Chaco Canyon Robert H. Lister, Florence C. Lister, 1981 The first complete account of Chacoan archaeology from the discovery of the ruins by Spanish soldiers in the seventeenth century through the scientific analyses of the 1970s The Architecture of Chaco Canyon, New Mexico Stephen H. Lekson, 2007-06-13 A fresh volume on the ancient structures of Chaco Canyon built by native peoples between AD 850 and 1130 that unifies older information on the area with new advanced research techniques focusing on studies of technology and building types analyses of architectural change and readings of the built environment aided by over 150 maps floor plans elevations and photos *Mysteries and Discoveries of Archaeoastronomy* Giulio Magli, 2009-04-09 The book is divided into two parts In the first the reader is taken on an ideal world tour of many wonderful and enigmatic places in almost every continent in search of traces of astronomical knowledge and lore of the sky In the second part Giulio Magli uses the elements presented in the tour to show that the fundamental idea which led to the construction of the astronomically related giant monuments was the foundation of power a foundation which was exploited by replicating the sky A possible interpretive model then emerges that is founded on the relationship the ancients had with nature in the sense of everything that surrounded them the cosmos The numerous monumental astronomically aligned structures of the past then become interpretable as acts of will expressions of power on the part of those who held it the will to replicate the heavenly plane here on earth and to build sacred landscapes Finally having formulated his hypothesis Professor Magli returns to visit one specific place in detail searching for proof This in depth examination studies the most compelling the most intensively studied the most famous and until recently the most misunderstood sacred landscape on the planet Giza in Egypt The archaeoastronomical analysis of the orientation of the Giza pyramids leads to the hypothesis that the pyramids of Cheops and Chephren belong to the same construction project
