## **Pure State Of Nature Sacred Cows Destructive Myths And The Environment:**

**The Pure State of Nature** David Horton, 2020-07-29 Aborigines did not cause the extinction of the megafauna and it is unlikely that they have caused the extinction of any element of the fauna and flora If you want to practise controlled burning in order to protect houses or farms then do it in the same way as you would use a bulldozer to clear a firebreak but don't pretend that you are doing anything but damage to the environment If you commercialise an environmental resource you do so to make money Don't pretend that it also benefits the environment Spanning fifty thousand years and an entire continent The Pure State of Nature presents a passionate account of the Australian environment The myths that abound in popular and scientific writing the theories and fancies about the place of humans in the ecology of this vast landmass are subjected to scrutiny In particular the author demolishes the widely accepted orthodoxy about the use of fire by Aborigines and their supposed part in the extinction of the Australian megafauna From the ruins of those myths The Pure State of Nature offers lessons for the new millennium In turns provocative humorous impassioned and gentle this is a bold book of ideas about the past and present a book about how we can shape the future To The Pure State of Nature Dr David Horton brings many years experience as scientist farmer and archaeologist Among his publications are *Recovering the Tracks* and *The Encyclopaedia of Aboriginal Australia* He now writes and consults from his stud sheep farm in New South Wales *Aboriginal Environmental Knowledge* Catherine Laudine, 2016-09-17 Whilst there are popular ideas about which champion Aboriginal environmental knowledge many of these are based more on romantic notions than on any detailed understanding of what might be the content of this knowledge This book is based on a grounded and broad assessment of less well known details of Aboriginal knowledge and provides both a great deal of detail and a new assessment of rituals and practices Aboriginal environmental knowledge is examined here as an integrated source of both religious and scientific knowledge An important finding is that Aboriginal environmental knowledge also includes knowledge about education for attitudes considered appropriate for survival Though evidence for this is readily available in the literature it has not been part of current depictions of Aboriginal environmental knowledge **Christianity, Evolution and the Environment** Barry John Richardson, 2001 Written to be accessible to a broad cross section of people especially those without backgrounds in theology or science this book provides an introduction to the relationship between Christianity and science It provides the framework for Christians to reconcile their faith with the reality of evolution Indigenous Peoples and the Collaborative Stewardship of Nature Anne Ross, Kathleen Pickering Sherman, Jeffrey G Snodgrass, Henry D Delcore, Richard Sherman, 2016-09-17 Involving Indigenous peoples and traditional knowledge into natural resource management produces more equitable and successful outcomes Unfortunately argue Anne Ross and co authors even many progressive methods fail to produce truly equal partnerships This book offers a comprehensive and global overview of the theoretical methodological and practical dimensions of co management The authors critically evaluate the range of management options that claim to have integrated Indigenous

peoples and knowledge and then outline an innovative alternative model of co management the Indigenous Stewardship Model They provide detailed case studies and concrete details for application in a variety of contexts Broad in coverage and uniting robust theoretical insights with applied detail this book is ideal for scholars and students as well as for professionals in resource management and policy Inferno Roger Franklin,2010 In the words of Roger Franklin fire can be a curious wonderful thing On February 7 2009 however there was nothing wonderful about the flames that engulfed Victoria killing 173 people and reducing several towns to dust Franklin s book INFERNO THE DAY VICTORIA BURNED is the first to explore the horrors of the day that will forever be known as Black Saturday Not only does the author explain what happened that day individual heroism unimaginable tragedy tales of towns all but wiped off the map but also why it happened The author examines the roles of the Victorian government the CFA and the local councils that were so determined to protect roadside vegetation He analyses the pros and cons of preventive burning questions the merits of the state s controversial stay or go policy and delves into the mind of an arsonist Through it all there is a clear message failure was everywhere on Black Saturday With bushfires a constant threat in Australian life Franklin cites many important lessons that need to be learned if such a disaster is to be avoided in the future *(Dis)Placing Empire* Michael M. Roche,2017-07-05 Illustrated with case studies of British colonialism in Australia Hong Kong India Ireland and New Zealand in the later nineteenth and twentieth centuries the book uncovers the complex and unstable spaces of meaning which were central to the experience of emigrants settlers expatriates and indigenous peoples at different time place moments under British rule *An Environmental History of Australian Rainforests until 1939* Warwick Frost,2020-06-10 This book provides a comprehensive environmental history of how Australia s rainforests developed the influence of Aborigines and pioneers farmers and loggers and of efforts to protect rainforests to help us better understand current issues and debates surrounding their conservation and use While interest in rainforests and the movement for their conservation are often mistakenly portrayed as features of the last few decades the debate over human usage of rainforests stretches well back into the nineteenth century In the modern world rainforests are generally considered the most attractive of the ecosystems being seen as lush vibrant immense mysterious spiritual and romantic Rainforests hold a special place both providing a direct link to Gondwanaland and the dinosaurs and today being the home of endangered species and highly rich in biodiversity They are also a critical part of Australia s heritage Indeed large areas of Australian rainforests are now covered by World Heritage Listing However they also represent a dissonant heritage What exactly constitutes rainforest how it should be managed and used and how much should be protected are all issues which remain hotly contested Debates around rainforests are particularly dominated by the contradiction of competing views and uses seeing rainforests either as untapped resources for agriculture and forestry versus valuing and preserving them as attractive and sublime natural wonders Australia fits into this global story as a prime example but is also of interest for its aspects that are exceptional including the intensity of clearing at certain periods and for its place in the early

