*Regressive Fictions* Robin Howells,2017-12-02 In a cultural shift around the mid point of the French eighteenth century the mode of wit is increasingly displaced by bourgeois pathos Social sophistication and sexual experience are rejected in favour of a retreat into ideal imagination Instead of the novel of worldliness we encounter fictions of better worlds original natural familial innocent and harmonious protected against reality and time The regressive shift is traced in this study in general terms and then through detailed analysis of three of the best selling novels of the period The turning point is represented by Mme de Graffignys *Lettres dune Peruvienne* 1747 1752 with its profound ambivalence towards knowledge A new order is revealed and set out but still declared lacking in Rousseaus *Julie ou la Nouvelle Heloise* 1761 The visionary return to the organic wholeness of nature is offered by Bernardins *Paul et Virginie* 1788 , *Journey to Mauritius* Bernardin de Saint-Pierre,2002 Structured into a series of letters this book was received with hostility when first published in 1773 An introduction sets this travel account in its historical context discussing Bernadin s life and ideas It also explores his contribution to travel writing and relevance to modern day Mauritius Paul Et Virginie. Jacques Henri Bernardin de SAINT PIERRE,A. d' ALBANÈS (pseud.),1845 Satie the Composer Robert Orledge,1990-10-26 Erik Satie remains one of the most bizarre figures in music history yet everything he did has its own curious logic once it can be perceived In this important new study Dr Orledge reveals what made Satie tick as a composer dealing with every aspect of Satie s complex career and relating his achievement to the other arts and to the society in which he lived Almost every figure in contemporary art was involved with Satie in some way or another from Matisse and Picasso to Apollinaire Cocteau and Brancusi This however is no mere life and works study but rather an exploration of the technique behind Satie s art which foreshadowed most of the advances of twentieth century music from serialism to minimalism and even muzak As the book progresses Satie appears as far more than just the composer of the popular *Gymnop dies* and *Parade* *The French Atlantic Triangle* Christopher L.

Miller, 2008-01-11 A study of representations of the French Atlantic slave trade in the history literature and film of France and its former colonies in Africa and the Caribbean      Exotic Nations Renata Wasserman, 2018-03-15 In this highly original and critically informed book Renata R Mautner Wasserman looks at how during the first decades following political independence writers in the United States and Brazil assimilated and subverted European images of an exotic New World to create new literatures that asserted cultural independence and defined national identity Exotic Nations demonstrates that the language of exoticism thus became part of the New World's interpretation of its own history and natural environment
