Radical Middle East States And Us Policy:

The Struggle Over Democracy in the Middle East Nathan J. Brown, Emad Shahin, 2013-07-03 Many residents of the Middle East and more recently Western powers have placed great hope in democratization in the region Bringing together a number of experts on the region to provide a broad ranging survey of individual countries this book examines the experiences of activists parties religious groups and governments the influences exerted on them and the difficulties involved in bringing democracy to the Middle East

U.S.-Israeli Relations at the Crossroads Gabriel Sheffer, 1997 The dramatic global regional and domestic changes that occurred after the unpredicted collapse of the Soviet Union have created a need to examine a host of theoretical and practical issues particularly in regard to security and foreign relations The U S Israeli special relationships is no exception This seemed and is still viewed as one of the most solid and stable bilateral relationships Yet the new international and domestic reality in both the U S and Israel warrants a thorough re examination The essays in this collection deal with among other things the general global setting and its implications for this relationship with hard strategic factors and less tangible aspects such as American images of Israel the attitudes of other American religious denominations and the situation of the American Jewish community

Middle East Contemporary Survey, Volume Xvi, 1992 Ami Ayalon, 1994-12 A number of contributors explore contemporary Middle East countries and look at how and if they have moved forward It looks at the rise of religious extremists and the Arab Israeli peace process stimulated by the change of government in Israel

Anti-American Terrorism and the Middle East Barry Rubin, Judith Colp Rubin, 2002-09-12 After the September 11 2001 terrorist attacks on the World Trade Center and the Pentagon a stunned public asked How could this happen Why did the attackers do what they did What did they hope to accomplish This wasn't the first battle in a conflict that has included bombings of U S embassies and planes the Iran hostage crisis and kidnappings or shootings of American citizens This unique volume sets out to answer these questions using the unfiltered words of the terrorists themselves Over many decades radical forces in the Middle East have changed and evolved yet their basic outlook and anti Western views have remained remarkably consistent Barry Rubin and Judith Colp Rubin have assembled nearly one hundred key documents charting the evolution of radical Middle East movements their anti Americanism and Western policy response The buildup to the battle between a world superpower and Middle East revolutionaries is brought dramatically to life Among the documents included are the charters of such organizations as Hizballah Hamas and World Islamic Front speeches by Syrian president Hafiz al Asad and former Iraqi president Saddam Hussein al Qaeda recruitment materials and terrorist training manuals The book also shows and analyzes the often conflicting and deeply conflicted responses to September 11 by journalists clerics and activists in the Arab world Supplemented by an annotated chronology a glossary of terms and sections that put each selection in context this comprehensive reference serves not only as essential historical background to the ongoing aftermath of the September 11 attacks but more generally as an invaluable framework for understanding a long term continuing conflict that

has caused many crises for the United States

What Is Enlightenment? Mohammed D. Cherkaoui, 2016-04-11 Political sociology has struggled with predicting the next turn of transformation in the MENA countries after the 2011 Uprisings Arab activists did not articulate explicitly any modalities of their desired system although their slogans ushered to a fully democratic society These unguided Uprisings showcase an open ended freedom to question after Arabs underwent their freedom from struggle from authoritarianism The new conflicts in Egypt Syria Yemen and Libya have fragmented shar iya legitimacy into distinct conceptualizations revolutionary legitimacy electoral legitimacy legitimacy of the street and consensual legitimacy This volume examines whether the Uprisings would introduce a replica of the European Enlightenment or rather stimulate an Arab Islamic awakening with its own cultural specificity and political philosophy By placing Immanuel Kant in Tahrir Square this book adopts a comparative analysis of two enlightenment projects one Arab still under construction with possible progression toward modernity or regression toward neo authoritarianism and one European shaped by the past two centuries Mohammed D Cherkaoui and the contributing authors use a hybrid theoretical framework drawing on three tanwiri enlightenment philosophers from different eras Ibn Rushd known in the west as Averroes the twelfth century Immanuel Kant the eighteenth century and Mohamed Abed Al Jabri the twentieth century The authors propose a few projections about the outcome of the competition between an Islamocracy vision and what Cherkaoui terms as a Demoslamic vision since it implies the Islamist movements flexibility to reconcile their religious absolutism with the prerequisites of liberal democracy This book also traces the patterns of change which point to a possible Arab Axial Age It ends with the trials of modernity and tradition in Tunisia and an imaginary speech Kant would deliver at the Tunisian Parliament after those vibrant debates of the new constitution in 2014

The New Geopolitics of Eurasia and Turkey's Position Bulent Aras, 2013-01-11 This work explores the geopolitical struggles that are currently underway in the newly independent states of the Caucasus region showing how many players in the region are coalescing into two opposing blocs The growing political military and economic ties amongst the countries of these two blocs stem from a number of developments in the region most notably the fall of the Soviet Union and consequently the end of the Cold War and its bi polar global alliance structure These blocs are competing for influence in the region and the rights to exploit and transport the rich energy resources that have been found in the Caspian Sea The text shows how many actors have been willing to co operate in other non energy related issues in the hope of receiving a financial reward when countries do decide on these matters
