

Puer Aeternus

Benjamin G. Lockerd

Puer Aeternus:

The Problem of the Puer Aeternus Marie-Louise von Franz, 2024-12-20 This powerful newly translated edition of Marie Louise von Franz's groundbreaking work *The Problem of the Puer Aeternus* *Eternal Youth and Creative Spirit* delves into the enduring impact of the eternal youth archetype As relevant today as when von Franz first delivered the original lectures upon which the book was based this work confronts society's ongoing struggle with maturity urging us to release the sack of illusions we carry from childhood into adulthood With masterful insight von Franz strikes a thoughtful balance between shedding these fantasies and guarding against the traps of cynicism Both a profound mirror and a practical guide this edition invites readers to examine their own paths emphasizing the necessity of cultivating a mature identity while preserving the vibrant creativity of youth

Jung and the Jungians on Myth Steven F. Walker, 2002 In this book Steven Walker carefully leads the reader through the fundamentals of the psychology that underlies Jung's theory of myth He defines key terms and distinguishes dream from fantasy in psychological experience He then traces the lineage of Jungian theory from Jung through such disciples as Van Franz and Neumann to contemporary archetypal psychology By applying Jungian psychology to an array of myths to illustrate core concepts of this theoretical tradition Walker fills a conspicuous gap in the current literature on Jung from back cover

Analytical Psychology Joseph Cambray, Linda Carter, 2004 *Analytical Psychology* written by a range of distinguished authors takes account of advances in other fields such as neuroscience philosophy and cultural studies and examines their effects on Jungian analytic theory

The Dionysian Self Paul Bishop, 1995 Friedrich Nietzsche has emerged as one of the most important and influential modern philosophers For several decades the book series *Monographien und Texte zur Nietzsche Forschung* MTNF has set the agenda in a rapidly growing and changing field of Nietzsche scholarship The scope of the series is interdisciplinary and international in orientation reflects the entire spectrum of research on Nietzsche from philosophy to literary studies and political theory The series publishes monographs and edited volumes that undergo a strict peer review process The book series is led by an international team of editors whose work represents the full range of current Nietzsche scholarship

Remaking Men David John Tacey, 1997 In *Remaking Men* Tacey critically evaluates the use of Jungian psychology in studies of masculinity It brings together social and psychological approaches to masculinity for the first time

Love and the Soul James Gollnick, 2006-01-01 This book provides serious students of psychology religion and mythology with a detailed account and analysis of what has been accomplished in the psychological interpretation of the Eros and Psyche myth to date The Eros and Psyche myth has over the course of the twentieth century received nearly as much attention from depth psychologists as has the Oedipus story In their attempt to better understand this popular story scholars have proposed various interpretations which have generally followed either Freudian or Jungian theories about the nature of the psyche and its development *Love and the Soul* emphasizes how psychological theory determines the direction of interpretation much more than does the literary context of the myth itself It

also examines the strengths and weaknesses of these psychological interpretations five Freudian and six Jungian of the Eros and Psyche myth in order to lay the groundwork for an interpretation which 1 avoids the rigidity of both Freudian and Jungian dogma and 2 restores the myth to its rightful literary and religious context something which has been ignored by most psychological interpretations **Perpetual Adolescence** Sally Porterfield, Keith Polette, Tita French

Baumlin, 2015-05-11 Arguing that American culture appeals to and is populated by children and adolescents who merely appear to be adult men and women the essays in *Perpetual Adolescence* examine the Jungian archetype of the eternal youth the puer aeternus as it is manifested in the arrested development of American culture From the infantilization of the American psyche and the lionization of teenaged celebrities and bodies to fanatical conformity and puerile entertainment the contributors probe the various ways that American television music film print Internet education and social movements work to nourish and sustain this child archetype Offering analytic psychology as an instrument of social analysis and critique they point to the need for dialogue over the causes and effects of our puer fixations which have become in large part both a creation and a creator of the American zeitgeist Jungian Psychology in Perspective Mary Ann Mattoon, 1985 *The Sacred Marriage* Benjamin G. Lockerd, 1987 This study is based on an application of Jungian psychology to the love theme in the central books of *The Faerie Queene* It elucidates the connection that Spenser makes between spiritual unfolding and the complementary interaction of the masculine and feminine throughout the poem *Hermes and His Children* Rafael

