1970s to invest in infrastructure made possible by shipping containerization laid the foundations for its future expansion. The book shows that in contrast to its competitors hydrocarbon rentier economic model, Dubai's creation and expansion of ports and airports together with value added logistics and business friendly enhancements were used to out-compete regional rivals. Drawing on a range of primary and secondary sources including interviews with logistics business people, government records, memoirs, it fills a significant lacuna in the history of Dubai's development and emergence as a global trade hub. *Global Cargo Industry: Resilience of Asia-Pacific Shipping Industries* Datta, Bivek, Satghare, Harshada

Rajeev, 2024-04-22. In global commerce, amidst the testament to human innovation and interconnectedness, lies disruptions, challenges, and uncertainties that threaten the seamless flow of goods across the world. The global cargo industry, with its complexities, has become a place where the resilience of Asia-Pacific shipping industries emerges as a beacon of adaptability and fortitude. As disruptions become the new norm, the challenges faced by these industries intensify. It is against this dynamic backdrop that *Global Cargo Industry: Resilience of Asia-Pacific Shipping Industries* takes center stage, delving into the heart of this paradox to uncover the strategies, innovations, and policies that have not only allowed the industry to weather storms but also enabled it to thrive. The primary objective of *Global Cargo Industry: Resilience of Asia-Pacific Shipping Industries* is to provide an in-depth analysis of the strategies, policies, and innovations that have empowered Asia-Pacific shipping industries to thrive. Serving as a bridge between theoretical insights and practical applications, the book offers a comprehensive view of the challenges and opportunities that have shaped the resilience of the region's shipping sector. Through a collection of insightful chapters, readers gain an understanding of the nature of the global cargo industry and the strategies that have contributed to the industry's adaptability. *China, International Trade*, 1980 **Pacific Trade Patterns** United States. Shipping and Logistics Management Y. H. Venus Lun, Kee-hung Lai, T. C. Edwin Cheng, Dong Yang, 2023-04-20. This book explains global trends and strategies in the shipping business, looking at the role of logistics service providers and at how information technology can help shipping operations. It also introduces best practices and advice that will allow professionals to improve the management of shipping and logistics activities. The book consists of sections examining shipping and trade business strategies for shipping, intermodal container transport operations, and ports. This new edition adds a new fifth section with four new chapters that discuss contemporary issues in shipping. The new chapters are related to risk management in shipping, shipping security and safety, environmental and social sustainability, and a review of new technologies in the shipping industry and their future potential. An invaluable source of information for researchers and advanced or graduate students, *Shipping and Logistics Management* is also a useful reference for shipping practitioners and consultants. Stewart, Anton Bongers, Russel H. Hinds, 1976 **Handmaiden of Trade** Keith Trace, 1988 This volume is the result of a three year research project carried out as part of the ASEAN Australia Joint Research Project Its focus on the problems of shipping between the ASEAN countries excluding Brunei Darussalam and Australia is intended to help in the formulation of policies for the promotion of closer economic relations between the two regions **Mediterranean Connections A.** Knapp, Stella Demesticha, 2016-08-25 Mediterranean Connections focuses on the origin and development of maritime transport containers from the Early Bronze through early Iron Age periods ca 3200 700 BC Analysis of this category of objects broadens our understanding of ancient Mediterranean interregional connections including the role that shipwrecks seafaring and coastal communities played in interaction and exchange These containers have often been the subject of specific and detailed pottery studies but have seldom been examined in the context of connectivity and trade in the Aegean and eastern Mediterranean This broad study considers the likely origins of these types of vessels traces their development and spread throughout the Aegean and eastern Mediterranean as archetypal organic bulk cargo containers discusses the wider impact on Mediterranean connections transport and trade over a period of 2 500 years covering the Bronze and early Iron Ages Classical and Near Eastern archaeologists and historians as well as maritime archaeologists will find this extensively researched volume an important addition to their library **Gateways Of Asia** Frank Broeze, 2013-10-28 First Published in 1997 The dynamic role of port cities has been a major element in the thrust of modern port city literature since In the process interactions between history and other disciplines above all geography economics and town planning resulted in a growing number of collaborative volumes Indicative of the broad front multi disciplinary approach and challenging agenda of this wave of port town and port city studies is the collective and diverse nature of the themes and authorship of each of these works That very diversity of disciplines nationalities and perspectives is also one of the main pillars supporting Gateways of Asia It is not a repetition or summary of the introduction and first chapter of Brides of the Sea but the publication of this volume in many ways a sequel to that work does provide the opportunity of clarifying a few points and elaborating on some issues raised after its publication **Economics of Maritime Business** Shuo Ma, 2020-06-02 This book provides a comprehensive introduction to the economics of the business of maritime transport It provides an economic explanation of four aspects of maritime transport namely the demand the supply the market and the strategy The book first explains why seaborne trade happens and what its development trends are it then analyses the main features of shipping supply and how various shipping markets function the book finally addresses the critical strategic issues of the shipping business The full range of different types of shipping are covered throughout the chapters and cases The book combines the basic principles of maritime transport with the modern shipping business and the latest technological developments particularly in the area of digital disruption The ideas and explanations are supported and evidenced by practical examples and more than 160 tables and figures The questions posed by the book are similar to those that would be asked by the

students in their learning process or the professionals in the business environment with the answers concentrating on the reasons for what has happened and will happen in the future rather than merely fact telling or any specific forecast The book is most suited for students of shipping related disciplines and is also a valuable reference for maritime professionals