development of national parks This book will be of great interest to students and scholars of Environmental History Australian History and Comparative History      **Patriots** William J. Lines,2006 Powerful and provocative Patriots travels through the history and politics of Australia's conservation movement and describes a new national identity an identity deeply enmeshed in nature an identification with the land that non Indigenous Australia has lacked      **Animal Nation** Adrian Franklin,2006 Traces the complex relationship between animals and humans in Australia Starts with the colonial period and brings us full circle to the present when native species are protected above all others      Lawscape Nicole Graham,2010-07-07 Addressing law's relationship to land and natural resources through its property regime Lawscape Property Environment Law considers the ways in which property law transforms both natural environments and social economies      **The Hawkesbury River** Paul Boon,2017-07 The Hawkesbury River is the longest coastal river in New South Wales A vital source of water and food it has a long Aboriginal history and was critical for the survival of the early British colony at Sydney The Hawkesbury's weathered shores cliffs and fertile plains have inspired generations of artists It is surrounded by an unparalleled mosaic of national parks including the second oldest national park in Australia Ku ring gai National Park Although it lies only 35 km north of Sydney to many today the Hawkesbury is a hidden river its historical and natural significance not understood or appreciated Until now the Hawkesbury has lacked an up to date and comprehensive book describing how and when the river formed how it functions ecologically how it has influenced humans and their patterns of settlement and in turn how it has been affected by those settlements and their people The Hawkesbury River A Social and Natural History fills this gap With chapters on the geography geology hydrology and ecology of the river through to discussion of its use by Aboriginal and European people and its role in transport defence and culture this highly readable and richly illustrated book paints a picture of a landscape worthy of protection and conservation It will be of value to those who live visit or work in the region those interested in Australian environmental history and professionals in biology natural resource management and education      *The Oxford Handbook of the Archaeology of Indigenous Australia and New Guinea* Ian J. McNiven,Bruno David,2023-12-05 65 000 years ago modern humans arrived in Australia having navigated more than 100 km of sea crossing from southeast Asia Since then the large continental islands of Australia and New Guinea together with smaller islands in between have been connected by land bridges and severed again as sea levels fell and rose Along with these fluctuations came changes in the terrestrial and marine environments of both land masses The Oxford Handbook of the Archaeology of Indigenous Australia and New Guinea reviews and assembles the latest findings and ideas on the archaeology of the Australia New Guinea region the world's largest island continent In 42 new chapters written by 77 contributors it presents and explores the archaeological evidence to weave stories of colonisation megafaunal extinctions Indigenous architecture long distance interactions sometimes across the seas eel based aquaculture and the development of techniques for the mass trapping of fish occupation of the High Country deserts tropical swamplands and other diverse land and

waterscapes and rock art and symbolic behaviour Together with established researchers a new generation of archaeologists present in this Handbook one authoritative text where Australia New Guinea archaeology now lies and where it is heading promising to shape future directions for years to come

