## **Pursuing Perfection People Groups And Society:**

*Pursuing Perfection* Leonard W. Doob, 1999-03-30 Analyzes humanity's eternal pursuit of perfection and proposes seven guides for improving our existence      **Visible and Invisible** Olmes Bisi, 2014-10-20 Light phenomena have intrigued humankind since prehistory Think of the rainbow a sunset on the sea a game of shadows Humans have always used light for their own needs from cooking food to illuminating a room However light is not only limited to what we can see with our eyes The invisible part of the electromagnetic spectrum is broad and dynamic This book outlines the mysteries and wonders of electromagnetism heat and light It also covers the history of our scientific understanding of light The dark as well as the bright sides of light are fully explored in these pages from their impact on our world to their use in cutting edge technologies in a variety of fields Numerous full color images and drawings complement the text and light phenomena are explained in a simple and engaging way      **Recruitment Advertising as an Instrument of Employer Branding** Jolanta

Łacka-Badura, 2015-10-05 The book offers a linguistic analysis of job advertising as an instrument of employer branding investigating how the creation of the employer brand and the projection of employee value proposition are realised linguistically in a corpus of online job advertisements The study is methodologically grounded in the current approaches to discourse analysis and business organisational communication as it is broadly understood with particular emphasis on genre and register analysis the language of persuasion and evaluation as well as the language of organisational values The analysis conducted in the book demonstrates that job advertisements constitute a distinct promotional business genre a member of the system of genres applied in the job search context increasingly resembling multi modal marketing type ads The rhetorical structure of online recruitment advertisements confirms the initial hypothesis that job ads contribute to the projection and reinforcement of employer brands The register of recruitment ads clearly harmonises with the employer branding function of the genre extremely positive encompassing a wide range of persuasive strategies as well as lexico grammatical choices contributing to the creation of employer brands job advertising may justifiably be classified as a paradigm case of persuasion With employer branding being deeply rooted in the values emanating from an organisation the use of linguistic structures communicating or implying the system of attributes and values declared by the employing organisations is a powerful employer branding strategy widely reflected in the corpus Taking into account the interdisciplinary character of the analysis the book will be of interest not only to linguists and business communication scholars but also to human resource management and public relations researchers and practitioners      *Forthcoming Books* Rose Arny, 1999      **Witnesses of**

**Perfect Love** Amy Caswell Bratton, 2014-03 In *Witnesses of Perfection* Amy Caswell Bratton explores how the eighteenth century doctrine of Christian Perfection spread in the early British Methodist communities Alongside leaders such as John and Charles Wesley teaching about Christian Perfection Methodist men and women told narratives of Christian Perfection which transmitted the doctrine Using narrative to spread Christian Perfection was effective because it both communicated

the content of the experience of Christian Perfection and also commended this experience to the listener This study is noteworthy for its detailed analysis of several first hand narratives that testify to the experience and which were made public for the edification of the Methodist community in the Arminian Magazine and other publications The narratives of four Methodist people are examined at length Sarah Crosby 1729 1804 George Clark 1710 1797 William Hunter 1728 1797 and Bathsheba Hall 1745 1780 In addition to observing the transmission of the doctrine through narrative the study of these stories illuminates early Methodist spirituality and the doctrine of Christian Perfection or entire sanctification through the embodiment of Perfection in the life of real people This lived out expression of Christian Perfection draws attention to unique elements of the doctrine as each narrative illustrates nuances of Christian Perfection Finally the narratives of Perfection offer the embodiment of transformation which resulted in lasting change

**Seeking Perfection** Matt J. Rossano,2015-07-31

How would Socrates and Plato react to a modern world where secularism and religious fundamentalism are growing while the gap between the human mind and animal mind is narrowing Using some creative license mixed with real history science and philosophy Seeking Perfection addresses that question Matt J Rossano uses a narrative dialogue format to superimpose on modern times ancient Greece s two most eminent philosophers along with its government and culture The story begins with Plato s daring escape from Sicily where he tutored Dionysius II in philosophy On board his homebound ship Plato recounts his experiences in Sicily In this narrative the intellectual difference between practical rewards and the pursuit of ideals provides the basis for a series of dialogue on science secularism religion and the uniqueness of the human mind Upon the ship s arrival home Plato s mentor Socrates is arrested and his trial provides the venue for the book s final dialogue The final dialogue serves as a counterweight to the earlier ones Rossano begins and ends with a philosopher imprisoned by his views indicative of one of its main messages the true philosopher uses a well disciplined mind and the best knowledge of the day to get as close to the truth as possible In doing so he invariably gets into trouble This imaginatively constructed tale will absorb those interested in what the philosophical masters might say about today s world

