**Meshuggenary** Payson R. Stevens,Sol Steinmetz,2002-09-06 A Simon Schuster eBook Simon Schuster has a great book

for every reader     Introduction to Old Yiddish Literature Jean Baumgarten, 2005-06-02 Jean Baumgarten's Introduction to Old Yiddish Literature thoroughly revised from the first edition and translated into English provides students and scholars of medieval Renaissance and early modern European cultures with an exemplary survey of the broad and deep literary tradition in Yiddish. Baumgarten conceives of his work as the study of an entire culture via its literature and thus he conceives of literature in a broad sense. He begins with four chapters addressing pertinent issues of the larger cultural context of the literature and moves on to a consideration of the primary genres in which the culture is expressed: epic, romance, prose, narrative, drama, biblical translation and commentary, ethical and moral treatises, prayers, and the broad range of literature of daily use, medical, legal, and historical. In the field of early Yiddish studies, the book will be the standard of intellectual breadth and scholarly excellence for decades to come. In this second edition, the hundreds of text citations and bibliographical references that are the scholarly basis of the study have been verified and the citations translated anew directly from the original source.