**Dreaming Ecology** Deborah Bird Rose, 2024-05-07 In the author's own words Dreaming Ecology explores a holistic understanding of the interconnections of people country kinship creation and the living world within a context of mobility Implicitly it asks how people lived so sustainably for so long It offers a telling critique of the loss of Indigenous life human and non human in the wake of white settler colonialism and this becoming cattle country It offers a fresh perspective on nomadics grounded in footwalk epistemology and an ethics of return sustained across different species events practices and scales This is the final and most substantial of Debbie's love letters to the Aboriginal people of the Victoria River Downs I say this because there is such a sense of reverence wonder and respect throughout the book The introduction of concepts of double death footwalk epistemology wild country are not only organising ideas but characterisations arising from what Debbie hears sees and feels of herself and Aboriginal others I think of it in terms of love if love is care reciprocal respect deep connectivity and a strong desire to never make less of the people she chose to commit herself to Richard Davis This book was a pleasure to read filled with careful description of people places and various plants and animals and insightful analysis of the patterns and commitments that hold them together in the world Thom van Dooren

Pictures of Time Beneath Kirsty Douglas, 2010-04-27 Pictures of Time Beneath examines three celebrated heritage landscapes Adelaide's Hallett Cove Lake Callabonna in the far north of South Australia and the World Heritage listed Willandra Lakes Region of New South Wales It offers philosophical insights into significant issues of heritage management our relationship with Australian landscapes and an original perspective on our understanding of place time nation and science Glaciers in Adelaide cow sized wombats monster kangaroos desert dunes littered with freshwater mussels ancient oases and inland seas a diverse group of deep time imaginings is the subject of this ground breaking book Ideas about a deep past in Australia are central to broader issues of identity belonging uniqueness legitimacy and intellectual community This journey through Australia's natural histories examines the way landscapes and landforms are interpreted to realise certain visions of the land the nation and the past in the context of contemporary notions of geological heritage cultural property cultural identity and antiquity

**Ecocritical Concerns and the Australian Continent** Beate Neumeier, Helen Tiffin, 2019-11-08 Ecocritical Concerns and the Australian Continent investigates literary historical anthropological and linguistic perspectives in connection with activist engagements The necessary cross fertilization between these different perspectives throughout this volume emerges in the resonances between essays exploring recurring concerns ranging from biodiversity and preservation policies to the devastating effects of the mining industries to present concerns and futuristic visions of the effects of climate change Of central concern in all of these contexts is the impact of settler colonialism and an increasing turn to indigenous knowledge systems A number of chapters engage with questions of ecological imperialism in

relation to specific sociohistorical moments and effects probing early colonial encounters between settlers and indigenous people or rereading specific forms of colonial literature Other essays take issue with past and present constructions of indigeneity in different contexts as well as with indigenous resistance against such ascriptions while the importance of an understanding of indigenous notions of care for country is taken up from a variety of different disciplinary angles in terms of interconnectedness anchoredness living country and living heritage

Ecological Pioneers Martin Mulligan, Stuart Hill, 2001-10-22 Whenever the history of ecological thought has been written the contributions of Australian thinkers have been omitted Yet Australia as a continent of extreme rare and complex environments has produced a startling group of ecological pioneers Across a wide range of human endeavour Australian thinkers and innovators whether they have thought of themselves as environmentalists or not have made some truly original contributions to ecological thought Ecological Pioneers traces the emergence of ecological understandings in Australia By constructing a social history with chapters focusing on different fields in the arts sciences politics and public life the authors bring to life the work of significant individuals Some of the ecological pioneers featured include Joseph Banks Russell Drysdale Judith Wright Myles Dunphy Philip Crosbie Morrison Vincent Serventy Francis Ratcliffe the Gurindji and Yolngu peoples Bill Mollison Jack Munday Val Plumwood Michael Leunig and many more

The First Wave Gillian Dooley, Danielle Clode, 2019-06-20 The European maritime explorers who first visited the bays and beaches of Australia brought with them diverse assumptions about the inhabitants of the country most of them based on sketchy or non-existent knowledge contemporary theories like the idea of the noble savage and an automatic belief in the superiority of European civilisation Mutual misunderstanding was almost universal whether it resulted in violence or apparently friendly transactions Written for a general audience The First Wave brings together a variety of contributions from thought provoking writers including both original research and creative work Our contributors explore the dynamics of these early encounters from Indigenous cosmological perspectives and European history of ideas from representations in art and literature to the role of animals food and fire in mediating first contact encounters and Indigenous agency in exploration and shipwrecks The First Wave includes poetry by Yankunytjatjara Aboriginal poet Ali Cobby Eckermann fiction by Miles Franklin award-winning Noongar author Kim Scott and Danielle Clode and an account of the arrival of Christian missionaries in the Torres Strait Islands by Torres Strait political leader George Mye

