Public Space:

Privately Owned Public Space Jerold S. Kayden, New York (N.Y.). Department of City Planning, The Municipal Art Society of New York, 2000-11-06 Until now comprehensive systematic knowledge about this vast collection of public spaces has not existed either for experts or members of the public Through words photographs scaled site plans maps and analysis of newly assembled data the book examines the history law design and use of the city's privately owned public spaces Each of the more than 500 spaces is individually discussed to provide far reaching comparative information about this unique category of public space

Public Space Stephen Carr, 1992 The authors offer a perspective of how to integrate public space and public life They contend that three critical human dimensions should guide the process of design and management of public space the users essential needs their spatial rights and the meanings they seek

Why Public Space Matters Setha M. Low, 2023 Why Public Space Matters examines how public space contributes to individual and societal flourishing Based on thirty five years of ethnographic fieldwork on plazas walkways parks markets and beaches in the United States Costa Rica Argentina India Kenya and France it presents a new understanding of the role of social contact public culture and affective atmosphere in the creation of places essential to everyday urban life

Public Space and Democracy Marcel Hénaff, Tracy B. Strong, 2001 Moving from classical Greece to the present Public Space and Democracy provides both historical accounts and a comparative analytical framework for understanding public space both as a place and as a product of various media from speech to the Internet These essays make a powerful case for thinking of modern technological developments not as the end of public space but as an opportunity for reframing the idea of the public and of the public space as the locus of power

The Politics of Public Space Setha Low, Neil Smith, 2013-01-11 Why is public space disappearing Why is this disappearance important to democratic politics and how has it become an international phenomenon Public spaces are no longer democratic spaces but instead centres of private commerce and consumption and even surveillance and police control The Politics of Public Space extends the focus of current work on public space to include a consideration of the transnational in the sense of moving people and transformations in the nation or state to expand our definition of the public and public space Ultimately public spaces are one of the last democratic forums for public dissent in a civil society Without these significant central public spaces individuals cannot directly participate in conflict resolution The Politics of Public Space assembles a superb list of contributors to explore the important political dimensions of public space as a place where conflicts over cultural and political objectives become concrete

Designs on the Public Kristine F. Miller, New York City is home to some of the most recognizable places in the world As familiar as the sight of New Year's Eve in Times Square or a protest in front of City Hall may be to us do we understand who controls what happens there Kristine Miller delves into six of New York's most important public spaces to trace how design influences their complicated lives Miller chronicles controversies in the histories of New York locations including Times Square Trump Tower the IBM Atrium and Sony Plaza

The story of each location reveals that public space is not a concrete or fixed reality but rather a constantly changing situation open to the forces of law corporations bureaucracy and government The qualities of public spaces we consider essential including accessibility public ownership and ties to democratic life are at best temporary conditions and often completely absent Design is in Miller s view complicit in regulation of public spaces in New York City to exclude undesirables restrict activities and privilege commercial interests and in this work she shows how design can reactivate public space and public life Kristine F Miller is associate professor of landscape architecture at the University of Minnesota

Public Space Angela D'Ascoli,2018 Public spaces have been and still are the central topic of countless numbers of studies Despite their continuing considerable relevance which crosses the threshold of metropolitan settings there has been hardly any in depth professional and academic debate on what public spaces are outside the city walls and how they take part in this process of *Public Space and the Ideology of Place in American Culture* ,2009-01-01 We typically take public space for granted as if it has continuously been there yet public space has always been the expression of the will of some agency person or institution who names the space gives it purpose and monitors its existence And often its use has been contested These new essays written for this volume approach public space through several key questions Who has the right to define public space How do such places generate and sustain symbolic meaning Is public space unchanging or is it subject to our subjective perception Do we given the public nature of public space have the right to subvert it These eighteen essays including several case studies offer convincing evidence of a spatial turn in American studies They argue for a re visioning of American culture as a history of place making and the instantiation of meaning in structures boundaries and spatial configurations Chronologically the subjects range from Pierre L

Enfant's initial majestic conceptualization of Washington D C to the post modern realization that public space in the U S is increasingly a matter of waste Topics range from parks to cities to small towns from open air museums to airports encompassing the commercial marketing of place as well as the subversion and re possession of public space by the disenfranchised Ultimately public space is variously imagined as the site of social and political contestation and of aesthetic change *Beyond Zuccotti Park* Ronald Shiffman, Rick Bell, Lance Jay Brown, Lynne Elizabeth, 2012-10-02 In the wake of the Occupy movement leading planners and social scientists examine public space today and freedom to assemble **Street People and the Contested Realms of Public Space** Randall Amster, 2004 Amster studies the social and spatial implications of homelessness in America Increasingly commentators have lamented the erosion of public space charting its decline along with the rise of commercialization and privatization A result is the criminalization of homelessness a phenomenon revealed here through participant observations informal conversations and in depth interviews with street people city officials and social service providers Amster explores the interconnections among i the impetus of development and gentrification ii the enactment of anti homeless ordinances and regulations iii the material and ideological erosion of public space iv emerging forces of resistance to these trends and v the continuing viability of anti systemic movements
