Quête ésotérique et création poétique dans *Anabase* de Saint-John Perse Laurent Fels, 2009 Le poème *Anabase* 1924 constitue une réflexion approfondie sur la création poétique de Saint John Perse dont le présent ouvrage essaie de retracer les différentes tapes Autour de cette exploration des tendues d'un continent que l'on ne saurait localiser avec pr

Forged Genealogies Carol Rigolot, 2001 According to Carol Rigolot reading the work of Nobel Prize winning poet Saint John Perse 1887-1975 is not unlike eavesdropping on a telephone conversation in which only one side is audible His poems are antiphonal and even polyphonic works where intertextuality is a key feature *Abdelkébir Khatibi* Jane Hiddleston, Khalid Lyamlahy, 2020 Abdelkébir Khatibi is one of the most important voices to emerge from North Africa in postcolonial studies This book is the first to offer a thoroughgoing analysis in English of all aspects of his multifaceted thought as it ranges from Moroccan politics to Arabic calligraphy and from decolonisation to interculturality **African Art as Philosophy** Souleymane Bachir Diagne, 2023-09-05 This critically acclaimed study offers a distinct incisive look at how Senegalese philosopher Senghor sees in African art the most acute expression of Bergson's philosophy Leopold Sedar Senghor 1906-2001 was a Senegalese poet and philosopher who in 1960 also became the first president of the Republic of Senegal In African Art as Philosophy Souleymane Bachir Diagne uses a unique approach to reading Senghor's influential works taking as the starting point for his analysis Henri Bergson's idea that in order to understand philosophers one must find the initial intuition from which every aspect of their work develops In the case of Senghor Diagne argues that his primordial intuition is that African art is a philosophy To further this point Diagne looks at what Senghor called the 1889 Revolution the year Bergson's Time and Free Will was published as well as the influential writers and publications of that period specifically Nietzsche and Rimbaud The 1889 Revolution Senghor claims is what led him to the understanding of the Vitalism at the core of African religions and beliefs that found expression in the arts **Claudel Newsletter**, 1968 Postcolonial Slavery Charlotte Baker, Jennifer Jahn, 2009-10-02 This collection of eight essays by research students and academics from the UK France Germany and the USA examining different forms and manifestations of postcolonial slavery underlines the significance of the year 2007 marking the bicentennial anniversary of the passage of the British law banning the slave trade Slavery and its legacies galvanized a diachronic series of ethnic crossings and transformations that engendered new and complex patterns of crosscultural contact And the importance of communities of runaway slaves can scarcely be overstated as a symbol of an

insistent black resistance and self affirmation But in bringing the material realities of slavery to the forefront of the imagination this volume also highlights the marginalization of British and French colonial practices in institutionalized frameworks of historical knowledge Actively contesting the related traumas of transplantation the middle passage and the fracturing of the collective memory and drawing actively on a wide range of approaches and perspectives this collection seeks to reinscribe a material historical consciousness of slavery and its legacies through a strategic interaction between history subjectivity and representation H Adlai Murdoch University of Illinois at Urbana Champaign **Catalogue complet du fonds Paul Claudel** , Index to Periodical Articles by and about Negroes, 1971 Central State University Ohio,1973
