Pure Immanence:

Pure Immanence Gilles Deleuze, 2001-07 Essays by Gilles Deleuze on the search for a new empiricism Potentialities Giorgio Agamben, Daniel Heller-Roazen, 1999 This volume constitutes the largest collection of writings by the Italian philosopher Giorgio Agamben hitherto published in any language The essays consider several figures in the history of philosophy the relation of linguistic and metaphysical categories messianism in Islamic Jewish and Christian theology and the state and future of contemporary politics Immanent Transcendence Patrice Haynes, 2012-08-23 Over the last twenty years materialist thinkers in the continental tradition have increasingly emphasized the category of immanence Yet the turn to immanence has not meant the wholesale rejection of the concept of transcendence but rather its reconfiguration in immanent or materialist terms an immanent transcendence Through an engagement with the work of Deleuze Irigaray and Adorno Patrice Haynes examines how the notion of immanent transcendence can help articulate a non reductive materialism by which to rethink politics ethics and theology in exciting new ways However she argues that contrary to what some might expect immanent accounts of matter and transcendence are ultimately unable to do justice to material finitude Indeed Haynes concludes by suggesting that a theistic understanding of divine transcendence offers ways to affirm fully material immanence thus pointing towards the idea of a theological materialism *Keats and Philosophy* Shahidha K. Bari, 2012 John Keats remains one of the most familiar and beloved of English poets but has received surprisingly little critical attention in recent years This study is a fresh contribution to Keats criticism and Romantic scholarship positioning Keats as a figure of philosophical interest who warrants renewed attention Exploring Keats s own Romantic accounts of feeling and thinking this study draws a connection between poetry and the phenomenological branches of modern philosophy The study takes Keats's poetic evocation of touching hands wandering feet beating hearts and breathing bodies as a descriptive elaboration of consciousness and a phenomenological account of experience The philosophical terms of analysis adopted here challenge the orthodoxies of Keats scholarship traditionally characterised by the careful historicisation of a limited canon The philosophical framework of analysis enhances the readings put forward while Keats s poems in turn serve to give fuller expression of those ideas themselves Using Keats as a particular case this book also demonstrates the ways in which theory and philosophy supplement literary scholarship *Interpreting Literary Texts* Michael Giffin, 2024-09-12 This book considers how textual interpretation has been influenced by post Kantian philosophy and aesthetics particularly the cultural transition from the correspondence theory of knowledge and truth to Nietzschean perspectivism and the canonical transition from Classicism to Romanticism to Modernism to Postmodernism It discusses the principles of interpretation the concept of reason logos and how the West's model of mind evolved The novels of Jane Austen introduce the concept of Classicism including her debt to Aristotle's thinking about Tragedy and Comedy in Poetics The two trajectories of Romanticism are discussed the philosophical trajectory through Berlin's idea of Counter Enlightenment the

immanent critique of metaphysics and the aesthetic trajectory through Blake's vision of what is possible if the doors of perception can be cleansed The novels of Australia s Patrick White introduce the concept of Modernism and his attempt to imagine the real The novels of Margaret Atwood introduce the concept of Postmodernism tracing her literary evolution from an author focused on female identity to one concerned with the future of humanity The novels of Graham Greene and Muriel Spark are discussed as two different Catholic responses to Modernism The novels of Marilynne Robinson and Douglas Wilson are discussed as two different Protestant responses to Calvinism A Companion to Simone de Beauvoir Laura Hengehold, Nancy Bauer, 2017-10-02 Winner of the 2018 Choice award for Outstanding Academic Title The work of Simone de Beauvoir has endured and flowered in the last two decades thanks primarily to the lasting influence of The Second Sex on the rise of academic discussions of gender sexuality and old age Now in this new Companion dedicated to her life and writings an international assembly of prominent scholars essayists and leading interpreters reflect upon the range of Beauvoir's contribution to philosophy as one of the great authors thinkers and public intellectuals of the twentieth century The Companion examines Beauvoir's rich intellectual life from a variety of angles including literary historical and anthropological perspectives and situates her in relation to her forbears and contemporaries in the philosophical canon Essays in each of four thematic sections reveal the breadth and acuity of her insight from the significance of The Second Sex and her work on the metaphysics of gender to her plentiful contributions in ethics and political philosophy Later chapters trace the relationship between Beauvoir's philosophical and literary work and open up her scholarship to global issues questions of race and the legacy of colonialism and sexism The volume concludes by considering her impact on contemporary feminist thought writ large and features pioneering work from a new generation of Beauvoir scholars Ambitious and unprecedented in scope A Companion to Simone de Beauvoir is an accessible and interdisciplinary resource for students teachers and researchers across the humanities and social sciences **Narratives of Nothing in 20th-Century Literature** Meghan Vicks, 2017-04-20 The concept of nothing was an enduring concern of the 20th century As Martin Heidegger and Jean Paul Sartre each positioned nothing as inseparable from the human condition and essential to the creation or operation of human existence as Jacques Derrida demonstrated how all structures are built upon a nothing within the structure and as mathematicians argued that zero the number that is also not a number allows for the creation of our modern mathematical system Narratives of Nothing in 20th Century Literature suggests that nothing itself enables the act of narration Focusing on the literary works of Vladimir Nabokov Samuel Beckett and Victor Pelevin Meghan Vicks traces how and why these writers give narrative form to nothing demonstrating that nothing is essential to the creation of narrative that is how our perceptions are conditioned how we make meaning or madness out of the stuff of our existence how we craft our knowable selves and how we exist in language The Philosophy of Christology Hue Woodson, 2022-01-31 Given the perpetual problem of the historical Jesus there remains an ongoing posing of the question to and a continuous seeking of the

