Public Spaces Private Lives Democracy Beyond 9 11:

Public Spaces, Private Lives Henry A. Giroux, 2001 Offers progressive readers new and reinvigorated paths of engaged hope imagination and public involvement *Public Spaces, Private Lives* Henry A. Giroux, 2003 While many of the essays in this book were written before 9 11 they point to a number of important issues such as the commercialization of public life the stepped up militarization racial profiling and the threat to basic civil liberties that have been resurrected since the terrorist attacks *Public Spaces Private Lives* serves to legitimate the claim that there is much in America that has not changed since 9 11 Rather than a dramatic change what we are witnessing is an intensification and acceleration of the contradictions that threatened American democracy before the tragic events of 9 11 Hence *Public Spaces Private Lives* offers a context for both understanding and critically engaging the combined threats posed by the increase in domestic militarization and a neoliberal ideology that substitutes market values for those democratic values that are crucial to rethinking what a vibrant democracy would look like in the aftermath of September 11th **Public Spaces, Private Lives** Henry A. Giroux, 2003 *The Stewart/Colbert Effect* Amarnath Amarasingam, 2014-01-10 The Daily Show with Jon Stewart and The Colbert Report have attracted much interest in recent years from popular audiences as well as scholars in various disciplines Both Jon Stewart and Stephen Colbert have been named on Time magazine's list of the most influential people in the world The ten essays in this interdisciplinary collection explore the issues engendered by the popularity of entertainment news including the role of satire in politics the declining level of trust in traditional sources of media the shows cathartic or informational function and the ways in which these shows influence public opinion Instructors considering this book for use in a course may request an examination copy here **Universities and the Public Sphere** Brian Pusser, Ken Kempner, Simon Marginson, Imanol Ordorika, 2012-05-22 In this volume international contributors challenge prevalent views of the global marketplace to create a deeper understanding of higher education's role in knowledge creation and nation building **Globalization of Racism** Donaldo Macedo, Panayota Gounari, 2015-11-17 Addressing ethnic cleansing culture wars human sufferings terrorism immigration and intensified xenophobia *The Globalization of Racism* explains why it is vital that we gain a nuanced understanding of how ideology underlies all social cultural and political discourse and racist actions The book looks at recent developments in France Germany Greece Ireland Israel Italy Portugal Spain and the United States and uses examples from the mass media popular culture and politics to address the challenges these and other countries face in their democratic institutions The eminent authors of this important book show how we can educate for critical citizenry in the ever increasing multicultural and multiracial world of the twenty first century Contributors are David Theo Goldberg Loic Wacquant Edward W Said Zygmunt Bauman Peter Mayo and Carmel Borg Anna Aluffi Pentini and Walter Lorenz Peter Gstettner Georgios Tsiakalos Franz Hamburger Julio Vargas Lena de Botton and Ramon Flecha Concetta Sirna Jan Fiola Joao Paraskeva Henry A Giroux It explores new forms of racism in the era of globalization **Take Back Higher Education** Henry A. Giroux, Susan

Searls Giroux,2004-05-10 Higher education is under siege No longer viewed as a public good it is attacked by businesses who want to refashion institutions in the image of the marketplace Higher education is the target of cultural conservatives who have undermined academic freedom and access by deriding the academy as a hotbed of left multicultural radicalism and anti Americanism The historic mission to educate students as citizens motivated by democratic values is overshadowed by profit margins Giroux and Giroux argue that the greatest danger faced by higher education comes from corporatization and educational apartheid If higher education is to meet the challenges of a democratic future it must encourage students to be critical thinkers and citizens as it vouchsafes conditions for educators to produce scholarship in the service of an inclusive democracy

