Sheehan, Pontifical Institute of Mediaeval Studies, 1990      Poverty and Devotion in Mendicant Cultures 1200-1450 Constant

J Mews, Anna Welch, 2016-07-15 Ever since the time of Francis of Assisi a commitment to voluntary poverty has been a

controversial aspect of religious life This volume explores the interaction between poverty and religious devotion in the

mendicant orders between the thirteenth and fifteenth centuries While poverty has often been perceived more as a

Franciscan than as a Dominican emphasis this volume considers its role within a broader movement of evangelical renewal

associated with the mendicant transformation of religious life At a time of increased economic prosperity reformers within

the Church sought new ways of encouraging identification with the person of Christ This volume considers the paradoxical

tension between voluntary poverty as a way of emulating Christ and involuntary poverty as situation demanding a response

from those with the means to help the poor Drawing on history literature and visual arts it explores how the mendicant

orders continued to transform religious life into the time of the renaissance The papers in this volume are organised under

three headings prefaced with an introductory essay by the editors Poverty and the Rule of Francis exploring the

interpretation of poverty in the Franciscan Order Devotional Cultures considering aspects of devotional life fostered by

mendicant religious communities Franciscan Augustinian and Dominican Preaching Poverty on the way poverty was

promoted and practiced within the Dominican Order in the later Middle Ages and Renaissance      *Fragments of a World*

Lesley Smith, 2023-05-30 It has been 140 years since a full biography of William of Auvergne 1180 1249 which may come as a

surprise given that William was an important gateway of Greek and Arabic thought and philosophy to western Europe in the

thirteenth century and one of the earliest writers in the medieval Latin west on demonology Lesley Smith s aims in this book

are two fold first to take a closer look at William the human being how he saw the world and his place in it and to uncover

William s interactions with his Parisian congregation through the nearly 600 sermons he left after his death Smith has mined

these writings unremarked in previous scholarship to give us a different perspective on the schoolmaster bishop of Paris and

strict theologian we have come to know a preacher who spoke and ministered not just to the powerful and elite but also to

commoners to the poor and to the less fortunate Through a study of the sermons Smith creates a broader landscape of

William s thought and life highlighting his attention to the importance and limits of language and his attempts to find a way

to address the concerns of the larger populace In his preaching we get a sense of the balance William achieved in the way he

communicated religious teachings in his understanding of the concerns of ordinary Parisians and in his awareness of the ebb

and flow of daily life in a medieval city The book will interest scholars of intellectual history and philosophy religion and

literary studies more broadly for Smith s innovative method of excavating the sermons in pursuit of William the person and

his humanity An altogether new William for the twenty first century      *The Plow, the Pen and the Sword* Rudi Künzel, 2017-09-22 This book compares the cultures of the different social groups living in the Low Countries in the early Middle Ages Clergy nobility peasants and townsmen greatly varied in their attitudes to labor property violence and the handling and showing of emotions Künzel explores how these social groups looked at themselves as a group and how they looked at the other groups Image and self image could differ radically The results of this research are specified and tested in four case studies on the interaction between group cultures focusing respectively on the influence of oral and written traditions on a literary work rituals as a means of conflict management in weakly centralized societies stories as an expression of an urban group mentality and beliefs on death and the afterlife      *Rethinking Disability* Patrick Devlieger, 2003 This book provides an interdisciplinary approach to the challenges of the interface between disability culture Twelve papers discuss the following topics Towards a cultural model of disability Disability Values Representations Realities Labeling      **Italy and Early Medieval Europe** Ross Balzaretti, Julia Barrow, Patricia Skinner, 2018-07-26 A comprehensive survey of recent work in Medieval Italian history and archaeology by an international cast of contributors arranged within a broader context of studies on other regions and major historical transitions in Europe c 400 to c 1400CE Each of the contributors reflect on the contribution made to the field by Chris Wickham whose own work spans studies based on close archival work to broad and ambitious statements on economic and social change in the transition from Roman to medieval Europe and the value of comparing this across time and space      *The Metamorphosis of a Medieval City* David Nicholas, 2023-12-28      [A Social and Religious History of the Jews: Late Middle Ages and the era of European expansion, 1200-1650](#) Salo Wittmayer Baron, 1952      [A History of Women in the West](#) Georges Duby, Michelle Perrot, Pauline Schmitt Pantel, 1992 Volume 3 has some references to homosexuality and lesbianism in the index dm      *Vice, Crime, and Poverty* Dominique Kalifa, 2019-04-16 Beggars outcasts urchins waifs prostitutes criminals convicts madmen fallen women lunatics degenerates part reality part fantasy these are the grotesque faces that populate the underworld the dark inverse of our everyday world Lurking in the mirror that we hold up to our society they are our counterparts and our doubles repelling us and yet offering the tantalizing promise of escape Although these images testify to undeniable social realities the sordid lower depths make up a symbolic and social imaginary that reflects our fears and anxieties as well as our desires In *Vice Crime and Poverty* Dominique Kalifa traces the untold history of the concept of the underworld and its representations in popular culture He examines how the myth of the lower depths came into being in nineteenth century Europe as biblical figures and Christian traditions were adapted for a world turned upside down by the era of industrialization democratization and mass culture From the Parisian demimonde to Victorian squalor from the slums of New York to the sewers of Buenos Aires Kalifa deciphers the making of an image that has cast an enduring spell on its audience While the social conditions that created that underworld have changed *Vice Crime and Poverty* shows that from social scientific ideas of the underclass to

