**International Development** Bruce Currie-Alder,Ravi Kanbur,David M. Malone,Rohinton Medhora,2014 A central premise is that an objective and universally accepted measure of success in development and paths to it does not exist *Draft International Development (Official Development Assistance Target) Bill* Great Britain: Parliament: House of Commons: International Development Committee,2010-03-23 In 1970 the UN General Assembly called on the economically advanced countries to provide 0.7% of their income as Official Development Assistance ODA by the middle of the decade In 2004 the UK committed to meet the target by 2013 The Government proposes to enshrine in law its commitment to meet the target in 2010 and each subsequent year Whilst the legislation is widely welcomed the Committee remains uncertain that it will have the wider impact claimed The accountability measures contained in the draft Bill weaken the commitment and provide the Government with an easy excuse for not meeting the target The 2002 International Development Act stipulates that DFID's expenditure on ODA should have poverty reduction as its primary objective With increasing pressure to find additional finance for responding to climate change or to new types of security threats there is a danger that increased amounts of UK ODA will be used for purposes only marginally related to poverty reduction The Government must take

appropriate steps to guard against this whether or not the Bill becomes law Ultimately the Committee supports the 0.7% goal and feels the UK should maintain and build on its reputation as a donor      **International Development Assistance Act of 1979** United States. Congress. Senate. Committee on Foreign Relations, 1979      *Religion and British International Development Policy* Aikande Clement Kwayu, 2020-03-12 This book studies the relationship between British government and faith groups in its international development agenda within and beyond the context of Brexit It includes aspects of International Relations International Development and Religion and Politics to trace the relationship between the British government and faith groups showing that the relationship is enhanced on three conditions i the resurgence of religion in international affairs ii the attitudes of politicians and political parties towards the third sector i.e. voluntary and private sectors and iii the rising prominence of the international development agenda in British politics The third condition triggers the need to understand this relationship in the wake of Brexit Thus the book aims to analyze to what extent the increasing prominence of an international development agenda in British politics explains the relationship between the government and faith groups and ultimately whether Brexit has increased the prominence of international development agenda and brought faith groups into closer relations with the government      **Congressional Record** United States. Congress, 1976      *OECD Development Co-operation Peer Reviews: Finland 2017* OECD, 2017-12-08 The review assesses the performance of Finland including how its commitment to the 2030 Agenda translates into action on the ground and how it can strengthen its partnerships with a view to adopting a whole of Finland approach in the face of steep budget cuts      Education and International Development Tristan McCowan, Elaine Unterhalter, 2015-01-29 Honorable Mention 2016 PROSE Award Education Practice Education is fundamental to every aspect of development and there is widespread support across the world for policies that affirm that all children regardless of their circumstances have a right to quality schooling Yet despite concerted efforts from national governments multilateral organisations and NGOs over many decades we are still far from achieving education for all In addition while education can enhance human development it is also associated with persistent inequalities Education and International Development provides a comprehensive introduction to the field giving an overview of the history influential theories important concepts and areas of achievement and presenting a critical reflection on emerging trends in policy practice and research With chapters that review key challenges and inspiring initiatives in countries around the globe focusing on critical issues such as language conflict and teachers this book serves both as a companion to graduate studies in international education and a concise reference book for practitioners and educators in the field      Global Learning and International Development in the Age of Neoliberalism Stephen McCloskey, 2021-10-13 This book argues that the international development sector is in crisis which can be mostly sourced to its side stepping the dominant development question of our age the neoliberal growth paradigm It argues that this crisis can be addressed at least in part by the sector's re engagement with the radical development education process that it helped to foster and sustain for

over two decades The recent safeguarding scandal is symptomatic of a sector that is becoming overly hierarchical brand conscious and disconnected from its base This book argues that many of the problems the sector is facing can be sourced to its failings in grappling with the question of neoliberalism and formulating a coherent critique of how market orthodoxy has accelerated poverty in the global North and South This book recommends re embracing the radical origins of global learning situated in the participative methodology and praxis reflection and action of Paulo Freire both as internal capacity building and external public engagement The book proposes a new development paradigm focusing on bottomup participative approaches to policy making based on the needs of those NGOs claim to represent the poor marginalised and voiceless rather than constantly following the agenda of donors and governments The recommendations made by this book will serve as an important resource for researchers and students of international development and global learning as well as to NGOs civil society activists and education practitioners looking for solutions to the problems within the sector
