**Paul Rosenfeld, voyager in the arts** ,1977      **Paul Rosenfeld, Voyage in the Arts** ,1948      Aaron Copland and His World Carol J. Oja, Judith Tick, 2018-06-05 Aaron Copland and His World reassesses the legacy of one of America's best loved composers at a pivotal moment as his life and work shift from the realm of personal memory to that of history This collection of seventeen essays by distinguished scholars of American music explores the stages of cultural change on which Copland's long life 1900 to 1990 unfolded from the modernist experiments of the 1920s through the progressive populism of the Great Depression and the urgencies of World War II to postwar political backlash and the rise of serialism in the 1950s and the cultural turbulence of the 1960s Continually responding to an ever changing political and cultural panorama Copland kept a firm focus on both his private muse and the public he served No self absorbed recluse he was very much a public figure who devoted his career to building support systems to help composers function productively in America This book critiques Copland's work in these shifting contexts The topics include Copland's role in shaping an American school of modern dance his relationship with Leonard Bernstein his homosexuality especially as influenced by the writings of Andr Gide and explorations of cultural nationalism Copland's rich correspondence with the composer and critic Arthur Berger who helped set the parameters of Copland's reception is published here in its entirety edited by Wayne Shirley The contributors include Emily Abrams Paul Anderson Elliott Antokoletz Leon Botstein Martin Brody Elizabeth Crist Morris Dickstein Lynn Garafola Melissa de Graaf Neil Lerner Gail Levin Beth Levy Vivian Perlis Howard Pollack and Larry Starr      *Painting Gender, Constructing Theory* Marcia Brennan, 2001 Focusing on the key historical criticism and art works Brennan shows how the identities of all five Stieglitz circle artists were presented in terms of the masculinity and femininity and the heterosexuality and homosexuality thought to be embedded in their work Brennan also discusses Stieglitz's relation to competing artistic and critical movements including Thomas Hart Benton's regionalist art and Clement Greenberg's reformulation of formalism Jacket      *Wild Exuberance* Rebecca Foster, Caroline M. Welsh, 2005-06-16 Early in his career critics and collectors widely recognized that Harold Weston 1894 1972 was capturing and saying something unusual in his paintings There is a young American painter wrote Duncan Phillips who stirs in me the hope for a re birth on this new soil of something that was lost to the art of painting with the passing of Vincent van Gogh Along with 104 color and ten black and white plates of Weston's works compiled by his daughter Nina Weston Foster curator of the Harold Weston Foundation the catalog includes essays that cover myriad aspects of Weston's life and art The Adirondack Museum's chief curator Caroline M Welsh explores nature and wilderness preservation as themes in twentieth century art and places Weston in the context of his contemporaries who painted the Adirondacks Theodore E Stebbins Jr curator of American art at the Fogg Art Museum provides a critical analysis of Weston as a twentieth century American modernist painter The biographical essay by Weston's art historian granddaughter Rebecca Foster follows the unfolding of a career in parallel to the unfolding of a life Weston's rich technique

is explored by Stephen B Phillips curator at the Phillips Collection in an in depth analysis of the painting Cubism, Stieglitz, and the Early Poetry of William Carlos Williams Bram Dijkstra, 2020-07-21 Previous studies of William Carlos Williams have tended to look only for the literary echoes in his verse According to Bram Dijkstra the new movements in the visual arts during the 1920s affected Williams's work as much as if not more than the new writing of the period Dijkstra catches the excitement of this period of revolutionary art reveals the interactions between writers and painters and shows in particular the specific and general impact this world had on Williams's early writings

**Education and Politics in the 1990s** Denis Lawton, 1992 Examines the ideological differences between the education policies of the two main political parties in the UK and discusses the emergence of these differences within the context of the 1988 Education Reform Act It also looks at the world wide influence of the New Right politics on education

Mavericks and Other Traditions in American Music Michael Broyles, 2008-10-01 From colonial times to the present American composers have lived on the fringes of society and defined themselves in large part as outsiders In this stimulating book Michael Broyles considers the tradition of maverick composers and explores what these mavericks reveal about American attitudes toward the arts and about American society itself Broyles starts by examining the careers of three notably unconventional composers William Billings in the eighteenth century Anthony Philip Heinrich in the nineteenth and Charles Ives in the twentieth All three had unusual lives wrote music that many considered incomprehensible and are now recognized as key figures in the development of American music Broyles goes on to investigate the proliferation of eccentric individualism in all types of American music classical popular and jazz and how it has come to dominate the image of diverse creative artists from John Cage to Frank Zappa The history of the maverick tradition Broyles shows has much to tell us about the role of music in American culture and the tension between individualism and community in the American consciousness

**The Long Voyage** Malcolm Cowley, 2014-01-06 Critic poet editor chronicler of the Lost Generation elder statesman of the Republic of Letters Malcolm Cowley 1898-1989 was an eloquent witness to American literary and political life His letters mostly unpublished provide a self portrait of Cowley and his time and make possible a full appreciation of his long varied career

**The Hudson Review** Frederick Morgan, Paula Deitz, 1949 *America's Music, from the Pilgrims to the Present* Gilbert Chase, 1992 A history of American music its diversity and the cultural influences that helped it develop

