American Public Education and the Responsibility of its Citizens Sarah M. Stitzlein, 2017-06-01 Public school systems are central to a flourishing democracy where children learn how to solve problems together build shared identities and come to value justice and liberty for all However as citizen support for public schools steadily declines our democratic way of life is increasingly at risk Often we hear about the poor performances of students and teachers in the public school system but as author Sarah M Stitzlein asserts in her compelling new volume the current educational crisis is not about accountability but rather citizen responsibility Now more than ever citizens increasingly do not feel as though public schools are our schools forgetting that we have influence over their outcomes and are responsible for their success In effect accountability becomes more and more about finding failure and casting blame on our school administrators and teachers rather than taking responsibility as citizens for shaping our expectations of the classroom determining the criteria we use to measure its success and supporting our public schools as they nurture our children for the future American Public Education and the Responsibility of its Citizens sheds an important light on recent shifts in the link between education and citizenship helping readers to understand not only how schools now work but also how citizens can take an active and influential role in shaping them Moving from philosophical critique of these changes to practical suggestions for action Stitzlein provides readers with the tools habits practices and knowledge necessary to support public education Further by sharing examples of citizens and successful communities that are effectively working with their school systems Stitzlein offers a torch of hope to sustain citizens through this difficult work in order to keep our democracy strong

Educating Democratic Citizens in Troubled Times Janet S. Bixby, Judith L. Pace, 2014-03-14 This book offers a groundbreaking examination of citizenship education programs that serve contemporary youth in schools and communities across the United States These programs include social studies classes and curricula school governance and community based education efforts The book takes an interdisciplinary approach to exploring the experiences and perspectives of educators and youth involved in these civic education efforts The contributors offer rich analyses of how mainstream and alternative programs are envisioned and enacted and the most important factors that shape them A variety of theoretical lenses and qualitative methodologies are used including ethnography focus group interviews and content analyses of textbooks

Democratizing Education and Educating Democratic Citizens Leslie J. Limage, 2013-10-08 The essays in

the book are organized into three sections in order to address the conceptualization of democracy and citizenship reform efforts towards democratization in various societies and educational efforts to foster democratic citizens Each is written from a different historical and national perspective by an international panel of prominent comparative education scholars and each tackles the theme of democracy and civic duty in education

Citizenship, Education and Violence Waghid

Yusef,2013-12-30 The focus of this book is to offer a humane response to dealing with violence An interpretive analysis is presented in order to think differently about violence in schools and about how a citizenship education of becoming can deal with the unpredictable consequences of violence in its own potentiality It seems to the authors that given the confident onslaught of violence there is nothing left to do but to offer insight into the nature of violence itself and by so doing to search for unexplored ways of humane response and being The authors are not pretending to hold a magic wand that will sanctify schools into the safe zones that they ought to be and as which they should serve in any society This would be both presumptuous and misleading What one is looking and hoping for however is a renewed engagement a slight tilting of the perspective so that something other than how we have always responded to violence perhaps will emerge The authors are confident that such a deconstructive approach to violence in schools through the lens of a reconsidered view of citizenship education can assist them and others to wrestle with its potential for destruction that can be changed into options for co belonging of a non violent if not peaceful kind

Education, Autonomy and Democratic Citizenship David

Bridges,2002-11-01 Across the globe educators are being required to respond to a changing political environment New nations emerge out of the collapse of old empires new democracies struggle out of old structures of oppression Driven on by the fierce competitiveness of the tiger economies of the east old social welfare based democracies are transformed into new market led enterprise societies The essays in this international collection are a response from twenty two educators to these changes and to the reassessment that they provoke of some of the fundamental principles which shape educational thought and practice They focus in particular on four key clusters of issues to do with the role of education in cultivating national identity Authors from political settings as culturally distant as Lithuania and Taiwan consider what role if any nationalistic education might play in the context of a democratic liberal education market principles Contributors offer different perspectives on the internationally pervasive application of the principles of the market economy to education and the consequent commodification of learning personal autonomy Different dimensions of the contested notion of autonomy are examined along with the related discourses of edification and empowerment democratic citizenship From post Soviet Russia to the new South Africa in schools and in the context of professional training educators examine what education for democratic citizenship might mean in practice and tease out some of the conflicts of principle which are raised in its implementation The contributors are distinguished scholars drawn from every continent They write consciously for an international readership and there is constant cross reference to developments in different parts of the world All are

practitioners in education sharing an interest in the philosophical issues underlying social change The philosophical discussion is clearly rooted in and referred back to the world of educational practice and its political context **SAGE**

