Environmental Law Series; Public Natural Resources Law, 3 Volumes GC. Coggins, Updates several times a year **Net Zero and Natural Resources Law**, 2024-09-05 States corporations and other actors worldwide have committed to measures aimed at bringing down global emissions to net zero by the year 2060 or earlier While the need for a clean energy transition is clear incoherently designed transition programs can pose complex environmental social and governance risks including legal liability and protracted disputes At the same time the rush for minerals needed to manufacture clean energy technologies raises fundamental questions most crucially how to ensure the exploration and development of energy transition minerals in a manner that does not exacerbate resource conflicts resource nationalism human rights violations protectionism energy insecurity social exclusions and inequity especially in conflict affected and high risk regions By studying the legal and regulatory systems of Africa Asia Europe Australasia and North and South America through the themes of sovereignty security and solidarity Net Zero and Natural Resources Law provides an in depth discussion of tools and techniques for addressing the legal and contract risks relating to the clean energy transition This book offers a comprehensive and authoritative account of the nature scope and guiding principles of natural resources law and policy in a net zero era Consideration is given to the integrated resource governance roadmap that is needed to improve coherence and coordination in the design financing and implementation of energy transition programs across the entire natural resource value chain

Public Natural Resources Law George Cameron Coggins, Robert L. Glicksman, 2007 **Liability for Damage to Public Natural Resources: Standing, Damage and Damage Assessment** Edward Brans, 2001-10-17 This book focuses on liability for damage to those natural resources that are of interest to the public and are protected by national European or international law It provides an overview of the law of the United States and of certain EU Member States on the recovery of damages for injury to natural resources The international civil liability conventions that cover environmental harm and the recently published European Commission's White Paper on environmental liability are also discussed The on going development in various international forums of treaties or protocols dealing with liability for environmental damage are analyzed as are the principles developed by the UNEP Working Group established in response to the 1990 Gulf War to advise the UNCC on claims for damage to natural resources The book addresses assessment and valuation issues the issue of standing in cases of injury to un owned natural resources and the determination of ways to repair restore and compensate for natural resource injuries and the associated loss of ecological and human services It also explains why such a difference exists between the US and most European jurisdictions and inter national liability conventions as to the recovery of damages for injury to natural resources *Alaska Subsistence* Frank Blaine Norris, 2002 This study is a chronicle of how subsistence management in Alaska has grown and evolved P viii **Public Natural Resources Law 2nd. Ed** George Cameron Coggins, 1990 **Public Natural Resources Law** George Cameron Coggins, Robert L. Glicksman, 2007 **Core List for**

an Environmental Reference Collection ,2002 *The Making of Environmental Law* Richard J. Lazarus,2023-02-15 An updated and passionate second edition of a foundational book How did environmental law first emerge in the United States Why has it evolved in the ways that it has And what are the unique challenges inherent to environmental lawmaking in general and in the United States in particular Since its first edition *The Making of Environmental Law* has been foundational to our understanding of these questions For the second edition Richard J Lazarus returns to his landmark book and takes stock of developments over the last two decades Drawing on many years of experience on the frontlines of legal and policy battles Lazarus provides a theoretical overview of the challenges that environmental protection poses for lawmaking related to both the distinctive features of US lawmaking institutions and the spatial and temporal dimensions of ecological change The book explains why environmental law emerged in the manner and form that it did in the 1970s and traces how it developed over sequent decades through key laws and controversies New chapters composing more than half of the second edition examine a host of recent developments These include how Congress dropped out of environmental lawmaking in the early twenty first century the shifting role of the judiciary long overdue efforts to provide environmental justice to disadvantaged communities and the destabilization of environmental law that has resulted from the election of Presidents with dramatically clashing environmental policies As the nation s partisan divide has grown deeper and the challenge of climate change has dramatically raised the perceived stakes for opposing interests environmental law is facing its greatest challenges yet This book is essential reading for understanding where we have been and what challenges and opportunities lie ahead **The Rio Declaration on Environment and Development** Jorge E. Viñuales,2015 The 1992 Rio Declaration on Environment and Development provides 27 principles to guide future sustainable development This book is the first commentary on the Declaration investigating the origins development and impact of each of the 27 principles on the ways in which sustainable development has been encouraged through international law *A Subject Index to Current Literature* Australian Public Affairs Information Service, *Monthly Catalogue, United States Public Documents* ,1985

Environmental Governance in Europe and Asia Jona Razzaque,2013 This book looks at environmental governance in both Asia and Europe and offers a comparative analysis of the two regions in order to provide a better understanding of the concept of environmental governance and its status in Europe and Asia The book assesses the legislative institutional and participatory mechanisms which affect the overall development of environmental governance and analyses current issues concerns and strategies in respect of environmental governance at the local national and international levels The rapid changes in economic social and political life have had an enormous impact on Asia s ecosystems and resources Asian countries in the name of economic development are following the same environmentally destructive path their European counterparts followed in the past The key to the environmental future of these two regions lies in the evolution of the character of governance the ensemble of social ethics public policies and institutions which structure how state actors and

the civil society interact with the environment This book will be valuable to scholars and students of environmental politics EU and Asian studies public policy environmental law and to decision makers and policy analysts **Conservation and Recreation in Protected Areas** Yun Ma,2016-05-12 This book provides a comprehensive and up to date comparative study of the management and resolution of conflicts between conservation and recreation in protected areas in the US and China Competing claims on the use of nature increasing regulation of land use and recreational activities and the conflicting goals between conservation and development have led to a rise in conflicts in the designation and management of protected areas How to effectively manage and resolve these conflicts has become a challenge for both legislators and managers By adopting an institutional dimension in legal interpretation this book critically examines how such conflicts are dealt with in the legal regimes of the US and China while exploring interactions between legislatures agencies and courts The book searches for a plausible solution to improve the legal framework of protected areas in China by emulating pertinent mechanisms developed in the US whilst also presenting legal and policy recommendations to the US This informative book will be useful for legal scholars in Chinese law nature conservation law administrative law and comparative law **Forest Service planning : accommodating uses, producing outputs, and sustaining ecosystems.** United States. Congress. Office of Technology Assessment, **Finding the Answers to Legal Questions, Second Edition** Virginia M.
