Public Relations As Relationship Management John A. Ledingham, Stephen D. Bruning, 2000 The emergence of relationship management as a paradigm for public relations scholarship and practice requires a close examination of just what is achieved by public relations its definition function and value and the benefits it generates Initiated by the editors interest in cross disciplinary exploration this volume evolved to its current form as a result of the need for a framework for understanding public relations and the potential impact of organization public relationships on the study practice and teaching of public relations Ledingham and Bruning include contributions that present state of the art research in relationship management applications of the relational perspective to various components of public relations and the implications of the approach to influence further research and practice The discussion conducted here is certain to influence and promote future theory and practice on the concept of relationship management *Crisis Communications* Kathleen Fearn-Banks, 1996 No company organization or individual whose livelihood depends on public reaction can afford to function without a crisis management communications plan Yet many large fully staffed corporations still have no such plans Management and public relations in these companies are likely to say they acknowledge the need for such a plan however they either lack the manpower or the expertise to develop a crisis plan So they think positively and hope that the inevitable will never occur until the economy improves and they can hire someone with crisis planning expertise Various public relations and crisis communication theories suggest attributes and characteristics of programs that are likely either to prevent crises or enable organizations to recover from crises more swiftly than organizations without those characteristics In fact negative thinking is the appropriate stance in crisis management This book shows that if an organization's leaders think and plan for the worst case scenario they will come out of a crisis in better condition than they would otherwise It shows individuals how to prepare themselves and their organizations to cope with crises that may occur and offers strategies and

tactics to be used during a crisis It provides this information via examinations of the experiences of public relations professionals in crises what they did what they wished they had done and what hampered their progress This volume of case studies demonstrates problems that can turn into crises and crises if not handled effectively that can become catastrophes The chapters include descriptions of the skills needed to communicate effectively in a crisis a how to manual on developing and implementing a crisis communication plan some causes of crises rumor sensationalized and irresponsible news coverage and the non expert expert tips on how to work with rather than in conflict with the media and lawyers and narrated case studies of how public relations professionals used communication in several kinds of crises

Responding to Crisis Dan Pyle Millar, Robert L. Heath, 2003-12-08 In recent years researchers and practitioners have explored the nature theory

and best practices that are required for effective and ethical crisis preparation and response The consequences of being unprepared to respond quickly appropriately and ethically to a crisis are dramatic and well documented For this reason crisis consulting and the development of crisis response plans and protocols have become more than a cottage industry Taking a rhetorical view of crisis events and utterances this book is devoted to adding new insights to the discussion and to describing a rhetorical approach to crisis communication To help set the tone for that description the opening chapter reviews a rhetorical perspective on organizational crisis As such it raises questions and provokes issues more than it addresses and answers them definitively The other chapters can be viewed as a series of experts participating in a panel discussion The challenge to each of the authors is to add depth and breadth of understanding to the analysis of the rhetorical implications of a crisis as well as to the strategies that can be used ethically and responsibly Central to this analysis is the theoretic perspective that crisis response requires rhetorically tailored statements that satisfactorily address the narratives surrounding the crisis which are used by interested parties to define and judge it This volume will be of value to scholars and students interested in crisis communication and is certain to influence future work and research on responding to crises

Deconstructing Public

Relations Thomas J. Mickey, 2003-01-30 This volume provides a critical look at public relations practice utilizing case studies from public relations advertising and marketing to illustrate the deconstruction and analysis of public relations campaigns. Author Thomas J. Mickey uses a cultural studies approach and demonstrates how it can be used as a critical theory for public relations practice offering real world examples to support his argument. Through the interpretive act of deconstruction this book serves to challenge the myth of public relations as an objective science allowing the social importance of public relations to be redefined and encouraging public relations to take a fuller place in the interdisciplinary study of text and knowledge. Intended for public relations scholars and students in public relations cases, campaigns, public relations criticism and media studies courses. *Deconstructing Public Relations: Public Relations Criticism* demystifies the act of deconstruction and shows how it can give insight into the theory and practice of public relations.
