**Government Budgeting and Financial Management in Practice** Gerald J. Miller, 2017-09-25 The right turn in U S politics has increased conflict over both ends and means in government budgeting and financial management Overlapping and competing views of the way the world works drive finance officials practice Taking a new look at public financial management that acknowledges the multiple competing realities Government Budgeting and Financial Management in Practice Logics to Make Sense of Ambiguity examines transaction cost economics and other small government managed by the market techniques as the latest reincarnation of public budgeting and financial management orthodoxy Gerald J Miller reviews new research on the continuing validity of the political dimension of government finance decisions and the multiple intensely argued constructions

of reality the finance official must make sense of Miller discusses major advances in interpretive approaches to budgeting and finance and how they dominate writing in the broader field of public administration He also examines the effects of the explosion of information systems new budget techniques nonconventional ways of spending and new technologies The book uses a question as the motivating force to understand some facets of today's government budgeting finance and financial management where do the critical assumptions come from to drive financial management Miller takes the history of reform developments in the field and the logics finance officials say they use as sources for these assumptions and examines what they reveal about constructions of the government finance world Exploring new avenues of financial management thinking the book discusses ambiguity and interpretations that move the unclear preferences ends and goals toward consensus The author identifies an alternative approach to research that explains important facets of financial management This approach is drawn directly from practice events and problems in public organizations and from the creedal bent of many political actors in competition

Debating Public Administration Robert F. Durant, Jennifer R.S. Durant, 2017-09-25 Dialog between practitioners and academics has increasingly become the exception rather than the rule in contemporary public administration circles Bridging the gap between theory and practice Debating Public Administration Management Challenges Choices and Opportunities tackles some of the major management challenges choices and opportunities of the twenty first century facing public managers across various subfields of public administration Informed by contemporary pressures on public managers to reconceptualize purpose redefine administrative rationality recapitalize human assets reengage resources and revitalize democratic constitutionalism the book offers students practitioners and researchers an opportunity to take stock and ponder the future of practice and research in public administration Organized by three sets of major management challenges facing the field Rethinking Administrative Rationality in a Democratic Republic Recapitalizing Organizational Capacity and Reconceptualizing Institutions for New Policy Challenges the book takes an uncommon approach to the study of these topics In it leading practitioners and academics comment on condensed versions of articles appearing in the Theory to Practice feature of Public Administration Review PAR from 2006 through 2011 The authors and commentators focus on some of the best current research draw lessons from that literature for practice and identify gaps in research that need to be addressed They expertly draw out themes issues problems and prospects providing bulleted lessons and practical takeaways This makes the book a unique one stop resource for cross disciplinary cross sectoral and cross professional exchanges on contemporary challenges

**ECEG2007-Proceedings of the 7th European Conference on e-Government** Dan Remenyi, **Knowledge and Entrepreneurship in Public Policy** Christopher J. Coyne, Abigail R. Hall, Eileen Norcross, 2023-11-17 Understanding entrepreneurship as alertness to potential profit opportunities and the activities involved with bringing those opportunities to life and public policy as laws regulations and activities of government this volume analyzes the intersection of the two to show how public policy influences entrepreneurship Using a mix of

theoretical and applied research the contributors argue that policies which incentivize productive entrepreneurship will advance economic well being but that the passage of such policies depends in large part on the availability and usage of economic knowledge by policymakers If policymakers lack the relevant economic knowledge to achieve their desired outcomes policies will be ineffective in incentivizing productive entrepreneurship