meaningfulness of Christology From the earliest reckoning with the relationship between Jesus of Nazareth and the Christ of faith what it means to do Christology today remains at the methodological center of the task and scope of every systematic theology Whether giving an account of Albert Schweitzer's bringing an end to the guest for the historical Jesus in 1906 or attending to Rudolf Bultmann's period of no quest culminating with his demythologization project in the 1940s how we still think of Christology as a matter of questions and concerns with meaning speaks to an unavoidable philosophizing of Christology In this way The Philosophy of Christology offers both a particular history of Christology in conjunction with a particular philosophy of Christology which assesses the theological contributions by a group of Bultmannians following Bultmann in the 1950s and 1960s up to what can be reimagined by repurposing Jacques Derrida's philosophical question into the meaning of love in 2002 Deleuze and Theology Christopher Ben Simpson, 2012-11-22 An exploration of the thought of Gilles Deleuze and its relevance to theology Agamben and Indifference William Watkin, 2013-12-06 Since the publication of Homo Sacer Giorgio Agamben has become one of the world's most revered and controversial thinkers His ideas on our current political situation have found many supporters as well as garnering strong criticism from some quarters While his wider thoughts on topics such as language potentiality life law messianism power and aesthetics have had significant impact on such diverse fields as philosophy law theology history sociology politics cultural and literary studies Yet although Agamben is much read his work has often been misunderstood Agamben and Indifference aims to provide clarity around all the vexing issues that have been associated with Agamben's philosophy over the last two decades or more The book is the first to fully take into account Agamben's important recent publications which clarify his method complete his ideas on power and finally reveal the role of language in his overall system Commenting in detail on these recent books alongside re readings of the central texts from across Agamben's career William Watkin presents a critical overview of Agamben s work that aims to give a portrait of exactly why this thinker of indifferent and suspensive legal political ontological and living states can rightfully be considered one of the most important philosophers in the world today The Matter of Rhyme Christopher Norris, 2018-05-30 The poetry of ideas a long neglected genre has now found a vigorous and resourceful champion in Christopher Norris Hitherto best known as philosopher and literary theorist he has treated that genre to a full scale modern revival of singular scope and ambition His poems combine intellectual agility with a verse music both keen eared and frequently haunting This latest collection sees Norris at the top of his bent as lyric poet poet philosopher verse essayist political satirist social commentator and skilful re worker of traditional verse forms to suit contemporary contexts and concerns It exhibits all the wit and erudition that readers will have come to expect along with a marked broadening of purview and heightened stylistic virtuosity These poems engage with topics ranging from the personal though never private confessional to the deeply enquiring though never abstruse and the forcefully political though never excluding issues that transcend the narrowly partisan Above all they make the case for viewing rhyme meter and prosodic structure as

intrinsically a part of verse practice and a source of everything that is most distinctive and valuable in poetry The Divine Manifold Roland Faber, 2014-07-30 The Divine Manifold is a postmodern enguiry in intersecting themes of the concept and reality of multiplicity in a chaosmos that does not refuse a dimension of theopoetics but rather defines it in terms of divine polyphilia the love of multiplicity In an intricate play on Dante's Divine Comedy this book engages questions of religion and philosophy through the aporetic dynamics of love and power locating its discussions in the midst of and in between the spheres of a genuine philosophy of multiplicity This philosophy originates from the poststructuralist approach of Gilles Deleuze and the process philosophical inspirations of Alfred N Whitehead As their chaosmos invites questions of ultimate reality religious pluralism and multireligious engagement a theopoetics of love will find paradoxical dissociations and harmonizations with postmodern sensitivities of language power knowledge and embodiment At the intersection of poststructuralism's and process theology s insights in the liberating necessity of multiplicity for a postmodern cosmology the book realizes its central claim If there is a divine dimension of the chaosmos it will not be found in any identification with mundane forces or supernatural powers but on the contrary in the absolute difference of polyphilic love from creativity Yet the concurrent indifference of love and power its mystical undecidability in terms of any conceptualization will lead into existential questions of the insistence on multiplicity in a world of infinite becoming as inescapable background for its importance and creativeness formulating an ecological and ethical impulse for a mystagogy of becoming intermezzo

