*The Last American Puritan* Michael G. Hall, 2012-01-01 Powerful preacher political negotiator for New England in the halls of Parliament president of Harvard father of Cotton Mather Increase Mather was the epitome of the American Puritan He was the most important spokesman of his generation for Congregationalism and became the last American Puritan of consequence as the seventeenth century ended The story begins in 1639 when Mather was born in the Massachusetts village of Dorchester He left home for Harvard College when he was twelve and at twenty two began to stir the city of Boston from the pulpit of North Church He had written four books by the time he was thirty two Certain he was God's chosen instrument and New England God's chosen people he disciplined mind and spirit in service to them both Tempted to Atheism and unbelief afflicted early by nightmares and melancholy then by hope and joy he was a pioneer in recognizing the excitement of the new sciences and sought to reconcile them to theology This well wrought biography the first of Increase Mather in forty years draws on the extensive Mather diaries which were transcribed by Michael Hall      Religious Refugees in the Early Modern World Nicholas Terpstra, 2015-07-23 The religious refugee first emerged as a mass phenomenon in the late fifteenth century Over the following two and a half centuries millions of Jews Muslims and Christians were forced from their homes and into temporary or permanent exile Their migrations across Europe and around the globe shaped the early modern world and profoundly affected literature art and culture Economic and political factors drove many expulsions but religion was the factor most commonly used to justify them This was also the period of religious revival known as the Reformation This book explores how reformers' ambitions to purify individuals and society fueled movements to purge ideas objects and people considered religiously alien or spiritually contagious It aims to explain religious ideas and movements of the Reformation in nontechnical and comparative language      The Puritan Experiment Francis J. Bremer, 2013-01-08 The comprehensive history of a system of faith that shaped the nation      Perspectives, 2002      *Invisible Masters* Elisabeth Ceppi, 2018-07-03 *Invisible Masters* rewrites the familiar narrative of the relation between Puritan religious culture and New England's economic culture as a history of the primary discourse that connected them service The understanding early Puritans had of themselves as God's servants and earthly masters was shaped by their immersion in an Atlantic culture of service and the worldly pressures and opportunities generated by New England's particular place in it Concepts of spiritual service and mastery determined Puritan views of the men women and children who were servants and slaves in that world So too did these concepts shape the experience of family labor law and economy for those men women and children the very bedrock of their lives This strikingly original look at Puritan culture will appeal to a wide range of Americanists and historians      The Artistry of Anger Linda M. Grasso, 2003-04-03 In this compelling interdisciplinary study Linda Grasso demonstrates that using anger as a mode of analysis and the basis of an aesthetic transforms our understanding of American women's literary history Exploring how black and white nineteenth century women writers defined expressed and dramatized anger Grasso

reconceptualizes antebellum women's writing and illuminates an unrecognized tradition of discontent in American literature. She maintains that two equally powerful forces shaped this tradition: women's anger at their exclusion from the democratic promise of America and the cultural prohibition against its public articulation. Grasso challenges the common notion that nineteenth-century women's writing is confined to domestic themes and shows instead how women channeled their anger into art that addresses complex political issues such as slavery, nation building, gender arrangements, and race relations. Cutting across racial and genre boundaries, she considers works by Lydia Maria Child, Maria W. Stewart, Fanny Fern, and Harriet Wilson as superb examples of the artistry of angry expression. Transforming their anger through literary imagination, these writers bequeathed their vision of an alternative America both to their contemporaries and to subsequent generations.
