Teaching Poetry in the Primary Classroom Gervase Phinn,2009-01-05 When asked by the school inspector what he thought of poetry an eleven year old replied that it s all la dida and daffodils isn t it In his primary school the boy had come across very little poetry apart from nursery rhymes snatches of rhyming verse and a few comic pieces and nonsense poems Poetry to him was something arcane not really related to his own life He had studied no powerful challenging contemplative arresting quirky poems and had written very few poems himself His teacher admitted that he was no English specialist had received few ideas at college on the teaching

of poetry and didn't really know where to start. As children progress through the primary school they need to be exposed to a rich diet of poetry and encouraged to read, perform and write it themselves. Providing a varied and stimulating environment is essential if it is to flourish. In addition, children need specific guidance and ideas to start them off writing their own poems. This book, written by a former teacher and school inspector and popular and widely published children's poet, offers an accessible practical and structured programme for the teaching of this sometimes neglected aspect of the English curriculum.

Exploring Children's Literature Nikki Gamble, 2013-06-30. This book introduces the role of children's literature in promoting reading for pleasure and creating lifelong readers. Focusing on a range of fiction relevant to the National Curriculum, it covers genres such as poetry, non-fiction, traditional stories and picture books. Concepts and terminology are explained through a wide range of examples. This revised edition includes investigative activities and practical exercises for personal or classroom use. Examples from world literature and work in translation highlight the range of diverse material available for teaching inspiration. Coverage of social, cultural and political reading practices to increase understanding of factors that influence children's reading experience. Coverage of disability and equality issues to help inform teaching strategies that overcome barriers to learning. This book is essential for students on PGCE, BEd and BA Education courses and for teachers undertaking CPD in English literacy or children's literature. It provides useful support material for language coordinators and literacy consultants and can be used to support distance learning as an aid to self-study or as a course text.

Promoting Reading for Pleasure in the Primary School Michael Lockwood, 2008-06-24. Winner of the UKLA Author Award 2009. Lockwood has written a useful supportive book which will help teachers and librarians. He describes the background and summarises the research and then proposes thoroughly practical programmes. Carousell Michael Lockwood has produced an excellent practical overview and analysis of what works in the primary school to promote reading for pleasure. Lockwood's work is grounded and valuable to those who need it most: teachers in the classroom working hard to engender a love of reading. English Drama Media. This book is first class. It puts the matter very clearly and succinctly and presents a great deal of evidence to support the argument that pleasure is not a frivolous extra but the very heart and essence of what reading is about. It also gives readers plenty of ideas for carrying the principle into the classroom and for justifying it. This is an excellent piece of work which I hope will find a place on every staffroom bookshelf. Philip Pullman. English primary school children are less likely to read for pleasure than their counterparts in many other countries. This practical and focused book discusses the background to this situation and looks at how government initiatives have tried to address it. Drawing on the author's own research project in order to identify good practice in promoting reading for enjoyment, the book presents specific activities which teachers can use to develop their own whole school and classroom practice, enabling them to put the fun back into reading. Each chapter features case study material and provides examples of planning from schools that have successfully created thriving reading cultures through schemes such as reading assemblies.

book clubs library loyalty cards school book evenings and quizzes There is also an extensive annotated list of print and internet based resources Topics covered include Becoming a reading for pleasure school Promoting a love of reading in the early years Developing reading enjoyment in the later primary years Getting boys reading Promoting Reading for Pleasure in the Primary School is written for all those involved in education who would like to see as many children as possible develop a love of reading It will be particularly relevant for primary teachers teaching assistants trainee teachers advisers and consultants as well as teacher educators and researchers

for children Speak, Listen and Learn Tony Wood, 2015-04-10 This indispensable resource for teachers of pupils aged 7-13 years consists of a series of graduated lesson plans aimed at improving children's speaking and listening skills, their self-confidence and their motivation to learn, ultimately leading to better school performance. The scheme was developed and tested in schools during a four-year period with over three thousand children and their teachers and focuses on class and group activities that are enjoyable as well as instructive. All pupils are able to participate regardless of background, academic standing or facility in English, and the skills acquired are central to the National Curriculum for England and Wales Key Stages 2 and 3. Each lesson worksheet includes learning objectives, guidance on preparation and organisation, an activity guide and follow-up suggestions, all presented in a clear and simple manner to lead the teacher step by step through the session. The materials are grouped into four levels of difficulty which combine to build a powerful range of abilities associated with persuasive and presentational speech, dialogue and debate, as well as developing the children's command, use and articulation of English. Each level consists of twelve starter lessons suitable for class-based group work, with sections preparing pupils for a variety of class competitions including public speaking, poetry reading and debating. The activities link naturally with other areas of the curriculum and topics already being studied can easily be incorporated. In a parallel controlled research project, highly significant gains in a nationally standardised test of non-verbal reasoning were made over a seven-month period by children who followed the activities for one lesson a week compared to those who did not. These were well in excess of what would be expected for their increased age. Particularly high gains were made by children of lesser ability and those for whom English was an additional language. The improvements recorded were later confirmed by the schools' own National Curriculum assessments of progress against targets where, on average, the project children exceeded substantially the end-of-year forecasts made by their teachers.

A Creative Approach to Teaching Rhythm and Rhyme

Andy Croft, 2015-04-23 The content of this book is based on the Andy Croft's experience of working with children in over 400 UK schools and will provide teachers with ideas, games, examples and models that they can use in the classroom to encourage their children to become writers and readers through the practice of rhyme and rhythm. He strongly believes that you don't have to be good at English to be able to enjoy the music of ordinary speech. Using rhythm and rhyme is a democratic creative act that is equally hard and equally easy for everyone. It has special rules which won't let you reach for the first word that comes into your head. Your words have to fit the pattern. You don't have to write anything down but you do have to become a writer. And once you have become a writer you might become a reader.