Liberal-Democratic Societies Kevin McDonough, Walter Feinberg, 2003-08-28 The essays in this volume address the educational issues which arise when national sub national and supra national identities compete How can we determine the limits of parental educational rights when the concern of liberalism to protect and promote children s autonomy conflicts with the desire to maintain communal integrity Given the advances made by the forces of globalization can the liberal democratic state morally justify its traditional purpose of forging a cohesive national identity Or has increasing globalization rendered this educational aim obsolete and morally corrupt Should liberal education instead seek to foster a sense of global citizenship even if doing so would suppress patriotic identification In addressing these and many other questions the volume examines the theoretical and practical issues at stake between nationalists multiculturalists and cosmopolitans in the field of education The fifteen essays plus an introductory essay by the editors provide a genuine productive dialogue between political and legal philosophers and educational theorists The Public Schools Susan Fuhrman, Marvin

Lazerson, 2005-05-26 From curriculum standards and testing to school choice and civic learning issues in American education are some of the most debated in the United States The Institutions of American Democracy a collection of essays by the nation s leading education scholars and professionals is designed to inform the debate and stimulate change In association with the Annenberg Foundation Trust at Sunnyslands and the Annenberg Public Policy Center at the University of Pennsylvania The Institutions of American Democracy is the first in a series of books commissioned to enhance public understanding of the nature and function of democratic institutions A national advisory board including among others Nancy Kassebaum Baker David Boren John Brademas Ellen Condliffe Lagemann David Gergen and Lee Hamilton will guide the vision of the project which includes future volumes on the press and the three branches of government Each essay in The Institutions of American Democracy addresses essential questions for policymakers educators and anyone committed to

public education What role should public education play in a democracy How has that role changed through American history Have the schools lost sight of their responsibility to teach civics and citizenship How are current debates about education shaping the future of this democratic institution Among the contributors are William Galston Director of the Institute for Philosophy and Public Policy at the University of Maryland Clarence Stone Professor in the Department of Government and Politics at the University of Maryland College Park and editor of *Changing Urban Education and Regime Politics* Governing Atlanta 1946 1988 University Press of Kansas 1998 Susan Moore Johnson Pforzheimer Professor of Education in Learning and Teaching Harvard University Michael Johaneck Executive Director of K 12 Professional Development College Board Kathy Simon co executive director of the Coalition for Essential Schools and author of *Moral Questions in the Classroom* Yale University Press 2001 and Jennifer Hochschild Professor of Government and Professor of Afro American Studies at Harvard University and author of *Facing Up to the American Dream Race Class and the Soul of the Nation* Princeton University Press 1995 *Teacher Education and the Development of Democratic Citizenship in Europe* Andrea Raiker, Matti

Rautiainen, Blerim Saqipi, 2019-11-21 This book uses international collaboration between nine European countries to explore how teacher education systems across Europe perceive and act upon devolving democracy and democratic citizenship Understanding these countries cultural approaches to individual and national priorities in education is essential in perceiving similarities and differences in the meaning of democracy The book offers debate on the prospects for teacher education and the development of democratic citizenship in Europe based on historical political economic and cultural contexts and the Council of Europe's CoE competences for democratic citizenship With critical analysis and evaluation around the common theme of teacher education and its role in developing democratic citizenship the book provides awareness and understanding of how teacher education responds to the Council of Europe's CoE conceptual model of competences for democratic culture 20 competences categorized as Values Attitudes Skills and Knowledge and Critical Understanding are defined so they can be taught to enable learners to practice them in their daily lives as democratic citizens This book will be of key interest to academics researchers and post graduate students in the fields of teacher education educational policy and politics and citizenship education **Transnational Perspectives on Democracy, Citizenship, Human Rights and Peace**

Education Mary Drinkwater, Fazal Rizvi, Karen Edge, 2019-02-21 *Transnational Perspectives on Democracy Citizenship Human Rights and Peace* Education considers ways in which national systems of education could work together across borders to determine the meaning and significance of the principles of democracy human rights and peace education in ways that are comparative and relational The contributors and editors Mary Drinkwater Fazal Rizvi and Karen Edge argue that in an era of globalization collaborative investigations are crucial for developing an understanding of rights democracy and peace that is transnationally inflected and through which national systems of education hold each other accountable The chapters address issues such as citizenship identity language conflict and peace building global educational policy and

democratic approaches to policy and education issues of democracy human rights and peace education through analyses of case studies research findings and policy initiatives drawn from countries in the global north and south **Latent**

