threat The lectures rest on a shared commitment to the dignity humanity and unique individuality of each human persona tenet that underpins the human rights movement provides the moral impetus for feminism and indeed is the motivating force behind Amnesty International s campaigning on behalf of political prisoners world wide Ultimately the contributors show us that to speak from the perspective of women to adopt a woman s voice is to enrich our understanding of the rights of all

Feminist Review The Feminist Review Collective,2005-06-29 FR continues to challenge the subjects of the day this issue features a lead article on Perestroika and Prostitution **Thealogy and Embodiment** Melissa Raphael,1996-03-01

Thealogy and Embodiment both analyses and contributes to spiritual feminism s postmodern construction of the female body as a metaphor and medium of divine generativity Addressing religious studies and women s studies students and all those interested in contemporary spirituality Raphael counters reformist feminism s recurrent criticism of goddess feminism as naively essentialist and sub political She presents spiritual feminism as a set of religio political manoeuvres that powerfully resist such patriarchal degradations of female natural generativity as environmental destruction weight reducing diets and menstrual taboos

Teaching Introduction to Women's Studies Carolyn DiPalma,Barbara S. Understanding War Through Intersectional Lens Keshab Giri,2025 The exponential growth in literature on female combatants in rebel groups so far has explored why women rebel where women rebel and when women rebel Yet existing literature largely assume women combatants as homogenous universal category having similar experiences of war and post war In this milieu this book focuses on how women rebel given their multiple intersecting identities and social subjectivities

It looks how female combatants experience war and post war both in public and private spheres by using intersectionality both as a theoretical framework and methodological tool inspired by feminist research methodology to explore complex experiences of women combatants during and after the war This book is based on thirty nine in depth interviews with Maoist female ex combatants their leaders and experts in Nepal between 2017 and 2018 complemented by wide ranging primary and secondary sources such as key Maoist statements and policy documents from the war era women ex combatants memoirs media sources and academic literature The book finds that female combatants experiences of war and post war both in public and private spheres are conditioned by their interlocking systems of oppression and identities such as class caste ethnicity social status educational status and geographical location The book makes an important contribution to the feminist IR literature feminist security studies and has significant policy implications particularly concerning reintegration of female combatants peacebuilding and Women Peace and Security agenda

Burdens of History Antoinette Burton, 2000-11-09 In this study of British middle class feminism in the late nineteenth and early twentieth centuries Antoinette Burton explores an important but neglected historical dimension of the relationship between feminism and imperialism Demonstrating how feminists in the United Kingdom appropriated imperialistic ideology and rhetoric to justify their own right to equality she reveals a variety of feminisms grounded in notions of moral and racial superiority According to Burton Victorian and Edwardian feminists such as Josephine Butler Millicent Garrett Fawcett and Mary Carpenter believed that the native women of colonial India constituted a special white woman s burden Although there were a number of prominent Indian women in Britain as well as in India working toward some of the same goals of equality British

feminists relied on images of an enslaved and primitive Oriental womanhood in need of liberation at the hands of their emancipated British sisters Burton argues that this unquestioning acceptance of Britain's imperial status and of Anglo Saxon racial superiority created a set of imperial feminist ideologies the legacy of which must be recognized and understood by contemporary feminists Prostitution Teela Sanders, Maggie O'Neill, Jane Pitcher, 2009-09-01 This imaginative and comprehensive introduction to the sex industry is as welcome as it is timely This is a rewarding and topical book that I would urge all interested parties to consult Graham Scambler Professor of Medical Sociology University College London A remarkably thorough analysis of prostitution in contemporary society Situating sex work at the intersection of economy occupation and emotion the authors illuminate the complex forces that shape prostitution within an emerging global order Bringing their analysis full circle they close with a helpful exploration of the methods by which researchers are able to investigate an area of such danger and controversy All in all a courageous and important book Jeff Ferrell Visiting Professor of Criminology University of Kent UK and Professor of Sociology Texas Christian University USA This excellent text fills a gap in the market as it explores the full range of issues covering sex work policy and politics A fascinating and informative text which will become the leading handbook in this area Dr Louise Westmarland Senior Lecturer in Criminology The Open University Many commentators have attempted to analyze and explain the nature of prostitution However this is the first textbook to offer a complete overview of the way it operates within contemporary society its characteristics organizational structures and cultural contexts The book also explores how criminal social and health policies have sought to regulate and control the selling of sex This introduction to the sociology and criminology of sex work is comprehensive covering all key areas common to the study of the female sex industry and also includes male and transgender sex work and the sexual exploitation of young people interdisciplinary combining sociological approaches with criminology criminal justice studies social policy health research and sexuality studies comparative including the international context of the sex industry drawing on European and other examples of law regulation and systems that govern the sex industry student focused offering a lively writing style case studies summaries of relevant legislation study questions and guidance on further reading accessible assisting student learning and aiding lecturers in their teaching Written by leading experts with over 20 years experience in researching and teaching in the field this is a must for all criminology criminal justice and sociology students taking modules in sex industry and prostitution studies It will also appeal to those in gender studies and social policy

