II Tadao Miyakawa, 1999 The Tools of Government Odus V. Elliott, 2002-02-22
The new tools of public action have come to rely heavily on third parties private businesses nonprofit organisations and other levels of government for their operation
The Tools of Government is a comprehensive guide to the operation of these tools and to the management accountability policy and theoretical issues they pose

Governing the Embedded State Bengt Jacobsson, Jon Pierre, Göran Sundström, 2015-01-08
Governing the Embedded State integrates governance theory with organization theory and examines how states address social complexity and international embeddedness Drawing upon extensive empirical research on the Swedish government system this volume describes a strategy of governance based in a metagovernance model of steering by designing institutional structures This strategy is supplemented by micro steering of administrative structures within the path dependencies put in place through metagovernance Both of these strategies of steering rely on subtle methods of providing political guidance to the public service where norms of loyalty to the government characterize the relationship between politicians and civil servants By drawing upon this research the volume will explain how recent developments such as globalization Europeanization the expansion of managerial ideas and the fragmentation of states have influenced the state's capacity to govern The result is an account of contemporary governance which shows the societal constraints on government but also the significance of close interaction and cooperation between the political leadership and the senior civil servants in addressing those constraints

The National Planning Idea In U.s. Public Policy David E Wilson, 2019-07-11
This book explores the eventful but largely forgotten history of national planning efforts in the United States first identifying and comparing five alternative approaches to contemporary national planning then using these approaches to assess the events of 1973 1976 a period when crisis pressures brought a vigorous resurgence of national planning activity and debate Dr Wilson concludes that two new approaches to planning learning adaptive and general systems are increasingly being used in lieu of the long established and less flexible rational and incremental approaches and that these might eventually achieve a beneficial new synthesis in both federal policy practice and social science theory He argues that the twin questions of a planned versus a planning society and of who will plan for whom are inexorably emerging as key issues in U S public policy Along with its companion volume National Planning in the United States An Annotated Bibliography also published by Westview this book provides extensive new interdisciplinary research material and integrative perspectives on current planning challenges

The Birth of Head Start Maris A. Vinovskis, 2008-11-15
One of the most popular and enduring legacies of President Lyndon B Johnson's Great Society programs Project Head Start continues to support young children of low income families close to one million annually by providing a range of developmental and educational services Yet as Head

Start reaches its fortieth anniversary debates over the function and scope of this federal program persist Although the program's importance is unquestioned across party lines the direction of its future whether toward a greater focus on school readiness and literacy or the continuation of a holistic approach remains a point of contention Policymakers proposing to reform Head Start often invoke its origins to justify their position but until now no comprehensive political history of the program has existed Maris A Vinovskis here provides an in depth look at the nation's largest and best known yet politically challenged early education program *The Birth of Head Start* sets the record straight on the program's intended aims documenting key decisions made during its formative years While previous accounts of Head Start have neglected the contributions of important participants such as federal education officials and members of Congress Vinovskis's history is the first to consider the relationship between politics and policymaking and how this interaction has shaped the program This thorough and incisive book will be essential for policymakers and legislators interested in prekindergarten education and will inform future discussions on early intervention services for disadvantaged children

Policy Studies: Review Annual Ray Rist, 2018-04-20 The sixth edition of this annual collection of the year's best work in policy studies Contributions in this volume reflect the increased emphasis on budget conscious and carefully targeted social programmes Exemplifying a range of analytic and methodological strategies this edition features studies from Australia the United States West Germany and Great Britain

The Implementation Perspective Walter Williams, 2023-07-28 After the big decisions are made in legislatures and executive offices what is done by those who implement and operate social service programs will determine their success or failure Yet over and over again the managers of public organization disregard or handle poorly the critical problems involved in starting and developing new programs or in modifying existing ones This book presents a new decision making rationale the implementation perspective as the basic guide to social service program management The cardinal principle is that the central focus of policy must be at the point of service delivery Here is where management must redirect its attention The demand is to concentrate on the hard dirty time consuming work of building the local delivery capacity needed to provide better social services and to implement new program decisions over time *The Implementation Perspective* is a message for our times Even those who would continue the nation's effort to meet its social obligations are finding that simply calling for big new programs and more spending is no longer satisfying Moreover Proposition 13 the balanced budget movement inflation and compelling demands for new funds in such areas as energy now squeeze social programs New directions may have to come not from new funds but from rethinking and redirection and more to the point the better management of existing programs After the big decisions are made in legislatures and executive offices what is done by those who implement and operate social service programs will determine their success or failure Yet over and over again the managers of public organization disregard
