Pulling Strings Biculturalism In Israeli Bureaucracy Israeli Studies:

Pulling Strings Brenda Danet, 2012-02-01 This is a book about the use of personal influence *protektzia* in Israel. All over the world in both democratic and socialist societies there exists some degree of recognition of the rights of citizens to complain about unjust treatment in organizational encounters. While the goals and actual functioning of complaint handling devices may vary, bureaucratic role relations are ideally governed by the principles of universalism, specificity and affective neutrality. In fact, patterns of actual behavior frequently differ dramatically from this model, giving rise to practices from bribery and embezzlement to nepotism, patronage and what is referred to in the United States as pulling strings. In Israel, *protektzia* is widespread. This book is a major contribution to the systematic sociological study of this phenomenon. Drawing on the literature on the functioning of public administration around the world, Danet develops a theory about the conditions under which deviations from universalistic norms occur, distinguishing four patterns of organizational culture. The theory is then tested in a case study of bureaucratic encounters in Israel. Danet's fascinating study brings new insights to the debate regarding the cultural contradictions that continue to confront the still emerging Israeli society. The conclusions and classifications of her theory prove invaluable as well to all those interested in organizational culture, comparative public administration and dispute processing in general.

The Israeli Diaspora Steven J. Gold, 2005-06-29 In this fascinating study based on extensive field work in the major Israeli communities of New York, Los Angeles, London, Paris and Sydney, Steven J. Gold looks at their reasons for leaving, existing links abroad, political and economic dissatisfaction at home and in the case of the Sephardim or Israelis of non-European origin, often a feeling of being treated as second class citizens, the tensions, compromises and satisfactions involved in their relations with Israelis who have not left and with the Jewish and non-Jewish communities in the countries in which they settle. In a final chapter he talks to those who after years as emigrants have made the decision to return. The end result is a major contribution to the study not just of the Israeli diaspora but also to our wider understanding of migration and transnational identity. Winner of the 2003 Thomas and Znaniecki Award, American Sociological Association, International Migration Section.

Identity Politics on the Israeli Screen Yosefa Loshitzky, 2010-01-01 2002 A Choice Outstanding Academic Book. The struggle to forge a collective national identity at

the expense of competing plural identities has preoccupied Israeli society since the founding of the state of Israel In this book Yosefa Loshitzky explores how major Israeli films of the 1980s and 1990s have contributed significantly to the process of identity formation by reflecting projecting and constructing debates around Israeli national identity Loshitzky focuses on three major foundational sites of the struggle over Israeli identity the Holocaust the question of the Orient and the so called in an ironic historical twist of the Jewish question Palestinian question The films she discusses raise fundamental questions about the identity of Jewish Holocaust survivors and their children the second generation Jewish immigrants from Muslim countries or Mizrahim particularly the second generation of Israeli Mizrahim and Palestinians Recognizing that victimhood marks all the identities represented in the films under discussion Loshitzky does not treat each identity group as a separate and coherent entity but rather attempts to see the conflation interplay and conflict among them

War, Institutions, and Social Change in the Middle East Steven Heydemann, 2000-12-01 Few areas of the world have been as profoundly shaped by war as the Middle East in the twentieth century Despite the prominence of war making in this region there has been surprisingly little research investigating the effects of war as a social and political process in the Middle East To fill this gap War Institutions and Social Change in the Middle East brings together an international and interdisciplinary group of scholars who explore the role of war preparation and war making on the formation and transformation of states and societies in the contemporary Middle East Their findings pose significant challenges to widely accepted assumptions and present new theoretical starting points for the study of war and the state in the contemporary developing world Heydemann's collaborators include political scientists historians anthropologists and sociologists from the Middle East Europe and the United States Their essays are both theoretically sophisticated and empirically rich covering topics such as the effects of World War II on state market relations in Syria and Egypt the role of war in the rise of the Palestine Liberation Organization the political economy of Lebanese militias and the effects of the 1967 war on state and social institutions in Israel The volume originated as a research planning project of the Joint Committee on the Near and Middle East of the Social Science Research Council

Sharaf Politics Sharon D. Lang,2013-10-18 This book examines the Arabic conflict resolution method known as sulha In this process notable male elders mediate conflicts between and within Arab communities A lengthy process of political jockeying culminates in a ceremony that peaks when enemies shake hands and publicly forgive the crimes of the other The reality of actual sulha deviates considerably from the ideal but both the official framework and the actual events point to a deep seated valorization of peace and reconciliation in Israeli Palestinian society

State Practices and Zionist Images

David A. Wesley,2013-01-01 Although the Israeli state subscribes to the principles of administrative fairness and equality for Jews and Arabs before the law the reality looks very different Focusing on Arab land loss inside Israel proper and the struggle over development resources this study explores the interaction between Arab local authorities their Jewish neighbors and the agencies of the national government in regard to developing local and regional industrial areas The author avoids reduction to simple models of binary domination revealing instead a complex multi dimensional field of relations and ever shifting lines of political maneuver and confrontation He examines the prevailing concept of ethnic traditionalism and argues that the image of Arab traditionalism erects imaginary boundaries around the Arab localities making government incursion disappear from view while underpinning and rationalizing the exclusion of the Arab towns from development planning Moreover he shows how images of environmental protection mesh with and support such exclusion The study includes a chronology of events tables maps and photographs This revised paperback edition with a new epilogue brings accounts of Arab land loss and struggles for economic development up to date The author also deals with the challenges of life and research in Israel and examines the possibilities of sharing the land as the homeland of both Jews and Palestinians

Symposium on Differing Perspectives on Economic Development, 1989 Through the Lens of Israel Joel S. Migdal, 2012-02-01 Through the Lens of Israel illuminates Israeli history through the use of the author's unique state in society approach and at the same time refines, develops and expands that approach. The book provides a window for the formation of Israeli state and society during the twentieth century while using the Israeli experience to ask how social scientists can better investigate and understand other societies as well. Three central themes of Israeli history are at the core of the analysis: state formation, society formation and the mutually constitutive roles of state and society. By analyzing how Israel's state and society continually reconstruct one another, Migdal addresses larger questions with resonance far beyond Israel: How do particular societies and states end up with their distinctive character? How are the rules that shape everyday behavior determined? Who gains from these rules and who loses? And how and when do these rules and patterns of privilege change? Israeli Society in the Twenty-First Century Calvin Goldscheider, 2015-06-02 A data based analysis of social life and social problems in contemporary Israel that draws a vivid portrait of a dynamic and rapidly changing society. *Social Connections in China* Thomas Gold, Doug Guthrie, David Wank, 2002-09-05 This volume assesses the evolving role of guanxi social networks in China's transforming society.

Wrapped in the Flag of Israel Smadar Lavie, 2018-07-01 Weaving together memoir, auto ethnography, political analysis and cultural critique, Lavie equates bureaucratic entanglements with pain and arguably torture to examine the conundrum of loving and staying loyal to a state that repeatedly inflicts pain on its non-European Jewish women citizens. **The Jewish Journal of Sociology**, 1989 **Israel** Gregory S.
