Mudacumura, 2017-07-14 This edited volume brings together critical insights that address the multifaceted problems of governance and democracy in the developing regions with specific reference to Africa It explores both the externally prescribed and home grown governance initiatives geared toward democracy and development and suggests alternative strategies to improve the processes and institutions of governance The chapters in the book deal with

Challenges to Democratic Governance in Developing Countries Gedeon Mudacumura, Göktuğ Morçöl, 2014-01-04 Despite the large amounts of human and financial resources invested to foster democratic governance in developing countries statistics show that the majority of these countries have not yet achieved significant improvements in living standards While some regions make strides towards improving the living conditions of their citizens Sub Saharan Africa for instance is still trapped in poverty with more than 40% of its 600 million people living below the internationally recognized absolute poverty line of one US dollar per day Poor governance and corruption should be highlighted as the most important systemic factors contributing to poverty in developing countries As a result the institutional foundations of these countries are weakened public funds are misappropriated and policies and programs aimed at reducing poverty and fostering sustainable economic growth are undermined It is therefore not surprising that a 2008 Transparency International report found a direct link between corruption and the failure of the societal institutions designed to achieve the Millennium Development Goals in the majority of developing countries This book investigates the problems of democratic governance particularly as they relate to corruption and also whether democracy should be based on universal principles or local context and historical factors It also analyses the rule of law in promoting democratic governance and curbing corruption and if governmental non governmental organizations and civil societies are effective in promoting democratic governance and curbing corruption This book will go beyond identifying the challenges and offer plausible solutions that could be adapted to various developing countries It is premised on the importance of bridging theory and practice which has been lacking in most local and international development publications making of interest to scholars and policy makers alike concerned with public administration in developing countries

Handbook of Public Administration Reform Shaun F. Administrative Culture in Developing and Transitional Countries Ishtiaq Jamil, Steinar Askvik, Farhad Hossain, 2016-03-17

The book explores theoretical methodological and empirical underpinnings of administrative culture as well as prospects and challenges associated with it in the context of and across developing and transitional countries Referring to dominant norms and values in public organizations administrative culture is about the attitudes and perceptions of public officials In many countries civil servants are criticised for being corrupt incompetent unreliable and self centred Their attitudes norms and values and the way they act are in constant conflict with rule of law Recently the virtues of the Weberian model of bureaucracy have been reclaimed as an alternative to New Public Management NPM i e as a model which emphasizes impartiality rule following expertise and hierarchy rather than manipulation of incentive structures and market competition In particular it has been argued that a system of meritocratic recruitment and predictable long term careers increases the professional competence of the bureaucrats and fosters a culture of professionalism among them Still it is unclear how and under what conditions such a model can be adopted Among main hindrances seems to be established power structures and the existing political and societal culture which undermine the effective implementation of the Weberian model This book was published as a special issue of the International Journal of Public Administration