**Independent Intellectuals in the United States, 1910-1945** Steven Biel, 1995-02 A new intellectual community came together in the United States in the 1910s and 1920s a community outside the universities the professions and in general the established centers of intellectual life A generation of young intellectuals was increasingly challenging both the genteel tradition and the growing division of intellectual labor Adversarial and anti professional they exhibited a hostility to boundaries and specialization that compelled them toward an ambitious and self conscious generalism and made them a force in the American political literary and artistic landscape This book is a cultural history of this community of free lance critics and an exploration of their collective effort to

construct a viable public intellectual life in America Steven Biel illustrates the diversity of the body of writings produced by these critics whose subjects ranged from literature and fine arts to politics economics history urban planning and national character Conceding that significant differences and conflicts did exist in the works of individual thinkers Biel nonetheless maintains that a broader picture of this vibrant culture has been obscured by attempts to classify intellectuals according to political or ideological persuasions His book brings to life the ways in which this community sought out alternative ways of making a living devised strategies for reaching and engaging the public debated the involvement of women in the intellectual community and incorporated Marxism into its evolving search for a decisive intellectual presence in American life Examined in this lively study are the role and contributions of such figures as Randolph Bourne Max Eastman Crystal Eastman Walter Lippmann Margaret Sanger Van Wyck Brooks Floyd Dell Edmund Wilson Mable Dodge Paul Rosenfeld H L Mencken Lewis Mumford Malcolm Cowley Matthew Josephson John Reed Waldo Frank Gilbert Seldes and Harold Stearns *Aaron Copland* Marta Robertson, Robin Armstrong, 2003-08-27 Aaron Copland 1900 1990 is generally considered the most popular and well known composer of American art music and yet little scholarly attention has been paid to Copland since the 1950s This volume begins with a portrait of the composer and an evaluation of significant research trends which is intended to fill a void and to suggest directions for further research The guide also provides a section discussing Copland s interdisciplinary interests such as ballet and film work as well as a comprehensive bibliography of writings about Copland and his music

**Classics and Commercials** Edmund Wilson, 1999-12 A selection of literary articles written during the nineteen forties

**Years of Transition** Nicholas Joost, 1967 Wallace Stevens and the Actual World Alan Filreis, 2014-07-14 The work of Wallace Stevens has been read most widely as poetry concerned with poetry and not with the world in which it was created deemed utterly singular it seems to resist being read as the record of a life and times In this critical biography Alan Filreis presents a detailed challenge to this exceptionalist view as he traces two major periods of Stevens s career from 1939 to 1955 the war years and the postwar years Portraying Stevens as someone whose alternation between cultural comprehension and ignorance was itself characteristically American Filreis examines the poet s impulse to disguise and compress the very fact of his debt to the actual world By actual world Stevens meant historical conditions often in order to impugn his own interest in such externalities as the last resort of a man whose famous interiority made him feel desperately irrelevant In light of events ranging from the U S entry into World War II to the Cold War Filreis shows how Stevens was driven to make a close approach to reality in an effort to reconcile his poetic language with a cultural language *Wallace Stevens and the Actual World* is not only an impressive feat of historical recovery and analysis but also a pleasure to read It will be useful to anyone interested in the relationship between American politics and literature during World War II and the Cold War Milton J Bates Marquette University Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These

editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905      **William Schuman** K. Gary Adams,1998-05-30 William Howard Schuman a celebrated figure in 20th century music was a composer and a copious writer on music and music education Early on as a composer he received the attention of several musicians and writers such as Nathan Broder Elliott Carter and Leonard Bernstein He was the recipient of numerous prestigious awards including the Pulitzer Prize a Guggenheim Fellowship and the New York Music Critics Circle Award After teaching at Sarah Lawrence College from 1935 to 1945 and serving as president of the Juilliard School from 1945 to 1962 Schuman assumed the presidency of Lincoln Center where he successfully implemented that institution s artistic programs Schuman who composed in several genres is perhaps best known for his orchestral compositions and choral music This reference work provides a biography and a thorough catalog and guide to Schuman s writings and compositions and to the current research available on this gifted and multi talented musician An invaluable resource to music scholars interested in William Schuman s career five sections provide accessible detailed information a biography works and performances discography bibliography and bibliography of writings by Schuman The biography traces Schuman s life and career with an emphasis on illustrating his compositional activity The bibliography includes books dissertations articles and reviews that chronicle Schuman s activities from his days as a young composer to his death in 1992 An author index index of compositions and general index complete this in depth reference on William Schuman      **The Arizona Quarterly** ,1948      **The End of American Innocence** Henry Farnham May,1992 An historical account of the political and intellectual atmosphere of the USA in the early 20th century which contends that the old order was being challenged and altered long before World War I The study examines the ideas and literature of the periods before and after the War      *Edmund Wilson* Jeffrey Meyers,2003-09-02 This comprehensive biography of prolific critic essayist historian and novelist Edmund Wilson 1895 1972 posits quite successfully that the subject lived a life as romantic and chaotic as his friend F Scott Fitzgerald s Wilson suffered a nervous breakdown and the tragic death of his second wife he was married four times among them Mary McCarthy had affairs with numerous beautiful women including Edna St Vincent Millay and was friend to literary giants such as John Dos Passos Vladimir Nabakov and W H Auden

web the generalization of the number zero to vector algebra is called the null vector denoted by  $\mathbf{0}$  all components of the null vector are zero  $0\mathbf{i} + 0\mathbf{j} + 0\mathbf{k}$  so the null vector has no length and no direction two vectors  $\mathbf{a}$  and  $\mathbf{b}$  are equal vectors if and only if their difference is the null vector
