Paul Klee And The Decorative In Modern Art:

Paul Klee and the Decorative in Modern Art Jenny Anger, 2004-02-12 One of the goals of Modernism was the presentation of the essence of art or pure form Encouraged by theorists modern artists found pure form in ornament which though promising was sullied by connotations of materiality domesticity and femininity Jenny Anger demonstrates that the decorative significantly informed Paul Klee's art She compares his work to that of another major modernist Henri Matisse to confirm the critical role of the decorative in Modernism Anger also explores the relevance of the decorative for contemporary and especially women artists

Paul Klee Annie Bourneuf, 2015-07-20 The book offers a new original look at the great European modernist Paul Klee and the interplay of word and image in the work he produced after WWI when the European avant garde was at its most adamant Bourneuf asks why was it that Klee immersed himself in crossings of image and text at the same time that so much avant garde art focused fiercely on the visual She proposes that Klee created forms that hover between the pictorial and the written to provoke the viewer to look slowly and contemplatively a mode of viewing the artist saw as both analogous to reading and threatened by new technological media such as film mass printing telephones and radio Bourneuf demonstrates how Klee's concern for the literary aspects of visual art is both the motive for and the means of his ironic play with modernist art theories and practices

The Symbolist Roots of Modern Art Michelle Facos, 2017-07-05 With the words A new manifestation of art was expected necessary inevitable Jean Moré announced the advent of the Symbolist movement in 1886 When Symbolist artists began experimenting in order to invent new visual languages appropriate for representing modern life in all its complexity they set the stage for innovation in twentieth century art Rejecting what they perceived as the superficial descriptive quality of Impressionism Naturalism and Realism Symbolist artists delved beneath the surface to express feelings ideas scientific processes and universal truths By privileging intangible concepts over perceived realities and by asserting their creative autonomy Symbolist artists broke with

the past and paved the way for the heterogeneity and penchant for risk taking that characterizes modern art The essays collected here which consider artists from France to Russia and Finland to Greece argue persuasively that Symbolist approaches to content form and subject helped to shape twentieth century Modernism Well known figures such as Kandinsky Khnopff Matisse and Munch are considered alongside lesser known artists such as Fini Gyzis Koen and Vrubel in order to demonstrate that Symbolist art did not constitute an isolated moment of wild experimentation but rather an inspirational point of departure for twentieth century developments

that shapes a dome from programmed beams of light both can inspire feelings of immersion and transcendence In Enfoldment and Infinity Laura Marks traces the strong similarities visual and philosophical between these two kinds of art Her argument is more than metaphorical she shows that the Islamic quality of modern and new media art is a latent deeply enfolded historical inheritance from Islamic art and thought Marks proposes an aesthetics of unfolding and enfolding in which image information and the infinite interact image is an interface to information and information such as computer code or the words of the Qur'an is an interface to the infinite After demonstrating historically how Islamic aesthetics traveled into Western art Marks draws explicit parallels between works of classical Islamic art and new media art describing texts that burst into image lines that multiply to form fractal spaces nonorganic life in carpets and algorithms and other shared concepts and images Islamic philosophy she suggests can offer fruitful ways of understanding contemporary art Partisan Canons Anna Brzyski,2007-10-08 Case studies that counter the idea of a transcendent art canon by demonstrating that the content of any and every canon is historically and culturally specific **Alloys** Marin R. Expressionism Dorothy Price, 2020-06-24 This book presents new research on the histories and legacies of the German Expressionist group Blaue Reiter the founding force behind modernist abstraction For the first time Blaue Reiter is subjected to a variety of novel inter disciplinary perspectives ranging from a philosophical enquiry into its language and visual perception to analyses of its gender dynamics its reception at different historical junctures throughout the twentieth century and its legacies for post colonial aesthetic practices The volume offers a new perspective on familiar aspects of Expressionism and abstraction taking seriously the inheritance of modernism for the twenty first century in ways that will help to recalibrate the field of Expressionist studies for future scholarship Blaue Reiter still matters the contributors argue because the legacies of abstraction are still being debated by artists writers philosophers and cultural theorists today
