Radical Discontinuities:

Dualism and Discontinuity in Industrial Societies Suzanne Berger, Michael J. Piore, 1980-09-30 Essays in this volume analyze the fundamental macroeconomic and political structures of contemporary society Studies by Piore examine the labor market and its relationship to technological innovation and capital investment studies by Berger explore the social foundation of political parties and the formation of state policy as it emerges from competitive political forces **Radical Spaces**

Christina Parolin, 2010-12-01 RADICAL SPACES explores the rise of popular radicalism in London between 1790 and 1845 through key sites of radical assembly the prison the tavern and the radical theatre Access to spaces in which to meet agitate and debate provided those excluded from the formal arenas of the political nation the great majority of the population a crucial voice in the public sphere RADICAL SPACES utilises both textual and visual public records private correspondence and the secret service reports from the files of the Home Office to shed new light on the rise of plebeian radicalism in the metropolis It brings the gendered nature of such sites to the fore finding women where none were thought to gather and reveals that despite the diversity in these spaces there existed a dynamic and symbiotic relationship between radical culture and the sites in which it operated These venues were both shaped by and helped to shape the political identity of a generation of radical men and women who envisioned a new social and political order for Britain **Live Visuals** Steve

Gibson, Stefan Arisona, Donna Leishman, Atsu Tanaka, 2022-07-29 This volume surveys the key histories theories and practice of artists musicians filmmakers designers architects and technologists that have worked and continue to work with visual material in real time Covering a wide historical period from Pythagoras's mathematics of music and colour in ancient Greece to Castel's ocular harpsichord in the 18th century to the visual music of the mid 20th century to the liquid light shows of the 1960s and finally to the virtual reality and projection mapping of the present moment Live Visuals is both an overarching history of real time visuals and audio visual art and a crucial source for understanding the various theories about audio visual synchronization With the inclusion of an overview of various forms of contemporary practice in Live Visuals culture from VJing to immersive environments architecture to design Live Visuals also presents the key ideas of practitioners who work with the visual in a live context This book will appeal to a wide range of scholars students artists designers and enthusiasts It will particularly interest VJs DJs electronic musicians filmmakers interaction designers and technologists Discontinuous

Innovation: Learning To Manage The Unexpected Peter Augsdorfer, John Bessant, Kathrin Moslein, Bettina Von Stamm, Frank T Piller, 2013-08-28 This book is based on the findings issues and questions related to an ongoing decade old research project named the Innovation Lab www.innovationlab.org The research project focuses on discontinuous innovation in more than thirteen countries most of which are European and provides useful insights into its different challenges It also raises several questions related to the subject some of which are how do firms pick up weak signals on emerging and possibly radically different innovation What should firms do when these weak signals hit their mainstream process What are the criteria for

allocating resources to a strategic innovation project What actions should firms take to avoid being left out by the corporate immune system How should firms organize projects that often break existing rules and require new rules to be created This book attempts to provide answers to the above mentioned questions by gathering information from the research project and also from firms that have tried exploring various ideas models and insights to tackle discontinuous innovation Written in a simple and accessible manner this book will be of interest to both practitioners and academics alike

Trust and Toleration Richard H. Dees, 2004-08-02 Toleration would seem to be the most rational response to deep conflicts However by examining the conditions under which trust can develop between warring parties it becomes clear that a fundamental shift in values a conversion is required before toleration makes sense This book argues that maintaining trust is the key to stable practices of toleration

Time and History in Prehistory Stella Souvatzi, Adnan Baysal, Emma Baysal, 2018-10-26 Time and History in Prehistory explores the many processes through which time and history are conceptualized and constructed challenging the perception of prehistoric societies as ahistorical Drawing equally on contemporary theory and illustrative case studies and firmly rooted in material evidence this book rearticulates concepts of time and history questions the kind of narratives to be written about the past and underlines the fundamentally historical nature of prehistory From a range of multi disciplinary perspectives the authors of this volume address the scales at which archaeological evidence and narrative are interwoven from a single day to deep history and from a solitary pot to a complete city In doing so they argue the need for a multi scalar approach to prehistoric data that allows for the interplay between short and long term and for analytical units that encourage us to move continuously between scales The growing interest in time and history in archaeology and across a wide range of disciplines concerned with human action and the human past

highlights that these are exceptionally active fields By juxtaposing varied viewpoints this volume bridges gaps in narrative finds a place for inclusive histories and makes clear the benefit of integrative and interdisciplinary approaches including different disciplines and types of data **After the Market** Malcolm Brown,2004 The market economy is dominant in people s lives today and undermines much Christian comment and church practice This book critiques much of the churches recent work on economic issues and proposes a renewed theological seriousness for mission in the economy **Dante's Masterplot and Alternative Narratives in the Commedia** Nicolò Crisafi,2022 Alongside traditional notions of Dante s trademark plurality of linguistic registers and styles this book argues that his narrative pluralism can and should play a key role in contemporary and future readings of the Commedia Theories of Nationalism Umut Ozkirimli,2017-09-16 This widely used and highly acclaimed text provides a comprehensive and balanced introduction to the main theoretical perspectives on nationalism The 3rd edition has been revised and updated throughout and includes a new chapter on the practical outworking of theory in the contemporary politics of nationalism **Strategy for Chaos** Colin Gray,2004-08-02 In this volume Professor Colin Gray develops and applies the theory and scholarship on the allegedly historical practice of the Revolution in Military Affairs RMA in order to improve our comprehension of how and why strategy works The author explores the RMA hypothesis both theoretically and historically The book argues that the conduct of an RMA has to be examined as a form of strategic behaviour which means that of necessity it must work as strategy works The great RMA debate of the 1990s is reviewed empathetically though sceptically by the author with every major school of thought allowed its day in court The author presents three historical RMAs as case studies for his argument those arguably revealed in the wars of the French Revolution and Napoleon in World War I and in the nuclear age The focus of his analysis is how these grand RMAs functioned strategically The conclusions that he draws from these empirical exercises are then applied to help us understand what indeed is and what is not happening with the much vaunted information technology led RMA of today