Deep Time Dreaming Billy Griffiths, 2018-02-26 People would have known about Australia before they saw it Smoke billowing above the sea spoke of a land that lay beyond the horizon A dense cloud of migrating birds may have pointed the way But the first Australians were voyaging into the unknown Soon after Billy Griffiths joins his first archaeological dig as camp manager and cook he is hooked Equipped with a historian's inquiring mind he embarks on a journey through time seeking to understand the extraordinary deep history of the Australian continent Deep Time Dreaming is the passionate product of that journey It investigates a twin revolution the reassertion of Aboriginal identity in the second half of the

twentieth century and the uncovering of the traces of ancient Australia It explores what it means to live in a place of great antiquity with its complex questions of ownership and belonging It is about a slow shift in national consciousness the deep time dreaming that has changed the way many of us relate to this continent and its enduring dynamic human history John Mulvaney Book Award Winner Ernest Scott Prize Winner NSW Premier s Literary Awards Winner Book of the Year NSW Premier s Literary Awards Winner Douglas Stewart Prize for Non fiction Victorian Premier s Literary Awards Highly Commended Queensland Literary Awards Shortlisted Prime Minister s Literary Awards Shortlisted Educational Publishing Awards Shortlisted Australian Book Industry Awards Longlisted CHASS Book Prize Longlisted What a revelatory work If you wish to hear the voice of our continent s history before the written word Deep Time Dreaming is a must read The freshest most important book about our past in years Tim Flannery Once every generation a book comes along that marks the emergence of a powerful new literary voice and shifts our understanding of the nation s past Billy Griffiths Deep Time Dreaming is one such book Deeply researched creatively conceived and beautifully written it charts the expansion of archaeological knowledge in Australia for the first time No other book has managed to convey the mystery and intricacy of Indigenous antiquity in quite the same way Read it it will change the way you see Australian history Mark McKenna historian Billy Griffiths Deep Time Dreaming Uncovering Ancient Australia is a remarkable book and one destined I believe to become a modern classic of Australian history writing Written in vivid evocative prose this book will grip both the expert and the general reader alike Iain McCalman author of The Reef A Passionate History The Great Barrier Reef from Captain Cook to Climate Change

**Integral Ecology** Sean Esbjorn-Hargens, Ph.D., Michael E. Zimmerman, Ph.D., 2011-03-08 Today there is a bewildering diversity of views on ecology and the natural environment With more than two hundred distinct and valuable perspectives on the natural world and with scientists economists ethicists activists philosophers and others often taking completely different stances on the issues how can we come to agreement to solve our toughest environmental problems In response to this pressing need Integral Ecology unites valuable insights from multiple perspectives into a comprehensive theoretical framework one that can be put to use right now The framework is based on Integral Theory as well as Ken Wilber s AQAL model and is the result of over a decade of research exploring the myriad perspectives on ecology available to us today and their respective methodologies Dozens of real life applications and examples of this framework currently in use are examined including three in depth case studies work with marine fisheries in Hawai i strategies of eco activists to protect Canada s Great Bear Rainforest and a study of community development in El Salvador In addition eighteen personal practices of transformation are provided for you to increase your own integral ecological awareness Integral Ecology provides the most sophisticated application and extension of Integral Theory available today and as such it serves as a template for any truly integral effort

Aboriginal Biocultural Knowledge in South-eastern Australia Fred Cahir, Ian Clark, Philip Clarke, 2018-05 Indigenous Australians have long understood sustainable hunting and harvesting seasonal changes in flora and fauna

predator prey relationships and imbalances and seasonal fire management Yet the extent of their knowledge and expertise has been largely unknown and underappreciated by non Aboriginal colonists especially in the south east of Australia where Aboriginal culture was severely fractured Aboriginal Biocultural Knowledge in South eastern Australia is the first book to examine historical records from early colonists who interacted with south eastern Australian Aboriginal communities and documented their understanding of the environment natural resources such as water and plant and animal foods medicine and other aspects of their material world This book provides a compelling case for the importance of understanding Indigenous knowledge to inform discussions around climate change biodiversity resource management health and education It will be a valuable reference for natural resource management agencies academics in Indigenous studies and anyone interested in Aboriginal culture and knowledge
