**Radical Representations** Barbara Foley, 1993 In this revisionary study Barbara Foley challenges prevalent myths about left wing culture in the Depression era U S Focusing on a broad range of proletarian novels and little known archival material the author recaptures an important literature and rewrites a segment of American cultural history long obscured and distorted by the anti Communist bias of contemporaries and critics Josephine Herbst William Attaway Jack Conroy Thomas Bell and Tillie Olsen are among the radical writers whose work Foley reexamines Her fresh approach to the U S radicals debates over experimentalism the relation of art to propaganda and the nature of proletarian literature recasts the relation of writers to the organized left Her grasp of the left s positions on the Negro question and the woman question enables a nuanced analysis of the relation of class to race and gender in the proletarian novel Moreover examining the articulation of political doctrine in different novelistic modes Foley develops a model for discussing the interplay between politics and literary conventions and genres **Radical Representations** recovers a literature of theoretical and artistic value meriting renewed attention from those interested in American literature American studies the U S left and cultural studies generally

**Whitaker's Books in Print** ,1998      **The Nation** ,1993-07      Book Review Digest ,1996      *Black Literature of Revolutionary Protest from Chicago's South Side* Michelle Yvonne Gordon, 2008      *Subject Guide to Children's Books in Print* 1997 Bowker Editorial Staff, R R Bowker Publishing, 1996-09      Negotiating Censorship in Modern Japan Rachael Hutchinson, 2013-08-21 Censorship in Japan has seen many changes over the last 150 years and each successive system of rule has possessed its own censorship laws regulations and methods of enforcement Yet what has remained constant through these many upheavals has been the process of negotiation between censor and artist that can be seen across the cultural media of modern society By exploring censorship in a number of different Japanese art forms from popular music and kabuki performance through to fiction poetry and film across a range of historical periods this book provides a striking picture of the pervasiveness and strength of Japanese censorship across a range of media the similar tactics used by artists of different media to negotiate censorship boundaries and how censors from different systems and time periods face many of the same problems and questions in their work The essays in this collection highlight the complexities of the censorship process by investigating the responsibilities and choices of all four groups artists censors audience and ideologues in a wide range of case studies The contributors shift the focus away from top down suppression towards the more complex negotiations involved in the many stages of an artistic work all of which involve movement within boundaries as well as testing of those boundaries on the part of both artist and censor Taken together the essays in this book demonstrate that censorship at every

stage involves an act of human judgment in a context determined by political economic and ideological factors This book and its case studies provide a fascinating insight into the dynamics of censorship and how these operate on both people and texts As such it will be of great interest to students and scholars interested in Japanese studies Japanese culture society and history and media studies more generally     *Referatedienst zur Literaturwissenschaft* ,1996     *Bulletin of the Atomic Scientists* ,1966-06 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world     Redacted Jonathan Abel,2012-09-13 At the height of state censorship in Japan more indexes of banned books circulated more essays on censorship were published more works of illicit erotic and proletarian fiction were produced and more passages were Xed out than at any other moment before or since As censors construct and maintain their own archives their acts of suppression yield another archive filled with documents on against and in favor of censorship The extant archive of the Japanese imperial censor 1923 1945 and the archive of the Occupation censor 1945 1952 stand as tangible reminders of this contradictory function of censors As censors removed specific genres topics and words from circulation some Japanese writers converted their offensive rants to innocuous fluff after successive encounters with the authorities But another coterie of editors bibliographers and writers responded to censorship by pushing back using their encounters with suppression as incitement to rail against the authorities and to appeal to the prurient interests of their readers This study examines these contradictory relationships between preservation production and redaction to shed light on the dark valley attributed to wartime culture and to cast a shadow on the supposedly bright open space of free postwar discourse Winner of the 2010 2011 First Book Award of the Weatherhead East Asian Institute Columbia University
