Aftershock Kieran Cashell, 2009-08-30 Accused by the tabloid press of setting out to shock controversial artworks are vigorously defended by art critics who frequently downplay their disturbing emotional impact This is the first book to subject contemporary art to a rigorous ethical exploration It argues that in favouring conceptual rather than emotional reactions commentators actually fail to engage with the work they promote Scrutinising notorious works by artists including Damien Hirst Jake and Dinos Chapman Richard Billingham Marc Quinn Sally Mann Marcus Harvey Hans Bellmer Paul McCarthy Tierney Gearon and Tracey Emin *Aftershock* insists on the importance of visceral emotional and ethical responses Far from clouding our judgement Cashell argues shame outrage or revulsion are the very emotions that such works set out to evoke While also questioning the catch all notion of transgression this illuminating and controversial book neither jumps

indiscriminately to the defence of shocking artworks nor dismisses them out of hand **The Philistine** Harry Persons Taber, Elbert Hubbard, 1897 *Outspoken* Nan Levinson, 2006-09 Among these sometimes unlikely defenders of free speech are Rick Nuccio a diplomat who disclosed secret information about the torture of Jennifer Harbury s husband and related government misconduct in Guatemala Daisy Sanchez a Puerto Rican journalist who risked going to prison to protect her sources Penny Culliton a high school teacher who was fired for discussing gays and lesbians in literature Michael Willhoite author of the children s book *Daddy s Roommate* which was the most banned book in the country for two years running Steve Johnson a fireman who fought for his right to read *Playboy* at work and Annie Sprinkle a former porn star who defended her performance piece *Post Porn Modernist* as art Jacket Criticizing Photographs Terry Barrett, 2020-11-29 Emphasizing the understanding of images and their influences on how they affect our attitudes beliefs and actions this fully updated sixth edition offers consequential ways of looking at images from the perspectives of photographers critics theoreticians historians

curators and editors It invites informed conversations about meanings and implications of images providing multiple and sometimes conflicting answers to questions such as What are photographs Should they be called art Are they ethical What are their implications for self society and the world From showing how critics verbalize what they see in images and how they persuade us to see similarly to dealing with what different photographs might mean the book posits that some interpretations are better than others and explains how to deliberate among competing interpretations It looks at how the worth of photographs is judged aesthetically and socially offering samples and practical considerations for both studio critiques for artists and professional criticism for public audiences This book is a clear and accessible guide for students of art history photography and criticism as well as anyone interested in carefully looking at and talking about photographs and their effects on the world in which we live **Vintage & Contemporary Photography** Heritage Auction Galleries (Dallas, Tex.),2009

Cultural Legal Studies Cassandra Sharp, Marett Leiboff, 2015-07-24 What can law's popular cultures do for law as a constitutive and interrogative critical practice This collection explores such a question through the lens of the cultural legal studies movement which proffers a new encounter with the cultural turn in law and legal theory Moving beyond the law and literature humanities culture film visual and aesthetics on which it is based this book demonstrates how the techniques and practices of cultural legal studies can be used to metamorphose law and the legalities that underpin its popular imaginary By drawing on three different modes of cultural legal studies storytelling technology and jurisprudence the collection showcases the intersectional practices of cultural legal studies and law in its popular cultural mode The contributors to the collection deploy differentiated modes of cultural legal studies practice adopting diverse philosophical disciplinary methodological and theoretical approaches and subjects of examination The collection draws on this mix of diversity and homogeneity to thread together its overarching theme that we must take seriously an interrogation of law as culture and in its cultural form That is it does not ask how a text represents law but rather how the representational nature of both law and culture intersect so that the juridical become visible in various cultural manifestations In short it asks how law's popular cultures actively effect the metamorphosis of law
