*Public Sector Reforms in Developing Countries* Charles Conteh, Ahmed Shafiqul Huque, 2014-04-03 The underpinning assumption of public management in the developing world as a process of planned change is increasingly being recognized as unrealistic In reality the practice of development management is characterized by processes of mutual adjustment among individuals agencies and interest groups that can constrain behaviour as well as provide incentives for collaborative action Paradoxes inevitably emerge in policy network practice and design The ability to

manage government departments and operations has become less important than the ability to navigate the complex world of interconnected policy implementation processes Public sector reform policies and programmes as a consequence are a study in the complexities of the institutional and environmental context in which these reforms are pursued Building on theory and practice this book argues that advancing the theoretical frontlines of development management research and practice can benefit from developing models based on innovation collaboration and governance The themes addressed in Public Sector Reforms in Developing Countries will enable public managers in developing countries cope in uncertain and turbulent environments as they seek optimal fits between their institutional goals and environmental contingencies *Public Sector Reform in the Middle East and North Africa* Robert P. Beschel Jr., Tarik M. Yousef, 2020-12-01 Critical examinations of efforts to make governments more efficient and responsive Political upheavals and civil wars in the Middle East and North Africa MENA have obscured efforts by many countries in the region to reform their public sectors Unwieldy unresponsive and often corrupt governments across the region have faced new pressure not least from their publics to improve the quality of public services and open up their decisionmaking processes Some of these reform efforts were under way and at least partly successful before the outbreak of the Arab Spring in 2010 Reform efforts have continued in some countries despite the many upheavals since then This book offers a comprehensive assessment of a wide range of reform efforts in nine countries In six cases the reforms targeted core systems of government Jordan s restructuring of cabinet operations the Palestinian Authority s revision of public financial management Morocco s voluntary retirement program human resource management reforms in Lebanon an e governance initiative in Dubai and attempts to improve transparency in Tunisia Five other reform efforts tackled line departments of government among them Egypt s attempt to improve tax collection and Saudi Arabia s work to improve service delivery and bill collection Some of these reform efforts were more successful than others This book examines both the good and the bad looking not only at what each reform accomplished but at how it was implemented The result is a series of useful lessons on how public sector reforms can be adopted in MENA *Public Sector Reform*, 2008-01-01 The effectiveness and efficiency of a country s public sector is vital to the success of development activities including those the World Bank supports Sound financial management an efficient civil service and administrative policy efficient and fair collection of taxes and transparent operations that are relatively free of corruption all contribute to good delivery of public services The Bank has devoted an increasing share of its lending and advisory support to the reform of central governments so it is important to understand what is working what needs improvement and what is missing IEG has examined lending and other kinds of Bank support in 1999 2006 for public sector reform in four areas public financial management administrative and civil service revenue administration and anticorruption and transparency Although a majority of countries that borrowed to support public sector reform experienced improved performance in some dimensions there were shortcomings in important areas and in overall coordination The frequency of improvement was higher among

IBRD borrowers than among IDA borrowers Performance usually improved for public financial management tax administration and transparency but did not usually with respect to civil service
