behaviour and ecology of wild felids to draw together a unique network of the world's most respected and knowledgeable experts. Conservation tools, techniques, ex situ management, and felid diseases. 19 detailed case studies then delve deeply into syntheses of the very best species investigations worldwide, written by all the leading figures in the field. These chapters portray the unique attributes of the wild felids, describe their fascinating and conflicting relationship with humans, and create an unparalleled platform for future research and conservation measures. The Storyteller Mario Vargas Llosa, 2011-03-04 At a small gallery in Florence, a Peruvian writer happens upon a photograph of a tribal storyteller deep in the jungles of the Amazon. He is overcome with the eerie sense that he knows this man; that the storyteller is not an Indian at all, but an old school friend, Saul Zuratas. As recollections of Zuratas flow through his mind, the writer begins to imagine Zuratas's transformation from a modern to a central member of the unacculturated Machiguenga tribe. Weaving the mysteries of identity, storytelling, and truth, Vargas Llosa has created a spellbinding tale of one man's journey from the modern world to our origins, abandoning one in order to find meaning in both.