Crossroads in New Media, Identity and Law Wouter de Been,P. Arora,M. Hildebrandt,2015-05-19 Crossroads in New Media Identity and Law is a compilation of essays on the nexus of new information and communication technologies cultural identity law and politics The essays provoke timely discussions on how these different spheres affect each other and co evolve in our increasingly hyper connected and globalized world A Map of Selves N.M.L. Nathan,2022-04-28 A Map of Selves defines a concept of selfhood radically different from the Cartesian neo Humean materialist and animalist concepts which now dominate analytical philosophy of mind A self as this book defines it is an enduring substance with a quality which is its constant possession which it does not share with any other substance and which is often remembered by it as its own The author maintains that we are selves as so defined He criticises the panpsychist theory that material objects are composed of selves analogous to ours and argues further for the existence of at least one transcendent self whose activity explains both our own existence and the existence of the natural world He ends by considering whether things would be

worse for us if selves as the book defines them did not exist and we were as some philosophers suppose we are just brains or sequences of mental events or hylemorphic structures or subjects which last no longer than the specious present Nathan s carefully argued and original book will be of interest to researchers in metaphysics and philosophical psychology and to their students

Scientific Realism Stathis Psillos,2005-08-02 Scientific realism is the optimistic view that modern science is on the right track This book argues that the history of science does not undermine this notion suggesting it as the best philosophical account of science

Handbook on Postconservative Theological Interpretation Ronald T. Michener,Mark A. Lamport,2024-10-24 Postconservative theology may be said to parallel with postliberal theology at its best Orthodox biblical but open to new insights about how to interpret Scripture But the new insights must be faithful as well as fresh Postconservative theology is not the same as progressive theology which tends to lean toward indeterminant faith expressions whereas postconservative allows for particular faith commitments and expressions but understands that the constructive task of theology is never finished Authors emphasize various interpretive theological lenses used for doing theology among various postconservative theologians rather than emphasizing the philosophical background to hermeneutical theory present in other works such as past influential thinkers including Gadamer Grondin Ricoeur Heidegger etc This resource could also function as a companion to Evangelical Theological Method Five Views 2018 This emphasis of the chapters will not be on the nuts and bolts of how to interpret but rather on the theological impulses that govern various lenses Bible cultural context etc for doing theology and the way Scripture functions with respect to the practice of interpretation

Continuity, Quantum, Continuum, and Dialectic Mark E. Blum,2006 Continuity quantum continuum and dialectic are foundational logics of Western historical thought The historiographical method to discern them is a critique of historical reason Through stylistics Mark E Blum demonstrates how the inner temporal experience of the person shapes both judgment and historical action Blum s work augments the epistemology of Immanuel Kant Wilhelm Dilthey and Edmund Husserl Studies of significant persons from Shakespeare through the Framers of the American Constitution as well as contemporary adolescents illustrate the intergenerational presence of these historical logics Courses in historical method phenomenological philosophy cognitive psychology linguistics and literary theory can benefit from Blum s findings and approach

Military Rule in Latin America Karen Remmer,2025-04-30 First published in 1989 in *Military Rule in Latin America* Karen L Remmer draws upon a wide variety of sources including interviews with top government officials to challenge prevailing interpretations of military rule She questions the assumption that military regimes can be adequately understood in terms of their origins and shows how important variations among them reflect the roles of state actors and institutions In the first part of the book Remmer provides a broad overview of military rule in Latin America in the second a detailed case study of Chile under the Pinochet regime She concludes by examining the implications of her findings for understanding transitions from authoritarianism and the consolidation of democracy This groundbreaking work is essential

Willis,2002 According to Willis confusion about God s holiness is due to the mistake of treating transcendence and immanence as opposites and subsuming holiness almost exclusively under God s transcendence To correct this view Willis begins with the cross and resurrection where the transcending One is freely immanent to fulfill God s covenanting purposes God says Willis is not so much the wholly other as the Holy Other who confronts us as purifying love Willis looks in detail at several facets of holiness love simplicity communion beauty He shows that when we recognize beauty to be an essential aspect of holiness we can better reconsider frequently given definitions of the glory and the sovereignty of God and can better understand something of the awe filled love that this beauty inspires Finally Willis explores how the holiness of God provides the basis for the life of Christian faith and hope in today s world From publisher s description