Lopez-Pedraza, 2003 *Hermes and his Children* has become something of a classic among therapists poets artists and readers of many callings Rafael Lopez Pedraza approaches the soul through myth pathology image and the very living of them all The love and passion of a man fully in his element radiates throughout this unique work now updated and expanded for this edition **The Seven Basic Plots** Christopher Booker, 2004-01-01 This book at last provides a comprehensive answer to the age old riddle of whether there are only a small number of basic stories in the world Using a wealth of examples from ancient myths and folk tales via the plays and novels of great literature to the popular movies and TV soap operas of today it shows that there are seven archetypal themes which recur throughout every kind of storytelling But this is only the prelude to an investigation into how and why we are programmed to imagine stories in these ways and how they relate to the inmost patterns of human psychology Drawing on a vast array of examples from Proust to detective stories from the Marquis de Sade to E T Christopher Booker then leads us through the extraordinary changes in the nature of storytelling over the past 200 years and why so many stories have lost the plot by losing touch with their underlying archetypal purpose BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *The Problem of the Puer Aeternus* Marie-Louise von Franz, Marie-Luise von Franz, 2000 The Latin term puer aeternus means eternal youth In Jungian terms it is used to describe a certain type of man charming affectionate creative and ever in pursuit of his dreams Based on a series of lectures this guide provides an explanation of this concept **The problem of the puer aeternus** Marie-Luise von

Franz,1981 There is alas no index or even a table of contents but one could not very well discuss at such length the eternal adolescent without discussing homosexuality and it does appear beginning on p 9 with Jung s peculiar idea about homosexuality and population control P Thorslev

The Mighty Child Clémentine Beauvais,2015-01-14 The Mighty Child offers an existentialist approach to the theorization and criticism of children s literature nuancing the academic claim that children s literature specifically defined as didactic alienates childhood from adulthood and disempowers its implied child reader This volume recentres the theoretical debate around the constructions of time and power which characterize conceptions of childhood and adulthood in children s literature The hidden didactic adult of children s literature this volume argues is not solely the dictatorial planner of the child s future but also a disempowered entity yearning for unpredictability in the semi educational semi aesthetic endeavor of the children s book Leaning on current work in the field of children s literature theory on French phenomenological existentialism and on the philosophy and sociology of childhood The Mighty Child is addressed to contemporary theorists and critics of children s literature

Jung and the Human Psyche Mary Ann Mattoon,2005 The major topics of Jungian psychology are presented in a manner that is clear emotionally engaging well illustrated and non dogmatic BOOK JACKET

Nietzsche's Zarathustra C. G. Jung,2014-12-18 First published in 1989 As a young man growing up near Basel Jung was fascinated and disturbed by tales of Nietzsche s brilliance eccentricity and eventual decline into permanent psychosis These volumes the transcript of a previously unpublished private seminar reveal the fruits of his initial curiosity Nietzsche s works which he read as a student at the University of Basel had moved him profoundly and had a life long influence on his thought During the sessions the mature Jung spoke informally to members of his inner circle about a thinker whose works had not only overwhelmed him with the depth of their understanding of human nature but also provided the philosophical sources of many of his own psychological and metapsychological ideas Above all he demonstrated how the remarkable book Thus Spake Zarathustra illustrates both Nietzsche s genius and his neurotic and prepsychotic tendencies Since there was at that time no thought of the seminar notes being published Jung felt free to joke to lash out at people and events that irritated or angered him and to comment unreservedly on political economic and other public concerns of the time This seminar and others including the one recorded in *Dream Analysis* were given in English in Zurich during the 1920s and 1930s

The Development of the Personality Liz Greene,Howard Sasportas,1987-01-01 Greene and Sasportas focus on psychological complexes and astrological factors that encompass issues from childhood including the stages of childhood the parental marriage subpersonalities and more An important book helping those in the counseling process

Dream Analysis 1 C.G. Jung,2013-10-28 Provides clarification of Jung s method of dream analysis Based upon a previously unpublished series of dreams of one of Jung s patients

Jung, Jungians and Homosexuality Robert H. Hopcke,2002-01-09 In an effort to provide the first coherent theory of sexual orientation in the tradition of analytical psychology Robert Hopcke examines the way in which Jung and Jungians have regarded homosexuality both clinically and

theoretically demonstrating that within a great diversity of opinion there exist many ways to deepen an understanding of the lives and loves of gay men and lesbians Hopcke proposes a view of homosexuality that is archetypally based empirically supportable psychologically profound and spiritually evocative

The Intersection of Poetry and Jungian Analysis

Through Metaphor Regina Colonia-Willner, 2024-08-06 The Intersection of Poetry and Jungian Analysis Through Metaphor In Creation You Are Created explores the relationship between Jungian psychoanalytical intervention and poetry focusing on the emergence of metaphor which occurs in both processes as it happens in neuroscience and fairy tales Metaphor is a mode of communication that forms a bridge between different experience domains through associative linkages it refers to a subject by mentioning another for rhetorical effect Indeed the prominence of metaphor in Jungian therapy is a characteristic that differentiates it from other forms of treatment That s because metaphor as we will see in this book is deeply rooted in the body in two ways It is used to organize bodily sensations cognitively and is located on the border between mind and brain C G Jung uses a metaphor when he observes in Memories Dreams Reflections As far as we can discern the sole purpose of existence is to kindle a light in the darkness of mere being

Unveiling the Magic of Words: A Overview of "**Puer Aeternus**"

In some sort of defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance.
