JUDICIOUS ADVERTISING ,1914 Public Vows Melissa J. Ganz,2019-06-20 In eighteenth century England the institution of marriage became the subject of heated debates as clerics jurists legislators philosophers and social observers began rethinking its contractual foundation Public Vows argues that these debates shaped English fiction in crucial and previously unrecognized ways and that novels in turn played a central role in the debates Like many legal and social thinkers of their day novelists such as Daniel Defoe Samuel Richardson Frances Burney Eliza Fenwick and Amelia Opie imagine marriage as a public institution subject to regulation by church and state rather than a private agreement between two free individuals Through recurring scenes of infidelity fraud and coercion as well as experiments with narrative form these

writers show the practical and ethical problems that result when couples attempt to establish and dissolve unions simply by exchanging consent Even as novelists seek to shore up the legal regulation of marriage however they contest the specific forms that these regulations take In recovering novelists engagements with the nuptial controversies of the Enlightenment Public Vows challenges longstanding accounts of domestic fiction as contributing to sharp divisions between public and private life and as supporting the traditional patriarchal family At the same time the book counters received views of law and literature highlighting fiction s often simultaneous affirmations and critiques of legal authority **Secrecy in Public Relations, Mediation and News Cultures** Anne M. Cronin, 2023-01-19 This book investigates the relationship of secrecy as a social practice to contemporary media news cultures and public relations Drawing on Georg Simmel's theorisation of how secrecy produces a second world alongside the obvious world and creates and reshapes social relations Anne Cronin argues for close analysis of the PR industry as a powerful vector of secrecy and an examination of its relationship to news cultures Using case studies and in depth interviews as well as recent research in media and cultural studies sociology journalism studies and communication studies the book analyses how PR practices generate a second shadow world of the media sphere which has a profound impact on the obvious world It interrogates both the PR industry's and news culture's role in shaping social relations for a digital media landscape and those initiatives promoting transparency of data and decision making processes An insightful interdisciplinary approach to debates on media and power this book will appeal to students of public relations sociology media studies cultural studies and communication studies It will also be of interest to scholars and **Judicious Advertising and** practitioners working at the intersections of media social relations and public trust **Advertising Experience** ,1918
