Radical Roots The Shaping Of British Columbia:

Radical Roots Harold Griffin, 1999 **Scotland, empire and decolonisation in the twentieth century** Bryan Glass, John M. MacKenzie, 2017-03-01 This volume represents one of the first attempts to examine the connection between Scotland and the British empire throughout the entire twentieth century As the century dawned the Scottish economy was still strongly connected with imperial infrastructures like railways engineering construction and shipping and colonial trade and investment By the end of the century however the Scottish economy its politics and its society had been through major upheavals which many connected with decolonisation The end of empire played a defining role in shaping modern day Scotland and the identity of its people Written by scholars of distinction these chapters represent ground breaking research in the field of Scotland s complex and often changing relationship with the British empire in the period The introduction that opens the collection will be viewed for years to come as the single most important historiographical statement on Scotland and empire during the tumultuous years of the twentieth century A final chapter from Stuart Ward and Jimmi stergaard Nielsen covers the 2014 referendum **Regulating Lives** John McLaren, Dorothy E. Chunn, Robert J. Menzies, 2002 Nine essays investigate the history of law as an instrument of social control moral regulation and the government focusing primarily on British Columbia Canada where most of the contributors work as scholars in law or criminology Among the areas they tackle are the sex trade the spread of venereal disease the use and abuse of liquor child welfare mental disorder intrafamily sexual abuse Aboriginal culture and traditions and Doukhobor beliefs and customs The studies rely on forays into archival material at the national provincial and local levels Annotation copyrighted by Book News Inc Portland OR From Left to Right Brian T. Thorn, 2016-07-22 In From Left to Right Brian Thorn explores what motivated Canadian women to become politically engaged in the 1940s and 50s Although women in these decades are often depicted as being trapped in the suburbs caring for children baking pies and leaving politics to men they joined diverse political parties including the Social Credit Party the Co operative Commonwealth Federation and the Communist Party of Canada Thorn argues controversially that while women on the left and right had different goals their activism continued to be informed by maternalism They used their roles as wives and mothers to influence their parties positions on war and unions to break down barriers between the private and public spheres and to push for a new world order Along the way they laid the foundations for the 1960s feminist movement **Beyond Hope** Beverley Boissery, Bronwyn Short, 2003-10 This pictorial history tells the stories of the lives involved in this tumultuous but decisive moment in Canadian history *Not Fit to Stay* Sarah Isabel Wallace, 2017-01-31 In the early 1900s panic over the arrival of South Asian immigrants swept up and down the west coast of North America While racism and fear of labour competition were at the heart of this furor public leaders including physicians union leaders civil servants journalists and politicians latched on to unsubstantiated public health concerns to justify the exclusion of South Asians from British Columbia Washington Oregon and California *Not Fit to Stay* examines how and why

South Asians were excluded from immigration through legislation that took effect in Canada and the United States in the early twentieth century This book is an important study of how white North Americans saw first wave South Asian immigrants as separate from and inferior to other groups in the evolving racial hierarchy on the west coast of North America

Report of the Farmers' Institutes of British Columbia Farmers' Institutes of British Columbia,1903 **The Future of Journalism** Bob Franklin,2013-09-13 The future of journalism is hotly contested and highly uncertain reflecting developments in media technologies shifting business strategies for online news changing media organisational and regulatory structures the fragmentation of audiences and a growing public concern about some aspects of tabloid journalism practices and reporting as well as broader political sociological and cultural changes These developments have combined to impoverish the flow of existing revenues available to fund journalism impact radically on traditional journalism professional practices while simultaneously generating an increasingly frenzied search for sustainable and equivalent funding and from a wide range of sources to nurture and deliver quality journalism in the future This book brings together journalists and distinguished academic specialists from around the globe to present the findings from their research and to discuss the future of journalism the shifting quality of its products its wide ranging sources of finance as well as the economic and democratic consequences of the significant changes confronting Journalism The Future of Journalism details the challenges facing the press in contemporary societies and provides essential reading for everyone interested in the role of journalism in shaping and sustaining literate civil and democratic societies This book consists of special issues from Journalism Studies and Journalism Practice *Welcome to Resisterville* Kathleen Rodgers,2014-04-25 Between 1965 and 1975 thousands of American migrants traded their established lives for a new beginning in the West Kootenay region of British Columbia Some were non violent resisters who opposed the war in Vietnam But a larger group was inspired by the ideals of the 1960s counterculture and the New Left and hoping to flee the restrictive demands of their parents world and the pressures of city life they set out to build a peaceful egalitarian society in the Canadian wilderness Even today their success is evident as values like equality sustainability and creativity still define community life This fascinating history draws on interviews and archival records to explore the root causes of this bold migration and its role in creating a region that continues to be a hotbed of social and environmental experimentation *Welcome to Resisterville* is both an important look at an untold chapter

in Canadian history and a compelling story of enduring idealism **Islamic Education in Indonesia and Malaysia** Azmil Tayeb, 2018-03-13 Despite their close geographic and cultural ties Indonesia and Malaysia have dramatically different Islamic education with that in Indonesia being relatively decentralized and discursively diverse while that in Malaysia is centralized and discursively restricted The book explores the nature of the Islamic education systems in Indonesia and Malaysia and the different approaches taken by these states in managing these systems The book argues that the post colonial state in Malaysia has been more successful in centralising its control over Islamic education and more concerned with promoting a restrictive orthodoxy compared to the post colonial state in Indonesia This is due to three factors the ideological makeup of the state institutions that oversee Islamic education patterns of societal Islamisation that have prompted different responses from the states and control of resources by the central government that influences centre periphery relations Informed by the theoretical works of state in society relations and historical institutionalism this book shows that the three aforementioned factors can help a state to minimize influence from the society and exert its dominance in this case by centralising control over Islamic education Specifically they help us understand the markedly different landscapes of Islamic education in Malaysia and Indonesia It will be of interest to academics in the field of Southeast Asian Studies Asian Education and Comparative Education *The Shape of the New* Scott L. Montgomery, Daniel Chirot, 2016-09-20 Offers an impressively learned and evenhanded treatment of the Enlightenment's key ideas and the reactions to them over the past two centuries Zoltan Barany author of *The Soldier and the Changing State* One of the New York Times's 100 Notable Books of 2015 One of Bloomberg Businessweek's Best Books of 2015 This panoramic book tells the story of how revolutionary ideas from the Enlightenment about freedom equality evolution and democracy have reverberated through modern history and shaped the world as we know it today A testament to the enduring power of ideas *The Shape of the New* offers unforgettable portraits of Adam Smith Thomas Jefferson Alexander Hamilton Charles Darwin and Karl Marx heirs of the Enlightenment who embodied its highest ideals about progress and shows how their thoughts over time and in the hands of their followers and opponents transformed the very nature of our beliefs institutions economies and politics Yet these ideas also hold contradictions They have been used in the service of brutal systems such as slavery and colonialism been appropriated and twisted by monsters like Stalin and Hitler and provoked reactions against the Enlightenment's legacy by Islamic Salafists and the Christian Religious Right *The Shape of the New* argues that it is impossible to understand the ideological and political conflicts of our own time without familiarizing ourselves with the history and internal tensions of these world changing ideas With passion and conviction it exhorts us to recognize the central importance of these ideas as historical forces and pillars of the Western humanistic tradition It makes the case that to read the works of the great thinkers is to gain invaluable insights into the ideas that have shaped how we think and what we believe
