Packer,Donald Wiseman,2017-05-02 The Complete Topical Guide to the Bible provides Scripture references definitions and cross references for the study of the Bible by topic The topical approach differs significantly from the lexical approach of a concordance and a topical guide is an essential supplement to a concordance While a concordance is limited to the connection of biblical passages in which the same word appears the topical approach identifies and connects all of the underlying concepts related to a topic A concordance would not yield John 3 16 for a study of grace because the word grace does not appear in the verse but The Complete Topical Guide to the Bible includes John 3 16 for grace because it s an essential verse on the topic The topics in this resource include biblical doctrinal and historical subjects and they are organized into nine major categories God Jesus Christ the Holy Spirit creation humanity sin and salvation God s people the life of the believer and the last things In addition to the great themes of the biblical message practical issues of Christian living are also included **The Spiritual Seeker's Guide** Steven S. Sadleir,1992 This one stop guide details the history ideology and practices of over 100 religions and spiritual traditions and teachers from around the world From Christianity to Krishna Consciousness from Alcoholics Anonymous to Zoroastrianism this guide briefly describes each group s major tenets tells who to call for more information and includes suggestions for further information An unbiased reporting **The Way to God** SHER GILL Galib,2023-01-01 The Way to God is a collection of wisdom pearls to benefit all Seekers who want to explore the worlds beyond in this lifetime All chapters reveal the unknown to the Seekers to become the master of their universe If you are bold and adventurous there is nothing you cannot do or know The old spiritual science presented with a fresh approach can benefit all religious followers The information provided in this book is the key to the