Technologies of Critique Willy Thayer, 2020-01-07 Critique a program of thought as well as a disposition toward the world is a crucial resource for politics and thought today yet it is again and again instrumentalized by institutional frames and captured by market logics Technologies of Critique elaborates a critical practice that eludes such capture Building on Chile s history of dissident artists and the central entangling of politics and aesthetics Thayer engages continental philosophical traditions from Aristotle Descartes and Heidegger through Walter Benjamin and Gilles Deleuze and in implicit conversation with the Judith Butler Roberto Esposito and Bruno Latour to help pinpoint the technologies and media through which art intervenes critically in socio political life Absent Mother God of the West Neela Bhattacharya Saxena, 2015-12-15 This book about the missing Divine Feminine in Christianity and Judaism chronicles a personal as well as an academic quest of an Indian woman who grew up with Kali and myriad other goddesses It is born out of a women s studies course created and taught by the author called The Goddess in World Religions The book examines how the Divine Feminine was erased from the western consciousness and how it led to an exclusive spiritually patriarchal monotheism with serious consequences for both women s and men s psychological and spiritual identity While colonial proselytizing and patriarchal ways have denied the divinity inherent in the female of the species a recent upsurge of body centric practices like Yoga and innumerable books

about old and new goddesses reveal a deep seated mother hunger in the western consciousness Written from a practicing Hindu Buddhist perspective this book looks at the curious phenomenon called the Black Madonna that appears in Europe and also examines mystical figures like Shekhinah in Jewish mysticism People interested in symbols of the goddess feminist theologians and scholars interested in the absence of goddesses in monotheisms may find this book s perspective and insights provocative The Genesis of God Thomas J. J. Altizer, 1993-04-15 Thomas Altizer one of America's premier theologians searches for a proper understanding of the Christian God which he believes can only be explicated when the question of origin is raised He begins with an investigation of Hegelian thinking develops his insights in dialogue with such thinkers as Augustine and Nietzsche and then focuses on notions generated by the Christian epic poetry of Dante Milton and Blake By explicating the absolute origin of God that only Christianity knows Altizer discloses the origin of a uniquely Christian freedom while also touching upon such important themes as predestination the fall evil and eternity Against Darkness Armin Lange, Eric M. Meyers, Randall Styers, 2010-11-17 Light Against Darkness is comprised of articles that put on display the power and pervasiveness of dualistic thought Dualism has proved a potent cultural tool for clarifying and ordering reality Particularly in times of social stress and psychological insecurity it can offer a valuable conceptual grid that provides orientation to the world and a clear sense of identity At the same time though there are important questions to be asked about the social effects of binary thinking As history amply illustrates dualistic notions can readily be deployed to legitimate cultural demonization and to rationalize violence At a deeper level a dualist worldview can also obscure the possibilities to be found in multiplicity The articles in this volume treat Dualism across a wide historical spectrum and from multiple methodological perspectives The studies are organized around the religious and cultural contexts of Ancient Judaism and they include contributions from leading voices on ancient Persia Israel Greece and Egypt Experts on modern religious and philosophical thought not only lend context to concepts applied to the ancient world but engage recent European and American experiments in binary thought All of the studies contribute to a richer and more complete portrait of dualism in The Characteristic Theology of Herman Melville Bradley A. Johnson, 2011-11-03 What becomes of ancient Judaism theology when we think of it aesthetically What becomes of aesthetics when we think of it theologically These are the guiding questions that inform both the method and the conclusions of this volume s exploration into the literary world of Herman Melville's characteristic theology Far from a specialist work that simply seeks to flesh out the religious disposition and myriad influences of one particular literary giant Johnson's focus in this volume is instead the identification of a philosophically robust aesthetic conception of theology at its most politically and contemporarily relevant By way of the Masquerade it sets in motion and in which it fully participates from its beginning to its very end this book uses Melville s fiction as vehicle for a radical aesthetic engagement with the theological bases of subjectivity and sovereignty Through this exploration Johnson conceives the creatively duplicitous character of a materialistic theology whose aim is nothing less than

the fashioning of a new heaven and a new earth Cosmology, Ecology, and the Energy of God Donna Bowman, Clayton Crockett, 2012 Cosmology Ecology and the Energy of God brings together process and postmodern theologians who reflect on the topic of energy Approaches include dark energy in terms of physics social and ecological aspects of the current energy use crisis and connections between human conceptions of energy and divine spiritual energy in theological terms Deleuze and Contemporary Art Stephen Zepke, 2010-05-27 What is the importance of deconstruction and the writing of Jacques Derrida in particular for literary criticism today Derek Attridge argues that the challenge of Derrida's work for our understanding of literature and its value has still not been fully met and in this book which traces a close engagement with Derrida's writing over two decades and reflects an interest in that work going back a further two decades shows how that work can illuminate a variety of topics Chapters include an overview of deconstruction as a critical practice today discussions of the secret postcolonialism ethics literary criticism jargon fiction and photography and responses to the theoretical writing of Emmanuel Levinas Roland Barthes and J Hillis Miller Also included is a discussion of the recent reading of Derrida's philosophy as radical atheism and the book ends with a conversation on deconstruction and place with the theorist and critic Jean Michel Rabate Running throughout is a concern with the question of responsibility as exemplified in Derrida's own readings of literary and philosophical texts responsibility to the work being read responsibility to the protocols of rational argument and responsibility to the reader
