**Nicola Lacey**

## **Publicprivate Spheres:**

Women, Space and Utopia 1600–1800 Nicole Pohl, 2017-05-15 The first full length study of women s utopian spatial imagination in the seventeenth and eighteenth centuries this book explores the sophisticated correlation between identity and social space The investigation is mainly driven by conceptual questions and thus seeks to link theoretical debates about space gender and utopianism to historiographic debates about the gendered social production of space As Pohl s primary aim is to demonstrate how women writers explore the complex gender politics of space specific attention is given to spaces that feature widely in contemporary utopian imagination Arcadia the palace the convent the harem and the country house The early modern writers Lady Mary Wroth and Margaret Cavendish seek to recreate Paradise in their versions of Eden and Jerusalem the one yearns for Arcadia the other for Solomon s Temple Margaret Cavendish and Mary Astell redefine the convent as an emancipatory space dismissing its symbolic meaning as a confining and surveilled architecture The utopia of the country house in the work of Delarivier Manley Sarah Scott and Mary Hamilton will reveal how women writers resignify the traditional metonym of the country estate The study will finish with an investigation of Oriental tales and travel writing by Ellis Cornelia Knight Lady Mary Montagu Elizabeth Craven and Lady Hester Stanhope who unveil the seraglio as a location for a Western specifically masculine discourse on Orientalism despotism and female sexuality and offers their own utopian judgment **Ethical Traceability and Communicating Food** Christian Coff, David Barling, Michiel

Korthals, Thorkild Nielsen, 2008-06-12 The theme of this book evolved from the idea of linking three concepts around food traceability ethics and informed choice We believe that the current development and implementation of traceability in the agri food sector offers an interesting way not only of handling food safety but also of addressing and communicating ethical issues arising from current food production practices Practices in the agri food sector worry food consumers as we all are since we need to eat and drink to stay alive But how can consumers act upon their concerns Paradoxically although consumers are bombarded with information on food from the media the food industry food authorities NGOs and interest groups details about how foods are actually produced is often hard to find Much of the information available is superficial conflicting or partial and it is hard for consumers seeking to make informed food choices to know which information to trust The consumers we interviewed for this project felt that information about food products was withheld and manipulated Traceability which provides a record of the history and journey of a given food and which is increasingly used in the food sector for legal and commercial reasons has the potential to communicate a more authentic picture of how food is produced *British Society 1680-1880* Richard Price, 1999-10-28 Richard Price here offers a sweeping interpretation of modern British history He challenges the dominant assumption that the nineteenth century marked the beginning of modern Britain British Society argues on the contrary that nineteenth century British society was the extension of an earlier era whose main themes first appeared in the late seventeenth century and which continued to shape the social economic and political history of the

country until the end of the nineteenth century This book casts light on the main themes of economic political and social history and offers alternative interpretations on questions and issues that are central to the history of modern Britain It follows in the great tradition of works such as Briggs s Age of Improvement and Perkin s Origins of Modern English Society and will be of enormous interest to all students and scholars of the period *Theatre of the Rule of Law* Stephen Humphreys,2010-11-11 Theatre of the Rule of Law presents a sustained critique of global rule of law promotion an expansive industry at the heart of international development post conflict reconstruction and security policy today While successful in articulating and disseminating an effective global public policy rule of law promotion has largely failed in its stated objectives of raising countries out of poverty and taming violent conflict Furthermore in its execution this work deviates sharply from the rule of law as commonly conceived To explain this Stephen Humphreys draws on the history of the rule of law as a concept examples of legal export during colonial times and a spectrum of contemporary interventions by development agencies and international organisations Rule of law promotion is shown to be a kind of theatre the staging of a morality tale about the good life intended for edification and emulation but blind to its own internal contradictions **Tournaments of Value** Anne Meneley,1996-01-01 Meneley explores the deep reliance of Middle Eastern men on their female kin to establish maintain and indeed increase the family s honour in the eyes of the wider community by engaging in the exchange of hospitality **The Disorder of Women** Carole Pateman,1989 Carole Pateman is one of the leading political theorists writing today This wide ranging volume brings together for the first time a selection of her work on democratic theory and feminist criticism of mainstream political theory The volume includes substantial discussions of problems of democracy citizenship and the welfare state including the largely unrecognized difficulties surrounding women s participation The inclusion of essays from both a mainstream and feminist perspective provides concrete examples of the differences between these two approaches to democracy to questions of consent and political obligation and to the relationship between the private and public spheres This scholarly and highly challenging work will be of interest to students and researchers in political theory political science women s studies and sociology **No More Separate Spheres!** Cathy N. Davidson,Jessamyn Hatcher,2002-05-10 Argues against the use of male female gender categories to characterize public and domestic life **International Encyclopedia of Human Geography** ,2019-11-29 International Encyclopedia of Human Geography Second Edition Fourteen Volume Set embraces diversity by design and captures the ways in which humans share places and view differences based on gender race nationality location and other factors in other words the things that make people and places different Questions of for example politics economics race relations and migration are introduced and discussed through a geographical lens This updated edition will assist readers in their research by providing factual information historical perspectives theoretical approaches reviews of literature and provocative topical discussions that will stimulate creative thinking Presents the most up to date and comprehensive coverage on the topic of human geography

