Paul Martin:

Paul Martin: My World Of Antiques Paul Martin, 2018-11-15 Paul Martin famous for his passion for beautiful furniture has been the hugely successful TV presenter on BBC1's *Flog It* for the past fifteen years. In this book he reveals hitherto untold stories of fantastic artefact finds and tells us about the key to success in trading antiques. As witty as ever, Paul takes on everything from pietra dura to Pop Art from Britain to Australia from trash to treasure. *My World of Antiques* offers a unique insight into the history of antiques thanks to Paul's boundless knowledge of people and places be it Queen Victoria's royal life at Osborne House or Dame Lucie Rie's ceramic works in a London pottery studio after the Second World War. With a keen eye for detail and the influences that shaped arts and crafts, Paul brings current studies of antique objects to life. He invites us to join him on a journey to exotic countries that bear the mark of colonial trade, discussing rare discoveries that now sell for breathtaking prices at UK auctions. With his trademark charm and enthusiasm, Paul enriches his tales with personal anecdotes about dearly loved equine skeletons, celebrity acquaintances in the art scene and childhood idols. All the while, Paul does what he does best: he gives us a taste of the wonders of antique pieces and encourages us to open our eyes to the uniqueness and value of forgotten objects. This book is the perfect read for everyone who loved BBC's *Flog It*, Britain's Hidden Heritage and Paul Martin's *Handmade Revolution*, and for those with a heart for all things past and mysterious. **Interview ... with Paul Martin ...** Paul Martin, 2004 Paul Martin Speeches Paul Martin, 1950 Paul Martin Paul Martin, 2004

Ice Christopher Bourne, 2012-05-10 Set in the present in a look out station in the Arctic Circle 500km north of Tasiilaq, Paul Cartwright has been up in the station for the better part of 15 years. He has lost his mind. The Danish and English governments who own and operate the station are sending a scientist up there to close it down and remove Paul from danger. When the story opens and for sometime Paul has been feeding a polar bear who has moved into the area due to the shrinking ice cap. Everyday he endangers himself stepping outside to feed the beast. His only contact is through a video screen where he interacts with his family and the outside world. The Danish scientist that is sent to shut it all off is Martin, who was Paul's lover at university in the 1980s. Sparks fly. Can either one of them cope with the solitude and being with each other while pursued by the snow, ice, cold and hungry polar bear. The 20 contributions in this book are structured in 5 parts on the design, development, deployment, operation and use of research infrastructures. Part one provides an overview of the state of the art of research infrastructure and relevant e-Infrastructure technologies. Part two discusses the reference model guided engineering approach. The third part presents the software and tools developed for common data management challenges. The fourth part demonstrates the software via several use cases and the last part discusses the sustainability and future directions.
