Porter Aichele, 2016-05-19 Modern Art on Display The Legacies of Six Collectors is structured as a sequence of case studies that pair collectors of modern art with artists they particularly favored Duncan Phillips and Augustus Vincent Tack Albert Barnes and Chaim Soutine Albert Eugene Gallatin and Juan Gris Lillie Bliss and Paul C zanne Etta Cone and Henri Matisse G David Thompson and Paul Klee The case studies are linked by a thematic focus on the integral relationship between the collectors acquired knowledge about the work they amassed and their innovative display models This focus brings a new perspective to the history of collecting and interpreting modern art in America for nearly half a century 1915 1960 By examining the books the collectors themselves read and analyzing archival photographs of their displays the author makes a case for the historical significance of how the collectors presented the art they acquired before their collections were institutionalized *A Curious Intimacy* Lois Oppenheim, 2013-01-11 What can neuroscience contribute to the psychodynamic understanding of creativity and the imagination A Curious Intimacy is an innovative study into the interrelation between art and neuro psychoanalysis which significantly narrows the divide between the humanities and the sciences Situating our grasp of the creative mind within the historical context of theories of sublimation Lois Oppenheim proposes a change in paradigm for the study of the creative process questioning the idea that creativity serves above all the reparation of early object relationships and the resolution of conflict The book is divided into two parts Part One Art and the Brain introduces the field of neuro psychoanalysis and examines the contribution it can make to the discussion of gender and art Part Two A New Direction for Interdisciplinary Psychoanalysis draws on the verbal and visual artistry of Samuel Beckett Paul Klee and Martha Graham to put to the test the proposed new direction for applied psychoanalysis Lois Oppenheim concludes by addressing the future of psychoanalysis as it becomes increasingly informed by neuroscience and raising questions about what the neurobiology of emotion and feeling has to tell us about the creative experience of an individual and what might constitute a neuro psychoanalytic aesthetics A Curious Intimacy will have great appeal for all those interested in the study of imagination and creativity It will also be of particular interest to students across the humanities and sciences and to psychotherapists and psychoanalysts wanting to explore the contribution that neuro psychoanalysis can make to our understanding of the creative process *Signergy* C. Jac Conradie, Ronél Johl, Marthinus Beukes, Olga Fischer, Christina Ljungberg, 2010-05-26 The title of this volume strives to capture the dynamic scope and range

of the essays it contains applying insights into the workings of iconicity to texts as far removed from each other in time as the Medieval tale of a bishop fish and the war poems of 20th century Italian Futurist F T Marinetti and as thematically diverse as the Pilgrim s Progress and the poetry of e e cummings Applications reference both language and linguistics as well as literature and literary theory and related fields such as sign language and translation the former approached from the point of view of Japan Sign Language the latter with reference to translations of the Koran and the Sesotho Bible as well as modern German and English Bible translations On the language side the intricate relationships between sound symbolism and etymology and between analogy and grammaticalization are examined in depth On the literary side the iconic effects of techniques such as enjambment and metrical inversion are considered but also the ways in which an understanding of iconicity can open up meanings in complex poetry like that of the Afrikaans poet T T Cloete in this particular instance three poems inspired by figures as diverse as Dante Paul Klee and the pop icon Marilyn Monroe In view of the fact that form is able to mime meaning and meaning itself can be mimed by meaning the theoretical question is asked on the basis of a wide range of examples from literature language music and other sign systems whether meaning can also mime form An introduction to the work of H C T M ller an early scholar in the field of iconicity highlights a regrettably little known South African