**The Love Israel Family** Charles Pierce LeWarne,2015-07-21 Winner of the Malstrom

Award of the League of Snohomish County Historical Organizations In 1968 a time of turbulence and countercultural

movements a one time television salesman named Paul Erdmann changed his name to Love Israel and started a controversial religious commune in Seattle s middle class Queen Anne Hill neighborhood He quickly gathered a following and they too adopted the Israel surname along with biblical or virtuous first names such as Honesty Courage and Strength The burgeoning Love Israel Family lived a communal lifestyle centered on meditation and the philosophy that all persons were one and life was eternal They flourished for more than a decade owning houses and operating businesses on the Hill although rumors of drug use control of members and unconventional sexual arrangements dogged them By 1984 perceptions among many followers that some Family members especially Love Israel himself had become more equal than others led to a bitter breakup in which two thirds of the members defected The remaining faithful about a hundred strong resettled on a ranch the Family retained near the town of Arlington Washington north of Seattle There they recouped and adapted with apparent social and economic success for two more decades In The Love Israel Family Charles LeWarne tells the compelling story of this group of idealistic seekers whose quest for a communal life grounded in love service and obedience to a charismatic leader foundered when that leader s power distanced him from his followers LeWarne followed the Family for years attending its celebrations and interviewing the faithful and the disaffected alike He tells the Family s story with both sympathy and balance describing daily life in the urban and later the rural communes and explaining the Family s deeply felt spiritual beliefs The Love Israel Family is an important chapter in the history of communal experiments in the United States

Frierson, 2025-02-27 Maria Montessori s Philosophy shows how Montessori s commitment to follow the child can be understood as a philosophical method for answering the great philosophical questions that confront human beings Patrick Frierson discusses historical influences on Montessori s philosophical views focusing on showing how her commitment to children led her to profound insights about a wide range of philosophical questions from foundational metaphysics to applied ethics and politics Her metaphysics grounded in the concept of life as she observes it developing in the child helps to address fundamental questions about the nature of the universe and the emergence of consciousness and value within it Her pragmatic empiricist epistemology provides the framework for a sophisticated account of various intellectual virtues conducive to excellent cognitive engagement with reality Her moral philosophy weaves together a broadly Nietzschean emphasis on self perfection with

respect for all human beings and a strong interest in social solidarity In her philosophy of religion she follows children as they guide her to recognize a sense for the divine and the importance of sensorily informed religious practice Her politics informed by lifelong feminism and concern for peace shows how the education of the child is the key to cosmopolitan solidarity and lasting peace Her philosophy of technology while recognizing the dangers of technological development also sees in children the human potential and even vocation to develop technology for the betterment of the world *The Moral Philosophy of Maria Montessori* Patrick Frierson, 2022-11-17 In the first scholarly exposition of Maria Montessori's moral philosophy Patrick R Frierson presents an empirically grounded ethics that takes its start from our tendency to strive for excellence and emphasizes mutual respect social solidarity and love Laying out a compelling Montessorian approach to ethical life Frierson constructs an account of human agency based on children who when attentively at work on self-chosen tasks have agency worthy of respect Through this interpretation of children's agency he introduces the core concept of Montessorian character in Montessori's ethics character provides the ultimate value worthy of direct respect and those with character have a natural tendency to respect others Character is enhanced through corporate forms of agency that Montessori calls social solidarity Weaving this educationalist's ethics with theory from Nietzsche Aristotle Kant Hegel and Marx Frierson places Montessori in the context of the history of philosophy His study effectively unites philosophy and education showing how human ethical life can be enhanced through a moral theory based on the respectful attention to the lived agency of young children

often associated with the Enlightenment. However, not all Enlightenment thinkers defended it. This book aims to cast light on the problems and solutions that the thinkers of the Scottish Enlightenment uncovered when studying the place of religion in society. In fact, Hutcheson, Reid, Hume, Smith, Ferguson, and Millar saw the situation of religion in society from different perspectives and often reached very different conclusions. This complex understanding of religion is what led us to compile this book, which focuses on three questions: What is the role of religion in society? How does the existence of God and natural religion affect the social order? How should certain religious beliefs be understood in a secular context, and what are their social and moral repercussions? These three key issues are closely connected to the Scottish thinkers' chief common concerns: defending natural human sociability from contractualist theories and determining whether religion hinders or strengthens the political and moral order of society.