**Outsourcing War** Amy E. Eckert,2016-02-19 Recent decades have seen an increasing reliance on private military contractors PMCs to provide logistical services training maintenance and combat troops In Outsourcing War Amy E Eckert examines the ethical implications involved in the widespread use of PMCs and in particular questions whether they can fit within customary ways of understanding the ethical prosecution of warfare Her concern is with the ius in bello right conduct in war strand of just war theory Just war theorizing is generally built on the assumption that states and states alone wield a monopoly on the legitimate use of force Who holds responsibility for the actions of PMCs What ethical standards might they be required to observe How might deviations from such standards be punished The privatization of warfare poses significant challenges because of its reliance on a statist view of the world Eckert argues that the tradition of just war theory which predates the international system of states can evolve to apply to this changing world order With an eye toward the practical problems of military command Eckert delves into particular cases where PMCs have played an active role in armed conflict and derives from those cases the modifications necessary to apply just principles to new agents in the landscape of war

**Introduction to Feminist Jurisprudence** Hilaire Barnett,2013-09-05 This book provides a student text covering the major issues in feminist jurisprudence and to analyse the manner in which both traditional jurisprudence and law have remained a masculine subject

**Unspeakable Subjects** Nicola Lacey,1998-03-01 Nicola Lacey s book presents a feminist critique of law based on an analysis of the ways in which the very structure or method of modern law is gendered All of the essays in the book therefore engage at some level with the question of whether there are things of a general nature to be said about what might be called the sex or gender of law Ranging across fields including criminal law public law and anti discrimination law the essays examine the conceptual framework of modern legal practices the legal conception of the subject as an individual the concepts of equality freedom justice and rights and the legal construction of public and private realms and of the relations between individual state and community They also reflect upon the deployment of law as a means of furthering feminist ethical and political values At a more general level the essays contemplate the relationship between feminist and other critical approaches to legal theory the relationship between the ideas underlying feminist legal theory and those informing contemporary developments in social and political theory and the nature of the relationship between feminist legal theories

and feminist legal politics The essays in this book tell the story of an intellectual journey which has led the author to question some of the central assumptions of traditional legal education and scholarship They also set out a distinctive vision of jurisprudence as a form of critical social theory      **Single Women** Tuula Gordon,1994-03 The single woman is mistakenly seen to be a product of the twentieth century Drawing on figures as diverse as Joan of Arc Elizabeth I and the Amazons Gordon brings to light a powerful tradition of single womanhood and calls the marginality of single women into question

**Citizenship: Feminist Perspectives** Ruth Lister,2017-03-14 The second edition of this classic text substantially revises and extends the original so as to take account of theoretical and policy developments and to enhance its international scope Drawing on a range of disciplines and literatures the book provides an unusually broad account of citizenship It recasts traditional thinking about the concept so as to pinpoint important theoretical issues and their political and policy implications for women in their diversity Themes of inclusion and exclusion at national and international level rights and participation inequality and difference are thus all brought to the fore in the development of a woman friendly gender inclusive theory and praxis of citizenship      Gender and Anthropology Frances E. Mascia-Lees,Nancy Johnson Black,2016-11-11 As an early reviewer wrote This is one of the clearest most concise statements on social theory in general let alone on gender that I have ever read Now updated Mascia Lees and Black continue to expertly trace how anthropologists have used different theoretical orientations to examine the nature and determinants of gender roles and gender inequality From the nineteenth century on anthropologists have used different theoretical orientations to understand the emotionally charged topic of gender With an insightful look at evolutionary materialist psychological structuralist poststructural sociolinguistic and self reflexive approaches this distinctive module also examines how these approaches best explain gender and sexual oppression in a global world The authors pack great amounts of valuable information into such a slim volume yet leave readers with digestible material that does more than cover the surface of anthropological perspectives on gender roles and stratification Readers gain insights and tools to develop their own critical analyses of gender
