Public Relations As Communication Management:

Public Relations and Communication Management Krishnamurthy Sriramesh, Ansgar Zerfass, Jeong-Nam Kim, 2013-06-07 Public Relations and Communication Management serves as a festschrift honoring the work of public relations scholars James E. Grunig and Larissa A. Grunig. Between them, the Grunigs have published 12 books and more than 330 articles, book chapters, and various academic and professional publications, and have supervised 34 doctoral dissertations and 105 master's theses. This volume recognizes the Grunig's contributions to public relations scholarship over the past four decades. To honor the Grunig's scholarship, this volume continues to expand their body of work with essays from renowned colleagues, former students, and research associates. The chapters discuss current trends in the field as well as emerging issues that drive the field forward. Sample topics include theories and future aspects of the behavioral strategic management approach to managing public relations and its linkages and implications to related subfields and key field issues. Contributions stimulate academic discussion and demonstrate the relevance of applied theories for the practice of public relations and communication management with up-to-date concepts, theories, and thoughts. **Excellent Public Relations and Effective Organizations** James E. Grunig, David M. Dozier, 2003-01-30 This book is the final product of the excellence project, a comprehensive research effort commissioned by the International Association of Business Communicators (IABC) Research Foundation. Going well beyond any of the previously published reports on the Excellence study, this book contains many new statistical analyses of the survey data and more details from the case studies. Discussing theory and data related to several ongoing discussions in the communication profession, this book answers the following questions: How can we show the value of public relations? What is the value of relationships? How do relationships affect reputation? What does it mean to practice communication strategically? How can we measure and evaluate the effects of public relations programs? Should communication programs be integrated? How does the new female majority in the profession affect communication? Excellence. This book, as well as the research it reports, is the product of symmetrical communication and collaboration. As such, it is intended for scholars, applied researchers, students, and informed professionals who understand the value of research in developing a profession such as public relations. Knowledge of quantitative and qualitative research methods will make it easier to understand the book; however, the results are interpreted in a way that makes the analyses understandable even to those with little or no knowledge of statistics and research methods. **Excellence in Public Relations and Communication Management** James E. Grunig, 2013-10-18 This book is the initial volume coming out of the excellence project, a comprehensive research effort commissioned by the IABC International Association of Business Communicators Research Foundation. The purpose of this project was to answer two fundamental questions about public relations: What are the characteristics of an excellent communication department? How does excellent public relations make an organization more effective, and how much is that contribution worth economically? The research team began its work with a thorough

review of the literature in public relations and related disciplines relevant to these questions What started as a literature review however has ended in a general theory of public relations one that integrates most of the wide range of ideas about and practices of communication management in organizations

The Future of Excellence in Public Relations and Communication Management Elizabeth L. Toth, 2009-03-04 The Future of Excellence in Public Relations and Communication Management brings together an outstanding group of public relations scholars and practitioners to consider the indelible theory building in public relations of James E Grunig and Larissa A Grunig who with David M Dozier produced the 1992 IABC Excellence Study a benchmark body of work examining best practices in the public relations field In this assembled collection editor Elizabeth L Toth and the contributors show how and in what ways the theories of the Excellence Study have developed and changed They present research that advances excellence theories adds new dimensions and directions to the excellence theories and shows how the excellence study has moved on to a global stage Toth and her colleagues challenge future researchers to continue the theory building that will lead to understand how strategic public relations management contributes to organizations and society Public relations and communication management scholars in addition to practitioners and graduate students studying these areas will benefit immensely from the work included here

Public Relations and Communication Management in Europe Betteke van Ruler, Dejan Vercic, 2008-08-22 The book challenges the notion that public relations in Europe is no more than a copy of the Anglo American approach It presents a nation by nation introduction to historical public relations developments and current topics in European countries written by noted national experts in public relations research and well known professionals who are able to oversee the situation in their own countries The contributions take an insider point of view and combine researched facts and figures with qualitative observations and personal reviews In addition the book provides conceptual statements that offer an insight into theoretical approaches

Public Relations as Communication Management Richard E. Crable, Steven L. Vibbert, 1986 Public Relations Leaders as Sensemakers Bruce K. Berger, Juan Meng, 2014-05-23 Public Relations Leaders as Sensemakers presents foundational research on the public relations profession providing a current and compelling picture of expanding global practice Utilizing data from one of the largest studies ever conducted in the field and representing the perspectives of 4 500 practitioners private and state run companies communication agencies government agencies and nonprofits this work advances a theory of integrated leadership in public relations and highlights future research needs and educational implications This volume is appropriate for graduate and advanced undergraduate students in international public relations and communication management as well as scholars in global public relations communication management and business It is also intended to supplement courses in public relations theory strategic communication business management and leadership development

Public Relations As Relationship Management John A. Ledingham, Stephen D. Bruning, 2000-01-01 The emergence of relationship management as a paradigm for public relations scholarship and practice requires a close

examination of just what is achieved by public relations its definition function and value and the benefits it generates Initiated by the editors interest in cross disciplinary exploration this volume evolved to its current form as a result of the need for a framework for understanding public relations and the potential impact of organization public relationships on the study practice and teaching of public relations Ledingham and Bruning include contributions that present state of the art research in relationship management applications of the relational perspective to various components of public relations and the implications of the approach to influence further research and practice The discussion conducted here is certain to influence and promote future theory and practice on the concept of relationship management
