society at the dinner table Why this was so and what effect the inclusion of food had on the status of the literary texts that described it are among the questions discussed here The book also addresses problems that arise when a material subject is translated into words and contains fresh interpretations of Latin texts that have been unjustly undervalued comedy satire epigrams letters and iambics While often regarded as something trivial and gross food was in fact one of the most suggestive images for Roman civilization

Post-Colonial Realism Hanna Samir Kassab,2025-08-22 In Post Colonial Realism Hanna Samir Kassab develops a theoretical framework to explain understand and predict international conflict placing culture at the center of international political analysis Kassab contends that nationalism a belief system forms an intervening variable that shapes the foreign policy behavior of states Studying food is central to understanding nationalist belief systems that shape international politics By combining theories of nationalism with post colonialist understandings of cultural revitalization Kassab conceptualizes state motivation to understand how cultural symbols shape nationalist identities to see the fault lines of civilization through food and to appreciate the centrality of identity issues Using ethnography to understand food ownership as part of nationalist conflict Kassab examines neighboring states Greece North Macedonia Turkey and Armenia alongside India In each country study chapter he compares at least two nationalisms and views of cuisine ownership He later maps out potential future flashpoints as the international system becomes increasingly competitive due to the changing structure of the international system unipolarity to multipolarity Post Colonial Realism offers a more robust and flexible theory of international relations concentrating not on abstractions but on individuals and their collective beliefs
