Lands, Laws, and Gods Daniel J. Gargola, 2016-06-01 In Lands Laws and Gods Daniel Gargola examines the formulation and implementation of laws regulating the use of public lands including the establishment of colonies in Republican Rome 509-27 B.C. During this period of territorial expansion the Romans developed the basic legal forms by which they governed captured land and they constructed the processes and ceremonies by which those forms were translated into practice Using agrarian law as a case study and focusing especially on rituals that both validated and gave structure to the administrative process Gargola demonstrates the fundamental connections between religion law and government Essential acts in the administration of agrarian legislation such as the transfer of land from one party to another and the granting of contracts for public works depended upon ritual formulas and gestures often within the context of religious ceremonies By recovering these formulas and their larger significance Gargola reconstructs an important dimension of Roman life Originally published in 1995 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These

and direct prose provides a riveting depiction of ancient warfare and not incidentally a persuasive portrait for the Roman people and for us of Caesar himself as a brilliant moderate and effective leader an image that was key to his final success Kurt A Raaflaub's masterful translation skillfully brings out the clarity and elegance of Caesar's style and this together with such Landmark features as maps detailed annotations appendices and illustrations will provide every reader from lay person to scholar with a rewarding and enjoyable experience With 2 color text maps and illustrations throughout web essays available at <http://www.thelandmarkcaesar.com> *Enduring Empire* David Tabachnick, Toivo Koivukoski, 2009-09-05 An exploration of the ways in which ancient theories of empire can inform our understanding of present day international relations *Enduring Empire* engages in a serious discussion of empire as it relates to American foreign policy and global politics The imperial power dynamics of ancient Athens and Rome provided fertile ground for the deliberations of many classical thinkers who wrote on the nature of empire contemplating political sovereignty autonomy and citizenship as well as war peace and civilization in a world where political boundaries were strained and contested The contributors to this collection prompt similar questions with their essays and promote a serious contemporary consideration of empire in light of the predominance of the United States and of the doctrine of liberal democracy Featuring essays from some of the leading thinkers in the fields of political science philosophy history and classics *Enduring Empire* illustrates how lessons gleaned from the Athenian and Roman empires can help us to understand the imperial trajectory of global politics today

Speech on Behalf of Publius Sestius

Marcus Tullius Cicero, 2006 Cicero defended Publius Sestius against a charge of public violence in early March 56 B C E intending to discharge the obligation he owed for Sestius's efforts as tribune the previous year to win his restoration from exile Because Cicero based his defence on an ample account of recent Roman political history and a survey of the commonwealth's current condition it is among the longest of his extant speeches It is also arguably the most important of his political speeches that survive from the nearly two decades separating the Speeches against Catiline and the Second Philippic Though Cicero of course did not know it at the time it was to be his last significant public performance as an independent political agent before the upheaval that followed Caesar's murder in little more than a month Caesar and Pompey would meet at Luca and Cicero would be kept on a short leash until the outbreak of civil war The speech's account of recent history and of the men who made it provides any student of Rome with a full and fascinating way into the period Because so much of the account concerns public meetings demonstrations and outbursts of violence it is highly pertinent to the current debate on the place of the crowd in Rome in the late Republic more generally the speech with its energy drama and broad scope is among the best introductions we have to traditional Republican values and ethics in action This new translation and commentary make this important text accessible to a new generation of readers