contemporary cinema and steampunk culture its shadows continue to haunt us      *Early Modern Europe* James B. Collins, Karen L. Taylor, 2008-04-15 This reader brings together original and influential recent work in the field of early modern European history Provides a thought provoking overview of current thinking on this period Key themes include evolving early modern identities changes in religion and cultural life the revolution of the mind roles of women in early modern societies the rise of the modern state and Europe and the new world system Incorporates new scholarship on Eastern and Central Europe Includes an article translated into English for the first time      **Patriots and Paupers** Mary Lindemann, 1990-10-04 Patriots and Paupers carefully analyzes a crucial juncture in the history of a great city Hamburg s passage from the pre modern into the modern world Despite the relative wealth of historical literature on Reformation Germany and on Germany after unification few English language histories have addressed the events of the eighteenth and early nineteenth centuries Mary Lindemann here details issues associated with poor relief indigency mendicancy public health labor regulation social control and disciplining then uses these as springboards to broader historical debates She draws out the subtle yet decisive political shift from the paternalistic dirigism of a government of fathers and uncles to the socio economic laissez faire of early liberalism and locates this political metamorphosis firmly within the framework of Hamburg s dynamic economic development and dramatic demographic growth She links these political and social changes to the intellectual cultural and prosopographical contexts of the German Enlightenment Far more than a history of poverty and social welfare policies Patriots and Paupers explores the critical interconnections between economics demographics social change and government in the closing years of the European Old Regime      **Sainthood in the Later Middle Ages** Andri Vauchez, André Vauchez, 2005-02-17 This is a standard work of reference for the study of the religious history of western Christianity in the later middle ages which since its original publication in French in 1981 has come to be regarded as one of the great contributions to medieval studies of recent times Hagiographical texts and reports of the processes of canonisation a mode of investigation into saints lives and their miracles implemented by the popes from the end of the twelfth century are here used for the first time as major source materials The book illuminates the main features of the medieval religious mind and highlights the popes attempts to gain firmer control over the wide variety of expressions of faith towards the saints in order to promote a higher pattern of devotion and moral behaviour among Christians      Sephardi Family Life in the Early Modern Diaspora Julia Rebollo Lieberman, 2010-12-14 Groundbreaking essays on Sephardic Jewish families in the Ottoman Empire and Western Sephardic communities      **Experiences of Charity, 1250-1650** Anne M. Scott, 2016-03-09 For a number of years scholars who are concerned with issues of poverty and the poor have turned away from the study of charity and poor relief in order to search for a view of the life of the poor from the point of view of the poor themselves Great studies have been conducted using a variety of records resulting in seminal works that have enriched our understanding of pauper experiences and the influence and impact of poverty on societies If we return our gaze to charity with the benefit of those

studies questions approaches sources and findings what might we see differently about how charity was experienced as a concept and in practice at both community and personal levels In this collection contributors explore the experience of charity towards the poor considering it in spiritual intellectual emotional personal social cultural and material terms The approach is a comparative one across different time periods nations and faiths Contributors pay particular attention to the way faith inflected charity in the different national environments of England and France as Catholicism and Calvinism became outlawed and or minority faith positions in these respective nations They ask how different faith and beliefs defined or shaped the act of charity and explore whether these changed over time even within one faith The sources used to answer such questions go beyond the textual as contributors analyse a range of additional sources that include the visual aural and material

The Nonprofit Sector in France E. Archambault, 1997 This is the first book to reveal the extent to which nonprofit organisations despite their invisibility in official statistics have become one of the clearest expression of social and cultural change in France Edith Archambault argues that the nonprofit organisations have a unique ability to marry private initiative with public concerns and therefore become the most flexible partners of modern social policies

**Multilingualism in the Middle Ages and Early Modern Age** Albrecht Classen, 2016-09-12 Bi and multilingualism are of great interest for contemporary linguists since this phenomenon deeply reflects on language acquisition language use and sociolinguistic conditions in many different circumstances all over the world Multilingualism was however certainly rather common already if not especially in the premodern world For some time now research has started to explore this issue through a number of specialized studies The present volume continues with the investigation of multilingualism through a collection of case studies focusing on important examples in medieval and early modern societies that is in linguistic and cultural contact zones such as England Spain the Holy Land but also the New World As all contributors confirm the numerous cases of multilingualism discussed here indicate strongly that the premodern period knew considerably less barriers between people of different social classes cultural background and religious orientation But we also have to acknowledge that already then human communication could fail because of linguistic hurdles which prevented mutual understanding in religious and cultural terms
