Images of Power Jens Andermann, William Rowe, 2006-09-01 In Latin America where even today writing has remained a restricted form of expression the task of generating consent and imposing the emergent nation state as the exclusive form of the political was largely conferred to the image Furthermore at the moment of its historical demise the new postmodern forms of sovereignty appear to rely even more heavily on visual discourses of power However a critique of the iconography of the modern state form has been missing This volume is the first concerted attempt by cultural historical and visual scholars to address the political dimension of visual culture in Latin America in a comparative perspective spanning various regions and historical stages The case studies are divided into four sections analysing the formation of a public sphere the visual politics of avant garde art the impact of mass society on political iconography and the consolidation and crisis of territory as a key icon of the state

The Civil War and the Press S. Kitrell Rushing, 2023-06-14 The power of the American press to influence and even set the political agenda is commonly associated with the rise of such press barons as Joseph Pulitzer and William Randolph Hearst at the turn of the century The latter even took credit for instigating the Spanish American War Their power however had deeper roots in the journalistic culture of the nineteenth century particularly in the social and political conflicts that climaxed with the Civil War Until now historians have paid little attention to the role of the press in defining and disseminating the conflicting views of the North and the South in the decades leading up to the Civil War In *The Civil War and the Press* historians political scientists and scholars of journalism measure the influence of the press explore its diversity and profile the prominent editors and publishers of the day The book is divided into three sections covering the role of the press in the prewar years throughout the conflict itself and during the Reconstruction period Part 1 *Setting the Agenda for Secession and War* considers the rise of the consumer society and the journalistic readership the changing nature of editorial standards and practice the issues of abolitionism secession and armed resistance as reflected in Northern and Southern newspapers the reporting on John Brown s Harper s Ferry raid and the influence of journalism on the 1860 election results Part 2 *In Time of War* includes discussions of journalistic images and ideas of womanhood in the context of war the political orientation of the Jewish press the rise of illustrated periodicals and
