Wu, A young guy named Jack Hong hitchhikes throughout America following the keilin a mystical unicorn out of Chinese mythology The keilin leads him to ten adventures with ghosts and other supernatural figures These experiences reveal to him not only parts of American history he never knew but also his own identity and the role he will choose for his life Description The moonlight was still strong and Lo Man Gong still sat up on the overhead window where few people and no old men could ever get Feel better Chinaman he asked mildly The night before my resistance had been low and his presence had somehow seemed tolerable if not rational Now I was more clear headed yet he was still here I didn't like him as much I let my eyes drop closed again Once I was cured of malaria I'd be free of him I had eaten twice today now if I slept well I'd be in sound shape pretty soon You know the keilin Chinaman Jack That was the Chinese unicorn a mystical animal whose rare appearances were highly auspicious In the Cantonese I normally heard it was pronounced keilun It wasn't like European ones though This unicorn had the body of a deer the hooves of a horse the tail of an ox and a fleshy horn I knew that much The unicorn I opened my eyes and looked at him As before the moonlight glowed through his shape Ah you know the keilin He smiled and nodded thoughtfully The keilin means good things happen It's very powerful I watched him silently After a while he looked into my eyes again Nobody remember me Jack Some people remember some of my friend A few of them Most nobody remember at all No children no relative You Jack You like me Unless you change Yes I knew that I had already come to understand that And I knew that he had come for me here in the middle of the country away from his home as longtime Californ But I didn't know why **Off the Main Sequence** Tom Easton, 2006-10-01 Tom Easton has served as the monthly book review columnist for Analog Science Fiction for almost three decades having contributed during that span many hundreds of columns and over a million words of penetrating criticism on the best literature that science fiction has to offer His reviews have been celebrated for their wit humor readability knowledge and incisiveness His love of literature particularly fantastic literature is everywhere evident in his essays Easton has ever been willing to cover small presses obscure authors and unusual publications being the only major critic in the field to do so on a regular basis He seems to delight in finding the rare gem among the backwaters of the publishing field A reviewer's job he says is not to judge books for the ages but to tell readers enough about a book to give them some idea of whether they would enjoy it And this he does admirably whether he's discussing the works of the great writers in the field or touching upon the least amongst them This companion volume to Periodic Stars Borgo Wildside collects another 250 of Easton's best reviews from the last fifteen years of The Reference Library No one does it better and no other guide provides such lengthy or discerning commentary on the best SF works of recent times Complete with Introduction and detailed Index **The Electric Gene Machine** Thomas A.