Fictions of Authority Susan Sniader Lanser, 2018-03-15 Drawing on narratological and feminist theory Susan Sniader Lanser explores patterns of narration in a wide range of novels by women of England France and the United States from the 1740s to the present She sheds light on the history of voice as a narrative strategy and as a means of attaining social power She considers the dynamics in personal voice in authors such as Mary Shelley Charlotte Brontë Zora Neale Hurston and Jamaica Kincaid In writers who attempt a communal voice including Mary Wollstonecraft Elizabeth Gaskell Joan Chase and

Monique Wittig she finds innovative strategies that challenge the conventions of Western narrative *From Eve to Dawn: A History of Women in the World Volume IV* Marilyn French, 2008-09-01 The conclusion of the remarkable four volume history by the New York Times bestselling author of *The Women's Room* Publishers Weekly In the twentieth century women became a force for change in part through suffrage and in part through mass organizing This final volume of Marilyn French's wide ranging survey offers a vibrant history of multiple political revolutions as well as the century's horrors including genocides and the atom bomb It ends with a thoughtful investigation into the various indigenous feminist movements throughout the world and asks what these peaceful revolutions might augur for the future Eschewing easy answers French suggests that the defining moral moments of the twenty first century should and will build from a global human rights agenda Erich Fromm and Critical Criminology Kevin Anderson, Richard Quinney, 2000 Linking the writings of the great humanist psychologist Erich Fromm to criminology this collection shows how viewing crime patterns and the criminal justice system from Fromm's humanist perspective opens a path to more effective and more humane ways of understanding and dealing with crime and criminals Contributors to *Erich Fromm and Critical Criminology* draw on Fromm's writings on alienation sadomasochism and patriarchal matriarchal values to assess the kinds of crimes being committed and the kinds of people committing them They explore the spiritual and intellectual sources of Fromm's thought including Jewish theology Freudian psychoanalysis Marxism and Buddhism and demonstrate how his socialist humanism points toward a society free of crime and violence This volume also includes translations of two of Fromm's early articles on criminal justice never before available in English in which he develops a psychoanalytic Marxist critique of the role of criminal justice in a class society At a time when American society seems bent to an unprecedented degree on imprisonment executions and other violent responses to the problem of crime Fromm's humanist critique offers a unique vantage point from which to renew and develop a critical criminology **Men Doing Feminism** Tom Digby, 2013-10-28 The relation between feminism and men is often presumed to be antagonistic so that men are expected to resist feminism and feminists are assumed to hate men That pattern of opposition is disrupted however by the continually increasing numbers of men who are participating in feminist theory and practice trying to integrate feminist perspectives into their scholarship teaching work play friendships and romantic involvements Responses to this male feminism have varied Sometimes male feminists find some female feminists critical of men who oppose or decline to join feminist projects but also rebuff the few men who do undertake feminist projects On the other hand some women feminists have unequivocally welcomed men as allies in political business religious and academic contexts The essays in *Men Doing Feminism* reveal that there is justification for both views the skeptical and the enthusiastic because feminist men are as diverse as feminist women Many of the eighteen contributors to this book women men blacks whites gays straights transsexuals use personal narrative to show ways that men's lives can shape their approaches to doing feminism and to convey the opportunities and challenges involved in integrating feminism into a man's life Some authors

argue that men's experiences prepare them to make contributions that are of crucial importance to feminist theory. Others argue that men must radically reform or even abandon manhood and masculinity if they are to be feminists. In *Men Doing Feminism*, feminist theory is used to illuminate men's lives and men's lives serve as a basis for feminist theory. The Anti-Abortion Campaign in England, 1966-1989 Olivia Dee, 2019-07-26. This book comprises a history of the anti-abortion campaign in England focusing on the period 1966-1989, which saw the highest concentration of anti-abortion activity during the twentieth century. It examines the tactics deployed by campaigners in their efforts to overturn the 1967 Abortion Act. Key themes include the influence of religion on attitudes towards sexuality and pregnancy, representations of women and the female body, and the varied and often deeply contested attitudes towards the status of the fetus articulated by both anti-abortion and pro-choice advocates during the years 1966-1989.
