Philosophy In Classroom Teaching Bridging The Gap:

Philosophy in Classroom Teaching David A. Jacobsen,2003 For Philosophy of Education courses It s an often asked question How do I use educational philosophy in my classroom teaching This text is a comprehensive answer To clearly establish the applicability of philosophy to classroom teaching this text presents the basics of philosophy examines all of the major educational philosophies idealism realism pragmatism existentialism and post modernism and their main proponents and provides students with a thorough knowledge of each philosophy s fundamental discourse around education To this theoretical framework are then added real scenarios from real classrooms that demonstrate just how these erudite explorations translate into actual in front of the children teaching Poverty and Schooling Sue Books,Valerie Polakow,2001-10-01 This is a special issue of Educational Studies Volume 32 No 3 from 2001 It s main focus is poverty and schooling with two guest editors that have been deeply involved in research and teaching on the problem of children in poverty for many years and bring their considerable expertise to this excellent collection of scholarship and reviews The Public Raping of Relia Union Dr Beverley R. Taylor,Beverley R. Taylor,2010-03 This novel is about two dedicated educators both of whom were raped in the eyes of the public One was physically raped and the other mentally They both take the roller coaster ride of a life time as they seek the road to justice Each chapter will draw you into a fuller understanding and heighten your curiosity with the turn of the page As a corollary to the main plot about the state of our educational system nationwide please read the Concerns and Solutions Section Learning to Learn Ruth Deakin Crick,CRISTINA STRINGHER,Kai Ren,2014-04-28 Learning to Learn provides a much needed overview and international guide to the field of learning to learn from a multidisciplinary lifelong and lifewide perspective A wealth of research has been flourishing on this key educational goal in recent years Internationally it is considered to be one of the key competencies needed to compete in the global economy but also a crucial factor for individual and social well being This book draws on leading international contributors to provide a cutting edge overview of current thinking on learning to learn research policy and implementation in both formal and informal learning environments But what learning to learn is exactly and what its constituting elements are are much debated issues These seem to be the crucial questions if assessment and development of this malleable side of intelligence are to be accomplished The approach of this volume is to consider a broad conception of learning to learn not confined to only study strategies or metacognition yet acknowledging the importance of such elements The book sets out to answer five main questions What is learning to learn What are its functions and how do we assess it What does it promise to the individual and society at large How is it conceived in national curricula internationally How can it be developed in a variety of contexts The text is organized into two parts the first addresses the core question of the nature of learning to learn from a theoretical and policy viewpoint and the second presents recent research carried out in several educational systems with special attention to assessment and curriculum It gives an account of pedagogical practices of learning to learn and its role

in individual empowerment from childhood to adulthood Contributors also highlight the potential use of learning to learn as an organizing concept for lifelong learning school improvement and teacher training along with potential conflicts with existing incentive practices and policies This book is a vital starting point and guide for any advanced student or researcher looking to understand this important area of research **Identity Crisis** Dr. Bobby M. Wagner,2016-06-29 THIS IS THE BEST WAY TO EXPERIENCE ALL YOU WERE CREATED FOR In Identity Crisis you will find power and purpose by putting your faith in the One who can transform your identity Even in crisis He can do far beyond anything you can imagine What s the greatest crisis in our world today Dr Bobby Wagner contends it is our inability to believe in the power of God in our lives Is it possible to read the Bible and believe God does not work powerfully through His people Our miraculous identity in Christ has not ceased our faith in it has It seems we are losing our faith in our God given identity in the Bible in the church and in our world A dramatic transformation takes place when you believe in the power of the Gospel As our unbelief continues one more person misses the Good News As a result of the nearly 75 million Americans who have trusted Jesus Christ for salvation more than 70 million have never shared the Good News In a postmodern and post Christian culture in the midst of a crisis of unbelief the only way souls will be touched is if God s people become witnesses of the power of the Gospel The Creative Enterprise of Mathematics Teaching Research Bronislaw Czarnocha,William Baker,Olen Dias,Vrunda Prabhu,2016-07-28 The Creative Enterprise of Mathematics Teaching Research presents the results and methodology of work of the teaching research community of practice of the Bronx TR Team of the Bronx It has a twofold aim of impacting both teachers of Mathematics and researchers in Mathematics Education This volume can be used by teachers of mathematics who want to use research to reflect upon and to improve their teaching craft as well as by researchers who are interested in uncovering riches of classroom learning teaching for research investigations This book represents the results of a collaboration of instructors discussing their own instruction research analyzed through a conceptual framework obtained via the synthesis of creativity research and educational learning theories based upon the work of Piaget and Vygotsky The editors see an urgent need for creative synthesis of research and teaching an example of which is presented in the book Two central themes of the book are the methodology of TR NYCity model and creativity more precisely creativity of the Aha moment formulated by Arthur Koestler 1964 in a very profound but little known theory of bisociation exposed in his work The Act of Creation Incorporation of the theory of bisociation into classroom teaching of mathematics provides the key to enable students who may struggle with mathematics to engage their own creativity become involved in their learning process and thus reach their full potential of excellence Creativity in teaching remedial mathematics is teaching gifted students how to access their own giftedness **Handbook of Research on Didactic Strategies and Technologies for Education: Incorporating Advancements** Pumilia-Gnarini, Paolo M.,2012-09-30 This book is designed to be a platform for the most significant educational achievements by teachers school administrators and local associations that have worked together in public

institutions that range from primary school to the university level Provided by publisher **Deconstructing Teacher Education in Contemporary Times** Alka Behari,2025-09-11 The book provides a comprehensive overview of the field of teacher education and analyses its concepts ideas notions theories debates and practices In this the journey of the development of teacher education in the global context and the policy journey of teacher education in India is traced in an interesting manner Several dimensions of teacher education are revisited with a view to compel the readers to reflect upon alternate ways of looking at them An examination of how the underlying socio political factors affect teacher education the initial preparation of teachers and their continued professional development forms a significant part of the book What are the debates and issues in teacher education Are there ready made solutions to resolve them Are there questions that are better left open ended which researchers continue to analyse and grapple with Engaging the readers in such a reflective exercise and taking them on a journey of exploring the large and new vista that teacher education has come to embody will enable them to understand it both as a discipline and a field of practice Given that teacher education is a compulsory component in all teacher education institutions this anthology will be an essential reading for students scholars teachers and teacher educators It will be useful and purposeful for policymakers organisations and professionals working in the area of teacher education The variety of themes covered and the diverse styles of writing coupled with a unifying thread of building up the discourse in teacher education in contemporary times endow the book with a multicultural flavour A must read for all
