Du Bois and His Rivals Raymond Wolters,2002 W E B Du Bois was the preeminent black scholar of his era He was also a principal founder and for twenty eight years an executive officer of the nation s most effective civil rights organization the National Association for the Advancement of Colored People NAACP Even though Du Bois was best known for his lifelong stance against racial oppression he represented much more He condemned the racism of the white world but also criticized African Americans for mistakes of their own He opposed segregation but had reservations about integration Today he would be known as a pluralist In Du Bois and His Rivals Raymond Wolters provides a distinctive biography of this great pioneer of the American civil rights movement Readers are able to follow the outline of Du Bois s life but the book s main emphasis is on discrete scenes in his life especially the controversies that pitted Du Bois against his principal black rivals He challenged Booker T Washington because he could not abide Washington s conciliatory approach toward powerful whites At the same time Du Bois s pluralism led him to oppose the leading separatists and integrationists of his day He berated Marcus Garvey for giving up on America and urging blacks to pursue a separate destiny He also rejected Walter White s insistence that integration was the best way to promote the advancement of black people Du Bois felt that American blacks should be full fledged Americans with all the rights of other American citizens However he believed that they should also preserve and

develop enough racial distinctiveness to enable them to maintain and foster a sense of racial identity community and pride Du Bois and His Rivals shows that Du Bois stood for much more than protest against racial oppression He was also committed to pluralism and his pluralism emphasized the importance of traditional standards and of internal cooperation within the black community Anyone interested in the civil rights movement black history or the history of the United States during the early twentieth century will find this book valuable   Israel Studies in Criminology Shlomo Giora Shoham,1973-01-01 This ongoing series published under the auspices of the Faculty of Law and the Institute of Criminology and Criminal Law of Tel Aviv University documents the changes taking place in the field of criminology and the new undercurrents continually surfacing The editor shows that criminological research has become emeshed in two issues First research has become increasingly bifurcated into action oriented research and etiological theorizing the so called new criminology has caused some ripples especially among radically oriented students Second most current approaches to the study and prevention of crime and deviance are being undertaken from a multidisci plinary but undisciplined position Efforts are being made to promote an interdisciplinary approach to criminology The idea is to break the semantic barriers among the various disciplines and ultimately to synchronize the various levels of analysis into a continuous homogeneous model   *International Organization and Conference Series* ,1959   **African Conceptions of Human Dignity** Brett G.
