Public Procurement in European Community Law Friedl Weiss, 1993 Public procurement the area covered in this book introduces one of the most important commercial aspects of the new competitive climate prevailing in Community affairs The European Commission has expressed its wish to open up markets on a Community wide basis for specific areas with the possibility of further liberalization in other procurement markets This analysis and commentary upon the legislation will be

essential reading for all those involved in public procurement activity Dr Weiss has published widely in areas of Community legislation

Public Procurement in the European Union C. Bovis, 2005-08-02 This book provides invaluable insights to one of the most difficult areas of European integration Public procurement represents an instrument of policy choice for governments and its regulation interacts with a variety of policies including the promotion of competition employment social policy and environmental protection The author vividly elaborates on the in built flexibility of the newly enacted rules and provides a codified analysis of their interpretation by the EU judiciary Finally considerable debate is dedicated to future dimensions of public procurement regulation in the form of public private partnerships and concessions

Discretion in EU Public Procurement Law Sanja Bogojevic, Xavier Groussot, Jörgen Hettne, 2019-05-30 The EU public procurement regime has recently undergone an overhaul and now allows Member States and their contracting authorities to pursue strategic goals via public procurement including environmental and social objectives The extent to which such interests may be accommodated in the procurement process is ultimately determined by the broader legal context in which the EU public procurement regime exists which raises pressing questions regarding the scope and limits of Member States discretion This volume scrutinises these new legal acts particularly Directive 2014/24/EU focusing on discretion and engaging with questions central to the public procurement regime against the EU legal backdrop including internal market law and environment law as well as law beyond the EU

The Liberalisation of Public Procurement and its Effects on the Common Market Christopher Bovis, 2019-01-04 First published in 1998 Public Procurement in the European Community has been considered as the most important non tariff barrier for the completion of the common market and its liberalisation reflects the attempts of law and policy makers to enhance competitiveness in the public sector and achieve uniform patterns of industrial efficiency The opening up of procurement stresses the fact that the Member States must embark upon a process of changing their public sector management ethos and adopt more market orientated parameters value for money efficiency improved risk management market testing outsourcing private finance savings in the delivery of public services alongside the principles of transparency and public accountability The book is addressed to academics and researchers in the fields of law public policy and government studies legal practitioners policy makers government officials as well as industry executives It provides a multi disciplinary analysis of public procurement law and policy and assesses its impact on the European integration process It investigates the implications of the opening up of the European public markets on other legal and economic systems in the world and analyses the regulation of public purchasing as part of the emerging Economic Law of the European Union

Collected Courses of the Academy of European Law: 1997 European Community Law Academy of European Law, 2001-05-23 The Academy of European Law was established by the European University Institute in 1990 and extends the Institute's current programmes into a larger field of interest It has as its main activity the holding of annual Summer Courses in the law of the European Community and the protection of human rights in Europe In addition to General

Courses shorter courses are held on subjects of special academic and practical interest in both fields Finally special guest lectures on topical issues are given by policy makers judges and persons who have held or currently hold the highest position in these fields The courses are published in the language in which they were delivered English and French

Public Procurement and the EU Competition Rules Albert Sánchez Graells, 2015-06-25 Public procurement and competition law are both important fields of EU law and policy intimately intertwined in the creation of the internal market Hitherto their close connection has been noted but not closely examined This work is the most comprehensive attempt to date to explain the many ways in which these fields often considered independent of one another interact and overlap in the creation of the internal market This process of convergence between competition and public procurement law is particularly apparent in the 2014 Directives on public procurement which consolidate the principle of competition in terms very close to those advanced by the author in the first edition This second edition builds upon this approach and continues to ask how competition law principles inform and condition public procurement rules and whether the latter in their revised form are adequate to ensure that competition is not distorted The second edition also deepens the analysis of the market behaviour of the public buyer from a competition perspective Proceeding through a careful assessment of the general rules of competition and public procurement the book constantly tests the efficacy of these rules against a standard of the proper functioning of undistorted competition in the market for public procurement It also traces the increasing relevance of competition considerations in the case law of the Court of Justice of the European Union and sets out criteria and recommendations to continue influencing the development of EU Economic Law

Implementing the European Community Single Market, 1994 *Implementing the European Community Single Market* United States International Trade Commission, 1994

Market Integration and Public Services in the European Union Marise Cremona, 2011-03-03 In a period when the nature and scope of the European internal market is hotly contested this collection offers a topical analysis of the most pressing issues relating to market integration and public services in the EU As the debate continues over the balance between state control and market freedom questions are also raised about the relationship between EU regulation and national policy choices and the joint responsibility of the Union and the Member States Outlining the most important current issues relating to market integration and public services in the EU this book also addresses the underlying systemic questions of the relation between public services and markets and services and the consumer Chapters also examine the application of state aids and procurement law to public services The final two chapters focus on two public service sectors where the mix of Treaty rules case law and legislation has operated in rather different ways public service media and health services

