Public Management Reform : A Comparative Analysis Christopher Pollitt,Geert Bouckaert,1999-12-09 In this major new contribution to a rapidly expanding field the authors offer an integrated analysis of the wave of management reforms which have swept through so many countries in the last twenty years The reform trajectories of ten countries are compared and key differences of approach discussed Unlike some previous works this volume affords balanced coverage to the New Public Management NPM and the non NPM or reluctant NPM countries since it covers Australia Canada Finland France Germany the Netherlands New Zealand Sweden the UK and the USA Unusually it also includes a preliminary analysis of attempts to improve management within the European Commission Public Management Reform and Modernization Edoardo Ongaro,2009 Ongaro has made a major contribution to understanding the political and administrative systems of Southern Europe The work goes beyond that however by providing an excellent example of comparative analysis in general This book should be read by all students of comparative administration B Guy Peters University of Pittsburgh US and City University of Hong Kong This is an important book for several reasons Public sector reform debates and policies have been heavily perhaps too heavily influenced by Anglo Saxon models and literature on reforms in the Latin part of Europe has until now only been available in a fragmented way However this unique new book offers a coherent vision across Southern Europe It refers to important parts of our history and how these still influence current times It also shows that culture does make a difference and that contingencies are important European public sector reform is as diverse as the range of its administrative histories and this book is therefore crucial in our understanding of the future in relation to the past Geert Bouckaert Public Management Institute Katholieke Universiteit Leuven Belgium and European Group for Public Administration This systematic thorough and insightful book offers one of the very rare comparative studies of public management reform in Italy France Greece Portugal and Spain A unique and most valuable study Walter Kickert Erasmus University Rotterdam the Netherlands Scholars of public management reform have been at it for many years but there was always a gap little was really known about southern Europe those countries that come from the Napoleonic tradition Now Professor Edoardo Ongaro of Bocconi University has filled that gap and we will all profit from his diligent and insightful work Jeffrey D Straussman Nelson A

Rockefeller College of Public Affairs and Policy University at Albany US Theoretically eclectic and empirically rich this is a much needed volume on the dark side of the moon that is public management reform outside the Anglo Saxon world Edoardo Ongaro sheds light on Italy and four other Napoleonic systems by producing a far reaching comparative analysis that also captures the effects of Europeanization and multi level governance on public management reforms Ambitious yet ultimately accessible this book is a must read for those who want to explain and understand the trajectories of reform in their historical context Claudio Radaelli University of Exeter UK The reader will find in Professor Ongaro s book a clear and thorough discussion of the public sector reform process both in Italy and southern European countries based upon a systematic comparative framework This is a very useful and original work that any student in comparative politics or public administration will highly appreciate Luc Rouban CNRS Centre de Recherches Politiques de Science Po CEVIPOF Paris France This scholarly volume makes an interesting and distinctive contribution to the global public management reform debate by offering an analysis of reform trajectories in an important but rather neglected group of Southern European countries Ewan Ferlie King s College London UK Since the 1980s a wave of reforms of public management has swept the world The investigation into the effects of such major transformations has however been unbalanced important countries have received only limited attention This timely book fills the gap by investigating the dynamics of contemporary public management reform in five European countries that gave shape to the Napoleonic administrative tradition France Greece Italy Portugal Spain Edoardo Ongaro presents an in depth investigation of the reform of public management in these countries revisiting major topics of theoretical interest in the study of public administration He addresses key issues regarding the influence of the past on the transformation of the public se

Horton, 2005-06-07 This book explores the role of civil servants and their trade unions in the public management reform process framing it in its economic social cultural and legal contexts Building on neo institutional and stakeholder theories the book shows how staff and their representative organisations have influenced the formulation and implementation of public management reforms in twelve OECD countries

This study challenges top down elite theories that have dominated the existing literature explaining how staff participation practices both direct and indirect have impacted on the implementation of reforms in different ways in different countries. The book concludes that variations in staff participation in the reform process depend upon institutional and political factors and the distribution of power in the employment relationship.

Public Management Reform in the Gulf Cooperation Council and Beyond Mhamed Biygautane, 2023-05-16 This book offers an understanding of the current state of public management in the Gulf Cooperation Council GCC region highlighting the region's institutional and human capital constraints. Drawing on case studies from GCC states and beyond the book provides a policy oriented analysis of these challenges and a set of recommendations on how to address them. Public Management Reform in the Gulf Cooperation Council and Beyond utilizes several theoretical frameworks to explore three themes: first, how the quality of government and efficiency of its bureaucratic machinery can offer a business friendly environment for the private sector; second, how public private partnerships can foster stronger collaboration and exchange of knowledge and expertise between the public and private sectors; and finally, how the existing human capital constraints may be addressed through the effective implementation of talent management, knowledge management and training programs. A comparative approach is taken throughout the book contrasting the performance of GCC states with other Middle East and North Africa MENA countries or the Organization for Economic Cooperation and Development OECD member countries in key governance, public sector performance and business competitiveness indicators to identify what the GCC states need to do to enhance the quality of government and the capacity to deliver services more efficiently. This book will appeal to academics, practitioners, policymakers and private sector consultants as well as those interested more broadly in the Middle East and the Gulf region.