Giroux, 2007-05-11 The concept of border and border crossing has important implications for how we theorize cultural politics power ideology pedagogy and critical intellectual work This completely revised and updated edition takes these areas and draws new connections between postmodernism feminism cultural studies and critical pedagogy Highly relevant to the times which we currently live Giroux reflects on the limits and possibilities of border crossings in the twenty first century and argues that in the post 9/11 world borders have not been collapsing but vigorously rebuilt The author identifies the most pressing issues facing critical educators at the turn of the century and discusses topics such as the struggle over the academic canon the role of popular culture in the curriculum and the cultural war the New Right has waged on schools New sections deal with militarization in public spaces empire building and the cultural politics of neoliberalism Those interested in cultural studies critical race theory education sociology and speech communication will find this a valuable source of information

Terror of Neoliberalism Henry A. Giroux, 2018-03-29 This book argues that neoliberalism is not simply an economic theory but also a set of values ideologies and practices that works more like a cultural field that is not only refiguring political and economic

power but eliminating the very categories of the social and political as essential elements of democratic life Neoliberalism has become the most dangerous ideology of our time Collapsing the link between corporate power and the state neoliberalism is putting into place the conditions for a new kind of authoritarianism in which large sections of the population are increasingly denied the symbolic and economic capital necessary for engaged citizenship Moreover as corporate power gains a stranglehold on the media the educational conditions necessary for a democracy are undermined as politics is reduced to a spectacle essentially both depoliticizing politics and privatizing culture This series addresses the relationship among culture power politics and democratic struggles Focusing on how culture offers opportunities that may expand and deepen the prospects for an inclusive democracy it draws from struggles over the media youth political economy workers race feminism and more highlighting how each offers a site of both resistance and transformation

On Critical Pedagogy Henry A. Giroux, 2020-03-19 Alongside Paulo Freire Henry A Giroux is widely considered to be the founding father of critical pedagogy This classic work represents his best writing on critical pedagogy spanning the past 40 years The 2nd edition includes four new chapters covering the rise of fascist culture in America and across the globe and the dictatorship of ignorance in the age of Trump and post truth This impassioned work opens by discussing critical pedagogy in schools before extending the notion to the educational force of culture politics and society Giroux analyses the increasingly empirical orientation of teaching focusing on the culture of positivism and examines some of the major economic social and political forces undermining the promise of democratic schooling in both public and higher education He argues against the tendency by both right wing and neo liberal interests to reduce schooling to training and students merely to customers He points to the increasing attack on public and higher education by right wing populists and the Trump administration in an age of growing authoritarianism Giroux also considers the legacy of Freire and issues a fundamental challenge to educators public intellectuals and others who believe in the promise of radical democracy

Pixar's Boy Stories Shannon R. Wooden, Ken Gillam, 2014-03-27 Since *Toy Story* its first feature in 1995 Pixar Animation Studios has produced a string of commercial and critical successes including *Monsters Inc* *WALL E* *Finding Nemo* *The Incredibles* *Cars* and *Up* In nearly all of these films male characters are prominently

featured usually as protagonists Despite obvious surface differences these figures often follow similar narratives toward domestic fulfillment and civic engagement However these characters are also hypermasculine types whose paths lead to postmodern social roles more revelatory of the current crisis that sociologists and others have noted in boy culture In Pixar's Boy Stories Masculinity in a Postmodern Age Shannon R Wooden and Ken Gillam examine how boys become men and how men measure up in films produced by the animation giant Offering counterintuitive readings of boy culture this book describes how the films quietly but forcefully reiterate traditional masculine norms in terms of what they praise and what they condemn Whether toys or ants monsters or cars Pixar's males succeed or fail according to the boy code the relentlessly policed gender standards rampant in American boyhood Structured thematically around major issues in contemporary boy culture the book discusses conformity hypermasculinity social hierarchies disability bullying and an implicit critique of postmodern parenting Unprecedented in its focus on Pixar and boys in its films this book offers a valuable perspective to current conversations about gender and cinema Providing a critical discourse about masculine roles in animated features Pixar's Boy Stories will be of interest to scholars of film media and gender studies and to parents