European Union Law for the Twenty-First Century: Volume 2 Takis Tridimas, Paolisa Nebbia, 2004-12-06 This book to be published in two volumes is based on the contributions made to the W G Hart Workshop 2003 It contains more than forty contributions by leading experts seeking to assess the state of development of EU law some fifty years after the establishment of the Communities and

contribute to the current debate on the European Constitution The second volume focuses on challenges in the field of the internal market and external relations looking at diverse areas of European Law including free movement competition law and merger control public procurement consumer law enlargement WTO third country nationals sex equality etc Authors include Tony Arnall George Bermann Marise Cremona Paul Craig Eileen Denza Piet Eeckhout Koen Lenaerts Steve Peers Wulf Henning Roth Francis Snyder Erika Szyszczak Takis Tridimas and Stephen Weatherill *EU Public Contract Law* Roberto Caranta, Gunilla Edelstam, Martin Trybus, 2013-12-13 This book analyses many aspects of the present EU regulatory framework for public contracts especially public procurement taking the ongoing reform process into account First several chapters discuss the regime of the Public Sector Procurement Directive 2004/18/EC governing the procurement activities of the EU Member States the coverage of the Directive qualification and technical specifications procurement procedures and award criteria A specific chapter describes the EU principles applicable to contracts not covered or partially covered by the Directive which have been the subject of relevant developments in the case law of the European Court of Justice Another chapter covers sustainable procurement Second three chapters are devoted to special procurement regimes namely public private partnerships defence and utilities Third the review and remedies regime for public procurement is covered in two chapters Fourth one chapter goes beyond public procurement and looks at the effect of EU law on the contract management of public contracts after their conclusion Fifth three chapters go beyond the regulation of the Member States and look at the EU law regime applicable to contracts of the EU institutions Sixth and finally a concluding chapter provides a critique of the EU legal framework by an author from outside the EU **State Aid Law of the European Union** Herwig C. H. Hofmann, Claire Micheau, 2016-08-18 Rules controlling State aid and subsidies on the EU and the WTO level can have a decisive influence on both regulatory and distributive decision making This field of law has grown exponentially in importance and complexity over the past decades Rules on State aid and subsidies control are one of the key instruments to ensure that public spending and regulatory measures do not lead to discriminatory distortions of competition As a consequence hardly any part of national law is free from review under criteria of State aid and subsidy regulation In turn State aid and subsidies law is linked to economic constitutional administrative law of the EU and the Member States as well as to public international law This book brings together leading experts from academia the judiciary civil servants from the European Commission and practising lawyers to provide expert opinion and commentary on the diverse dimensions of the complex and vital area of law Critically analysing and explaining developments and current approaches in State aid law and subsidies the chapters take into account not only the legal dimensions but also the economic and political implications They address the EU law applicable to State aid in the aftermath of the recent State Modernisation reform and coverage includes an in depth analysis of the notion of State aid as interpreted by the Court's case law and the Commission's practice the rules on compatibility of State aid with the internal market the rules governing the procedure before the Commission the litigation

before the Court of Justice of the European Union and analysis of the other trade defence instruments including WTO subsidy law and EU anti subsidy law The Outer Limits of European Union Law Catherine Barnard, Okeoghene Odudu, 2009-03-05

A commonly expressed view is that the citizens and the Member States are destined to be overcome by the European Union. There is a sense that the Union of today is not what was intended to be created or acceded to by the Member States or its citizens. *The Outer Limits of European Union Law* brings together a diverse group of legal scholars to consider aspects of EU substantive constitutional and procedural law in a manner highlighting the many senses in which the European Union is or can be limited and so demonstrating that the fear of being overcome is largely a false fear. By exploring the mechanisms and devices used to limit the European Union the contributors also reveal not only the strengths of the various limits but also and more crucially the weakness of the limits thereby demonstrating that the prospect of being overcome may be a genuine risk to be guarded against. By considering general themes eg legitimacy and core subject areas eg policing free movement of goods remedies the book reveals the various techniques used by the Court of Justice Community institutions and Member States to define and modify the outer limits of the European Union and European Union Law **European Union Law of State Aid** Kelyn Bacon, 2017 This book provides a comprehensive practitioner guide to the EU law of State aid covering all relevant legislation case law and the dominant themes shaping EU State aid policy. It discusses the concept of State aid and its development in the European Union as well as practical aspects such as procedures for notification to the European Commission and enforcement in the European Court and national courts. It offers extensive coverage of specific sectors including transport and shipbuilding media and communications energy and environmental protection culture and heritage and agriculture. The third edition is fully updated to cover the extensive legislative changes in this area including the new General Block Exemption Regulation and De Minimis Regulation horizontal aid guidelines and sectoral guidelines for aviation cinemas agriculture and fisheries as well as State aid cases in the national courts particularly the UK and recent European Court jurisprudence.
