Mathematical Constants II Steven R. Finch, 2003 Famous mathematical constants include the ratio of circular circumference to diameter $\frac{3}{14}$ and the natural logarithm base $e \approx 2.718$. Students and professionals can often name a few others but there are many more buried in the literature and awaiting discovery. How do such constants arise and why are they important? Here the author renews the search he began in his book *Mathematical Constants* adding another 133 essays that broaden the landscape. Topics include the minimality of soap film surfaces, prime numbers, elliptic curves and modular forms, Poisson-Voronoi tessellations, random triangles, Brownian motion, uncertainty inequalities, Prandtl-Blausius flow from fluid dynamics, Lyapunov exponents, knots and tangles, continued fractions, Galton-Watson trees, electrical capacitance from potential theory, Zermelo's navigation problem and the optimal control of a pendulum. Unsolved problems appear virtually everywhere as well. This volume continues an outstanding scholarly attempt to bring together all significant mathematical constants in one place.

Recent Publications in Natural History, 1990 *Fluid Flows To Black Holes: A Tribute To S Chandrasekhar On His Birth Centenary* Dhruba Jyoti Saikia, Virginia Trimble, 2011-12-28. This unique book contains a biographical portrait, accounts of Chandrasekhar's role and impact on modern science, historical perspectives and personal reminiscences, several of which appeared in *Physics Today* and reviews by leading experts in areas which Prof Chandrasekhar pioneered. The reviews which appeared in the *Bulletin of the Astronomical Society of India* are either based on papers presented by scholars in the Chandrasekhar Centennial Symposium at the University of Chicago during 15-17 October 2010 or were additional reviews covering topics not represented at the conference by other distinguished astrophysicists. It provides a glimpse of some of the most exciting areas of modern astrophysics as a tribute to Prof Chandrasekhar on his birth centenary.