Education, Democracy and the Moral Life Michael S. Katz,Susan Verducci,Gert Biesta,2008-10-14 This volume has its origin in the Francis T Villemain Memorial lectures at San Jose State University a lecture series established in 1992 to honor the memory of 1 Dean Francis T Villemain All the essays in this volume with the exception of those by Gert Biesta Susan Verducci and Michael Katz were developed from lectures given as part of the series The general rubric of the lectures was democracy education and the moral life a title reflecting Villemain s lifelong love of the work of John Dewey whose preface to his famous work in 1916 Democracy and Education suggested that the purpose of education was to develop democratic citizens citizens infused with the spirit of democracy and the capacity to think and act intelligently within democratic settings Of course for Dewey democracy was not to be conceived of as merely a political form of government but as a shared form of social life one that was inclusive rather than exclusive and one that was capable of adapting to the changing features of contemporary social and political reality Francis T Villemain s appreciation for the intersections of the values of democracy education and the moral life was heightened by his doctoral work at Teachers College Columbia University in the 1950s where Dewey s legacy remained a powerful one But it also continued during his career at Southern Illinois University where he collaborated in compiling and editing the collected works of John Dewey **Education for Public Democracy** David T. Sehr,1997-01-01 Examines the kinds of school structures and educational practices that nurture the development of young people as public democratic citizens Education for Public Democracy identifies two competing traditions of American democracy and citizenship a dominant privately oriented citizenship tradition and an alternative tradition of public democratic citizenship Based on the second tradition public democracy the author outlines a set of qualities an effective democratic citizen must possess as well as a number of ideal school practices that promote these qualities in young people This discussion provides a framework for analyzing two democratic urban alternative high schools The book provides an essential bridge between democratic theory and promising school practices that promote public democratic citizenship Its insights will be indispensable to teachers school administrators teacher educators and theorists who seek to recreate American education in the service of a revitalized democracy **Democratic Hope** Robert B. Westbrook,2005-09 The pragmatists response to the claim that theirs is a deeply American philosophy has been less to challenge the claim than to

attempt to embrace it on their own terms One could speak of a national philosophy as one could not speak of a national chemistry or physics But national cultures were complicated and often conflicted Hence the relationship between a philosophy and a national culture could be at once close and fraught with tension from Democratic Hope Pragmatism as Richard Rorty has said names the chief glory of our country s intellectual tradition In Democratic Hope Robert B Westbrook examines the varieties of classical pragmatist thought in the work of John Dewey William James and Charles Peirce testing in good pragmatic fashion the truth of propositions by their consequences in experience Westbrook also attends to the recent revival of pragmatism by Rorty Cheryl Misak Richard Posner Hilary Putnam Cornel West and others and to pragmatist strains in contemporary American political thinking Westbrook s aims are both historical and political to ensure that the genealogy of pragmatism is an honest one and to argue for a hopeful vision of deliberative democracy underwritten by a pragmatist epistemology and ethics

African Democratic Citizenship Education Revisited Yusef Waghid,Nuraan Davids,2017-11-28 This edited collection explores how democratic citizenship education manifests across the African continent A recognition of rights and responsibilities coupled with an emphasis on deliberative engagement among citizens while not uniquely African provides ample evidence that the concept can most appropriately be realised in relation to its connectedness with experiences of people living on the continent Focussing on a diverse collection of voices the editors and authors examine countries that have an overwhelming allegiance to democratic citizenship education In doing so they acknowledge that this concept enveloped by a certain Africanness has the potential to manifest in practices across the African continent By highlighting the success of democratic citizenship education the diverse and varied contributions from across this vast continent address the malaise in its implementation in countries where autocratic rule prevails This pioneering volume will be an invaluable resource for researchers and students working in the fields of education and sociology particularly those with an interest in education policy philosophy of education and global citizenship initiatives

Civic Learning, Democratic Citizenship and the Public Sphere Gert Biesta,Maria De Bie,Danny Wildemeersch,2013-10-07 This books explores the relationships between learning democratic citizenship and the public sphere from thee interconnected angles theory methodology and research The main message of the book is that civic learning necessarily has a public character as it is learning that emerges from engagement in democratic processes and practices that occur both at the centre and the margins of society Through a combination of theoretical development methodological reflection and empirical case study the chapters in the book provide new insights in the complexities of learning in the context of the ongoing struggle for democracy
